## Luxor LUXPWR-WH

# Luxor LuxPower Mobile AC and USB Charging Tower User Manual

Model: LUXPWR-WH

### PRODUCT OVERVIEW

The Luxor LuxPower Mobile AC and USB Charging Tower is designed to provide convenient power access for multiple electronic devices in dynamic environments. This versatile tower features 8 USB charging ports and 8 AC outlets, allowing up to 16 devices to be charged simultaneously. Its height-adjustable platform, topped with a padded surface, safely accommodates smartphones and tablets. Equipped with hidden wheels, the tower can be effortlessly transported and repositioned, making it an ideal solution for classrooms, conference centers, coworking spaces, offices, and any setting where mobile power is essential.

## KEY FEATURES

- **Simultaneous Charging:** Includes 8 AC outlets and 8 USB ports to charge up to 16 devices concurrently.
- **Distributed Power:** Two AC power outlets and two USB ports are conveniently located on each of the four sides of the tower.

- **Device Platform:** Features a 14" x 14" padded platform designed to safely hold phones and tablets while charging.
- **Adjustable Height:** Height can be adjusted between 26.5" and 40" to suit various table and counter-height surfaces.
- **Durable Construction:** Built with a robust powder-coated steel frame in a bright white finish for long-lasting use.
- **Enhanced Mobility:** A pair of hidden casters in the base allows for easy transport and repositioning within any space.
- **Convenient Transport:** Underside handles further assist in moving the mobile power tower.
- **Integrated Cord Management:** Features an integrated cord wrap for neat cable storage.
- **Ready to Use:** No assembly required, allowing for immediate deployment.
- **Safety Certified:** UL and cUL 962A certified for safety and reliability.

## SETUP AND INITIAL USE

The Luxor LuxPower Mobile AC and USB Charging Tower comes fully assembled, requiring no additional setup. Simply unbox the unit and place it in your desired location. Ensure the location is on a stable, level surface and within reach of a standard 125-volt AC wall outlet.

1. **Unpack:** Carefully remove the charging tower from its packaging.
2. **Position:** Place the tower in a central location where multiple users can easily access the charging ports. The hidden casters allow for easy movement.
3. **Connect Power:** Extend the 12-foot power cord and plug it into a grounded 125-volt AC wall outlet.
4. **Ready for Use:** The tower is now ready to charge your devices.

## OPERATING INSTRUCTIONS

The LuxPower Charging Tower is designed for simple and intuitive operation.

### Charging Devices:

The tower provides both AC outlets and USB-A ports for a wide range of devices.

- **AC Outlets:** Plug your device's AC power adapter directly into any of the 8 available 125-volt AC outlets. These are distributed with two outlets on each of the four sides.
- **USB Ports:** Connect your device's USB charging cable to any of the 8 2.4A USB-A ports. These are also distributed with two ports on each of the four sides.
- **Device Placement:** Utilize the 14" x 14" padded top platform to safely place smartphones, tablets, or other small devices while they charge.

A detailed view of the charging tower's top section, illustrating the accessible AC outlets and USB ports.

## Adjusting Height:

The tower's height can be adjusted to accommodate different environments and user needs.

- The tower's height is adjustable in 4.5" increments, providing a total height adjustment of 13.5".
- To adjust the height, locate the adjustment mechanism on the central column. Follow the instructions provided on the unit itself or refer to the quick start guide for specific steps on engaging the locking pins and raising/lowering the platform.
- Ensure the platform is securely locked in place at the desired height before placing devices on it.

## MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your LuxPower Mobile AC and USB Charging Tower, follow

these simple maintenance guidelines:

- **Cleaning:** Regularly wipe down the exterior surfaces with a soft, dry cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by drying thoroughly. Avoid abrasive cleaners or solvents.
- **Port Inspection:** Periodically check the AC outlets and USB ports for any dust, debris, or damage. Use compressed air to clear out dust if necessary.
- **Cord Management:** Utilize the integrated cord wrap to keep the power cord neatly stored when not in use or during transport, preventing tangles and damage.
- **Mobility:** Ensure the hidden casters are free of obstructions to allow for smooth movement.
- **Storage:** When not in active use for extended periods, store the tower in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

If you encounter any issues with your LuxPower Mobile AC and USB Charging Tower, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No power to outlets/USB ports.	Power cord not fully plugged in; Wall outlet not active; Internal circuit breaker tripped.	Ensure power cord is securely plugged into both the tower and a working wall outlet. Test the wall outlet with another device. Check if the tower has a reset button for a tripped circuit breaker (refer to product label if present).
Device not charging via USB.	Faulty USB cable; Device not compatible; USB port overloaded.	Try a different USB cable. Ensure your device is compatible with standard USB-A charging. Disconnect other devices from USB ports to reduce load.
Height adjustment mechanism is stuck.	Debris in mechanism; Locking pins not fully disengaged.	Inspect the adjustment column for any foreign objects. Ensure locking pins are fully disengaged before attempting to adjust height. Do not force the mechanism.
Tower is unstable or wobbles.	Uneven surface; Casters not properly aligned.	Ensure the tower is placed on a flat, level surface. Check if the hidden casters are aligned correctly and not obstructed.

## TECHNICAL SPECIFICATIONS

Specification	Detail
Overall Dimensions	14" W x 14" D x 26.5" to 40" H
Height Adjustment	13.5" (in 4.5" increments)
AC Power	8 x 125-volt AC outlets
USB Power	8 x 2.4A USB-A ports
Mobility	2" casters (2, hidden in the base)
Cord Length	12 feet
Product Weight	34 lbs
