VINGLI 4-Tier Metal Plant Stand Instruction Manual

Model: B0847JS1D6

1. INTRODUCTION

Thank you for choosing the VINGLI 4-Tier Metal Plant Stand. This manual provides detailed instructions for the assembly, usage, and maintenance of your new plant stand. Please read these instructions carefully before assembly and retain them for future reference to ensure safe and optimal use of the product.

2. PRODUCT OVERVIEW

2.1 Features

- Elegant Design:** Features a European-style wrought iron art design with curved and smooth lines, enhancing stability and aesthetic appeal.
- Durable Construction:** Made from powder-coated steel, providing rust resistance and long-lasting durability.
- Space-Saving:** Compact design suitable for various indoor and outdoor spaces.
- Floor Protection:** Designed with smooth, curved feet to prevent scratching floors.
- Versatile Use:** Ideal for displaying plants and flowers in gardens, patios, balconies, hallways, kitchens, living rooms, and offices.

2.2 Specifications

Brand	VINGLI
Model	B0847JS1D6
Material	Alloy Steel, Iron, Metal, Wrought Iron
Color	Black
Shape	Square
Tiers	4

Item Weight	5.49 pounds
Assembly Required	Yes

2.3 Dimensions

The VINGLI 4-Tier Metal Plant Stand measures approximately 30.9 inches in height. The individual shelves are approximately 8.6 inches wide. Specific tier heights are 12.7 inches, 13.9 inches, and 8.4 inches from top to bottom, providing varied display options.

3. PACKAGE CONTENTS

Before assembly, please ensure all parts are present and undamaged. The package should contain:

- Main frame components (pre-assembled sections)
- Screws (pre-attached to the plant stand)

4. ASSEMBLY INSTRUCTIONS

Assembly of the VINGLI 4-Tier Metal Plant Stand is designed to be quick and straightforward, typically requiring only two steps. The necessary screws are pre-attached to the stand to prevent loss.

1. Step 1: Loosen Nuts and Position Components

Carefully identify the main frame components. Locate the nuts that secure the sections together. Loosen these nuts to allow for proper alignment of the connecting pieces.

2. Step 2: Mount and Tighten

Align the upper and lower sections of the plant stand. Ensure the mounting points are correctly engaged. Once aligned, tighten the nuts securely to firmly connect the components. Do not overtighten.

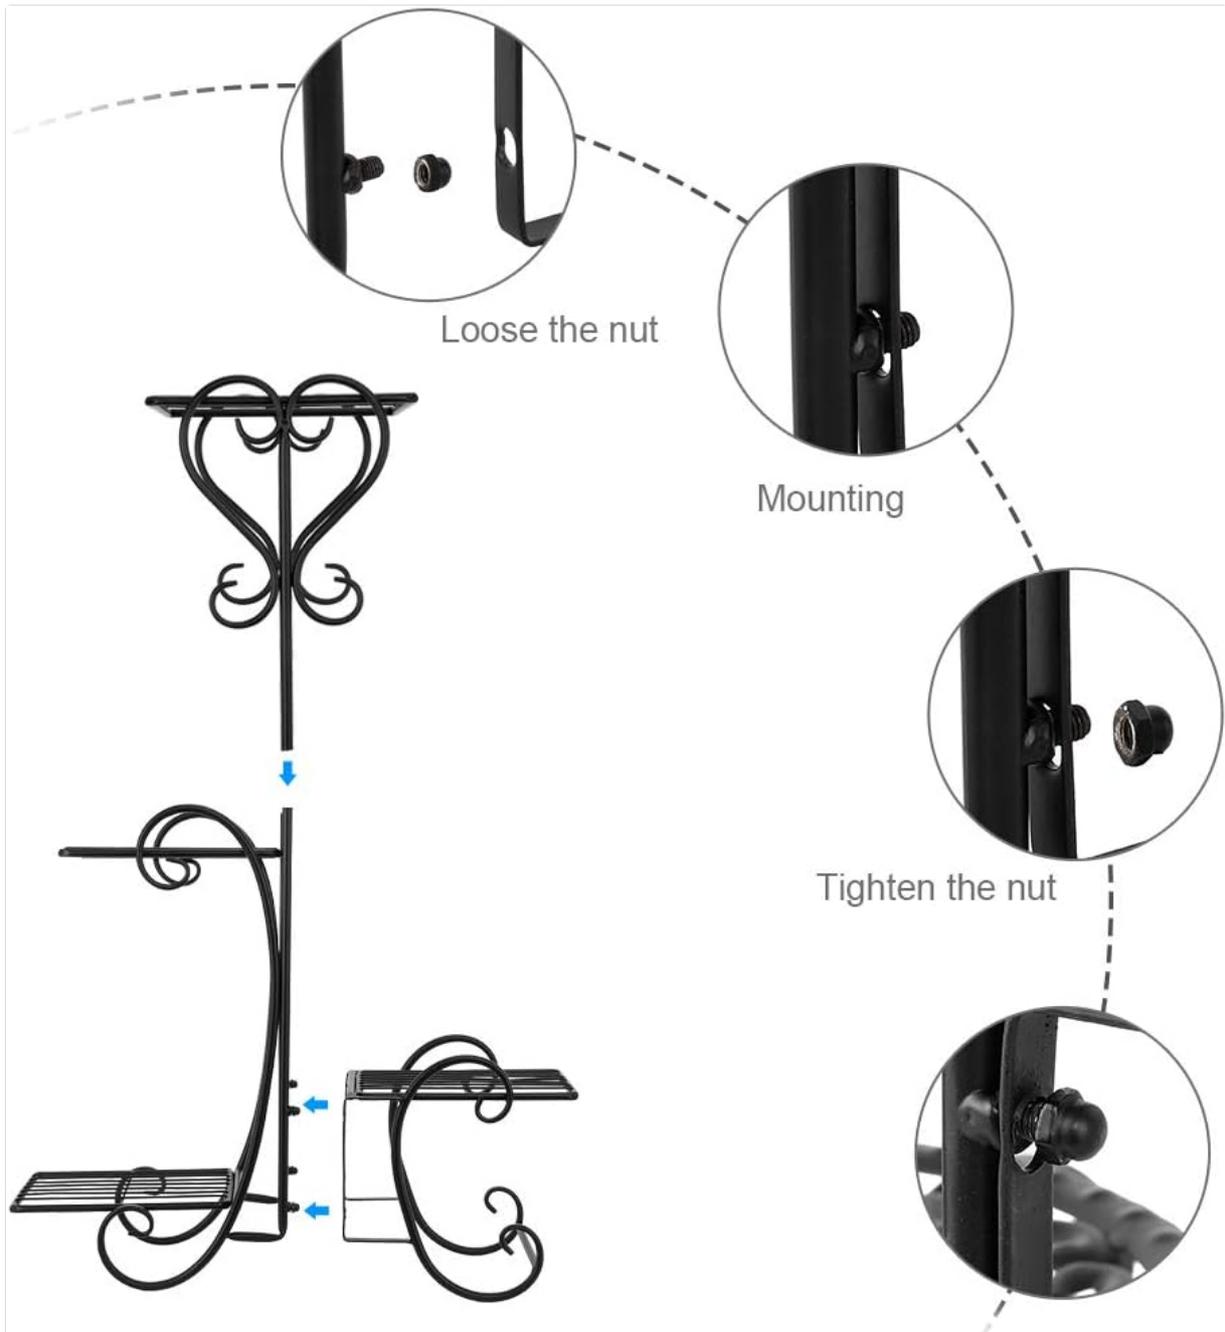

Figure 2: Assembly Diagram

After assembly, gently shake the stand to ensure all connections are stable and secure before placing any plants on it.

5. USAGE GUIDELINES

5.1 Placement

This plant stand is suitable for both indoor and outdoor use. When placing outdoors, consider areas with adequate sunlight for your plants and protection from extreme weather conditions. For indoor use, choose a location that complements your decor and provides sufficient light for your plants.

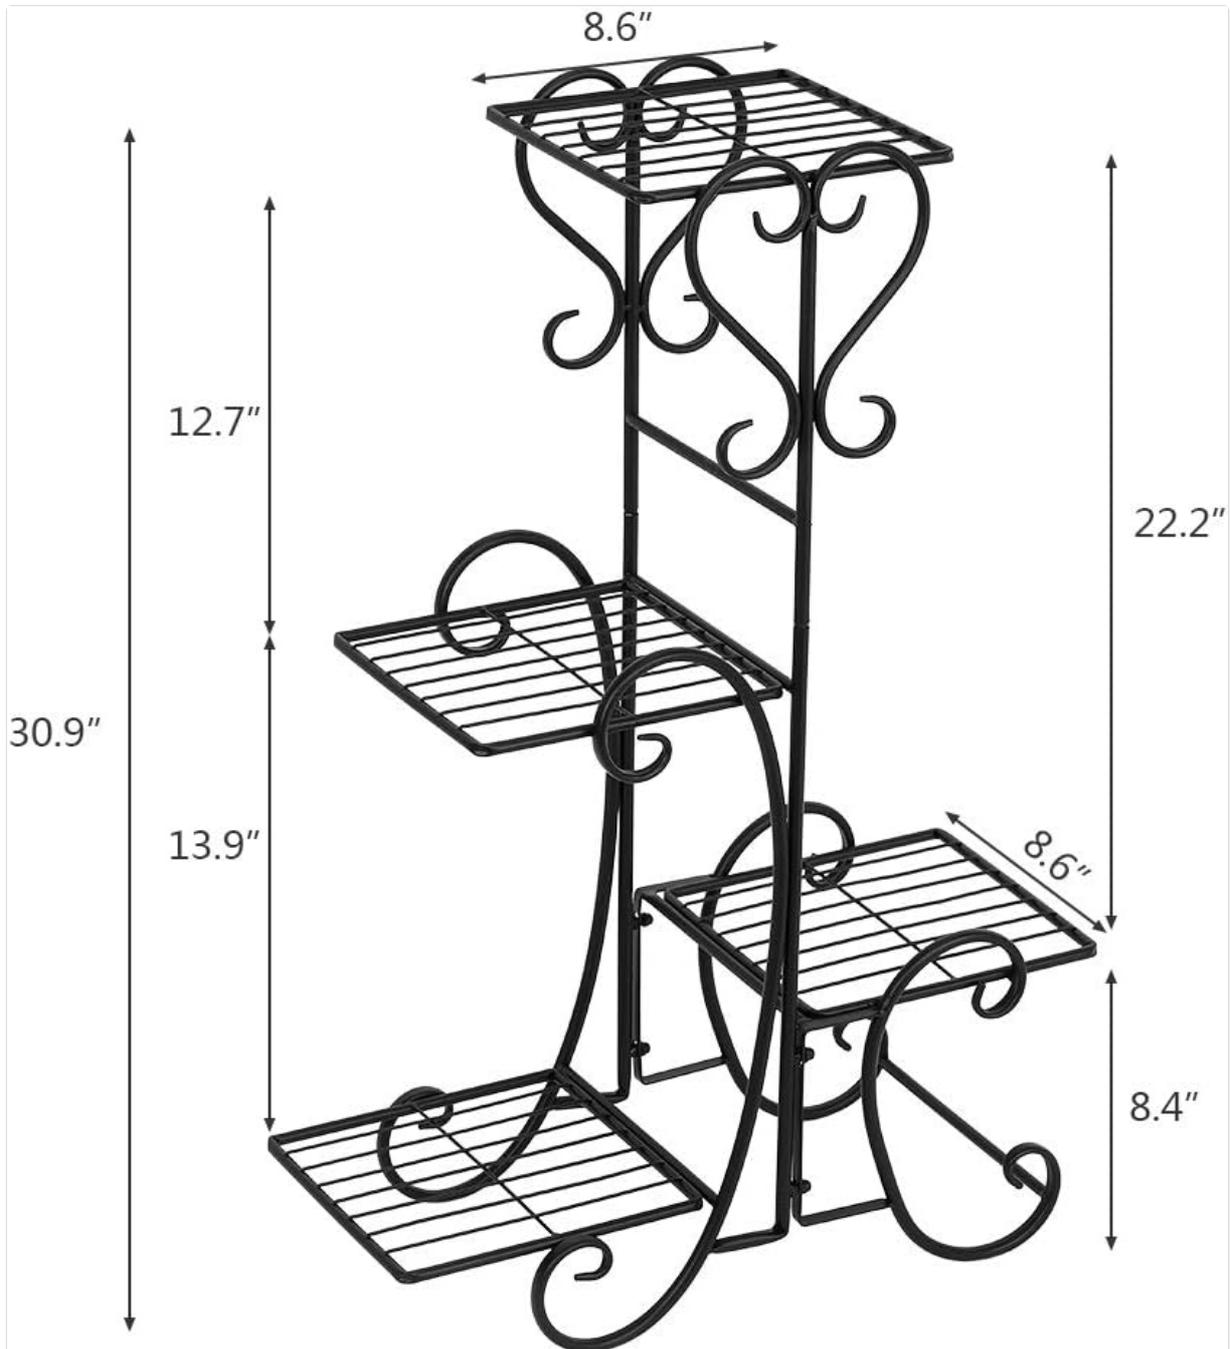

Figure 3: Plant Stand in an Indoor Setting

5.2 Weight Capacity

While the stand is made of durable steel, avoid placing excessively heavy pots on the shelves, especially on the upper tiers, to maintain stability. Distribute weight evenly across the tiers. Consider the weight of the pot, soil, and plant when watered.

6. MAINTENANCE

To ensure the longevity and appearance of your VINGLI Metal Plant Stand, follow these maintenance tips:

- **Cleaning:** Wipe the stand regularly with a soft, damp cloth to remove dust and dirt. For stubborn marks, a mild soap solution can be used, followed by drying thoroughly.
- **Rust Prevention:** Although powder-coated for rust resistance, prolonged exposure to moisture can lead to rust. If used outdoors, consider bringing it indoors during heavy rain or winter months. Inspect for any scratches in the coating and touch up with rust-resistant paint if necessary.
- **Inspection:** Periodically check all connections and screws to ensure they remain tight. Retighten if any looseness is detected.

7. SAFETY INFORMATION

- Do not exceed the recommended weight capacity for each shelf.
- Ensure the stand is placed on a flat, stable surface to prevent tipping.
- Keep children and pets away from the stand during assembly and when loaded with plants to prevent accidents.
- Avoid climbing or leaning heavily on the plant stand.

8. TROUBLESHOOTING

8.1 Stand is Unstable

- **Check Connections:** Ensure all nuts and bolts are securely tightened.
- **Level Surface:** Verify that the stand is placed on a completely flat and level surface. Uneven surfaces can cause wobbling.
- **Weight Distribution:** Redistribute plants to ensure weight is evenly balanced across the shelves.

8.2 Rust Appears

- **Identify Source:** Determine if the rust is due to prolonged moisture exposure or damage to the powder coating.
- **Clean and Treat:** Gently clean the rusted area. For minor rust, a rust-removing solution or fine-grit sandpaper can be used, followed by applying a rust-inhibiting primer and paint.
- **Preventative Measures:** If used outdoors, consider moving the stand to a sheltered area during wet weather or applying a protective sealant periodically.

9. WARRANTY AND SUPPORT

For warranty information, product support, or to inquire about replacement parts, please contact VINGLI customer service through the retailer where the product was purchased or visit the official VINGLI website. Please have your model number (B0847JS1D6) and purchase date available when contacting support.
