Bell+Howell 7123

Bell+Howell Triburst Deluxe LED Light Instruction Manual

Model: 7123 | Brand: Bell+Howell

1. Introduction

Thank you for choosing the Bell+Howell Triburst Deluxe LED Light. This innovative lighting solution is designed to provide ultra-bright, multi-directional illumination for various indoor spaces such as garages, basements, attics, and more. With its easy installation and adjustable panels, the Triburst Deluxe offers superior brightness and energy efficiency compared to traditional light bulbs.

Figure 1.1: Bell+Howell Triburst Deluxe LED Light in its retail packaging, highlighting its 5500 lumens brightness and 5-year warranty.

Key Features:

- **Easy Installation:** Screws into any standard E26/E27 lightbulb socket.
- **Super Bright Illumination:** Features 144 high-intensity LED bulbs, providing 5500 lumens of cool temperature light.
- **Adjustable Light Direction:** Three hinged panels allow for directional lighting to focus on desired areas.
- **Durable Construction:** Made from industrial-grade aluminum for enhanced durability.
- **Energy Efficient:** Designed to consume significantly less electricity while providing quadruple the brightness of standard bulbs.

2. Safety Information

Please read all safety instructions carefully before installing or using the Bell+Howell Triburst Deluxe LED Light. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the power is turned off at the circuit breaker before installation or maintenance.
- Do not install in wet locations or areas exposed to direct water spray, as the product is not water resistant.
- Do not disassemble or modify the light. There are no user-serviceable parts inside.
- Avoid looking directly into the light source when it is illuminated, as the high brightness may cause eye strain or temporary vision impairment.
- This product is designed for indoor use only.
- Ensure the light fixture is securely installed and can support the weight of the Triburst Deluxe LED Light.

3. Package Contents

Verify that all items are present and in good condition upon opening the package.

- 1 x Bell+Howell Triburst Deluxe LED Light (Model 7123)

4. Setup and Installation

The Bell+Howell Triburst Deluxe LED Light is designed for quick and easy installation into any standard E26/E27 lightbulb socket.

1. **Turn off Power:** Before beginning installation, ensure the power to the light fixture is turned off at the circuit breaker to prevent electrical shock.
2. **Remove Existing Bulb (if any):** Carefully unscrew and remove any existing light bulb from the socket.
3. **Screw in Triburst Deluxe:** Gently screw the Bell+Howell Triburst Deluxe LED Light into the standard E26/E27 lightbulb socket until it is securely fastened. Do not overtighten.
4. **Restore Power:** Once the light is securely installed, turn the power back on at the circuit breaker.

Figure 4.1: The Bell+Howell Triburst Deluxe LED Light with its three adjustable panels, ready to be screwed into a standard light socket. This image illustrates the product's design and its compatibility with common light fixtures.

5. Operating Instructions

The Bell+Howell Triburst Deluxe LED Light operates like a standard light bulb once installed. Its unique feature is the adjustable panels, allowing you to direct light where it's needed most.

1. **Turning On/Off:** Use your existing light switch to turn the Triburst Deluxe LED Light on or off. No special switch adjustments are necessary.
2. **Adjusting Light Direction:** Gently pivot each of the three LED panels to direct the light. The panels can be adjusted up to 90 degrees to illuminate specific areas or spread light more broadly.

Figure 5.1: A close-up view of the Bell+Howell Triburst Deluxe LED Light demonstrating the 90-degree adjustable hinged panels. This feature allows users to customize the light's direction for optimal illumination in any space.

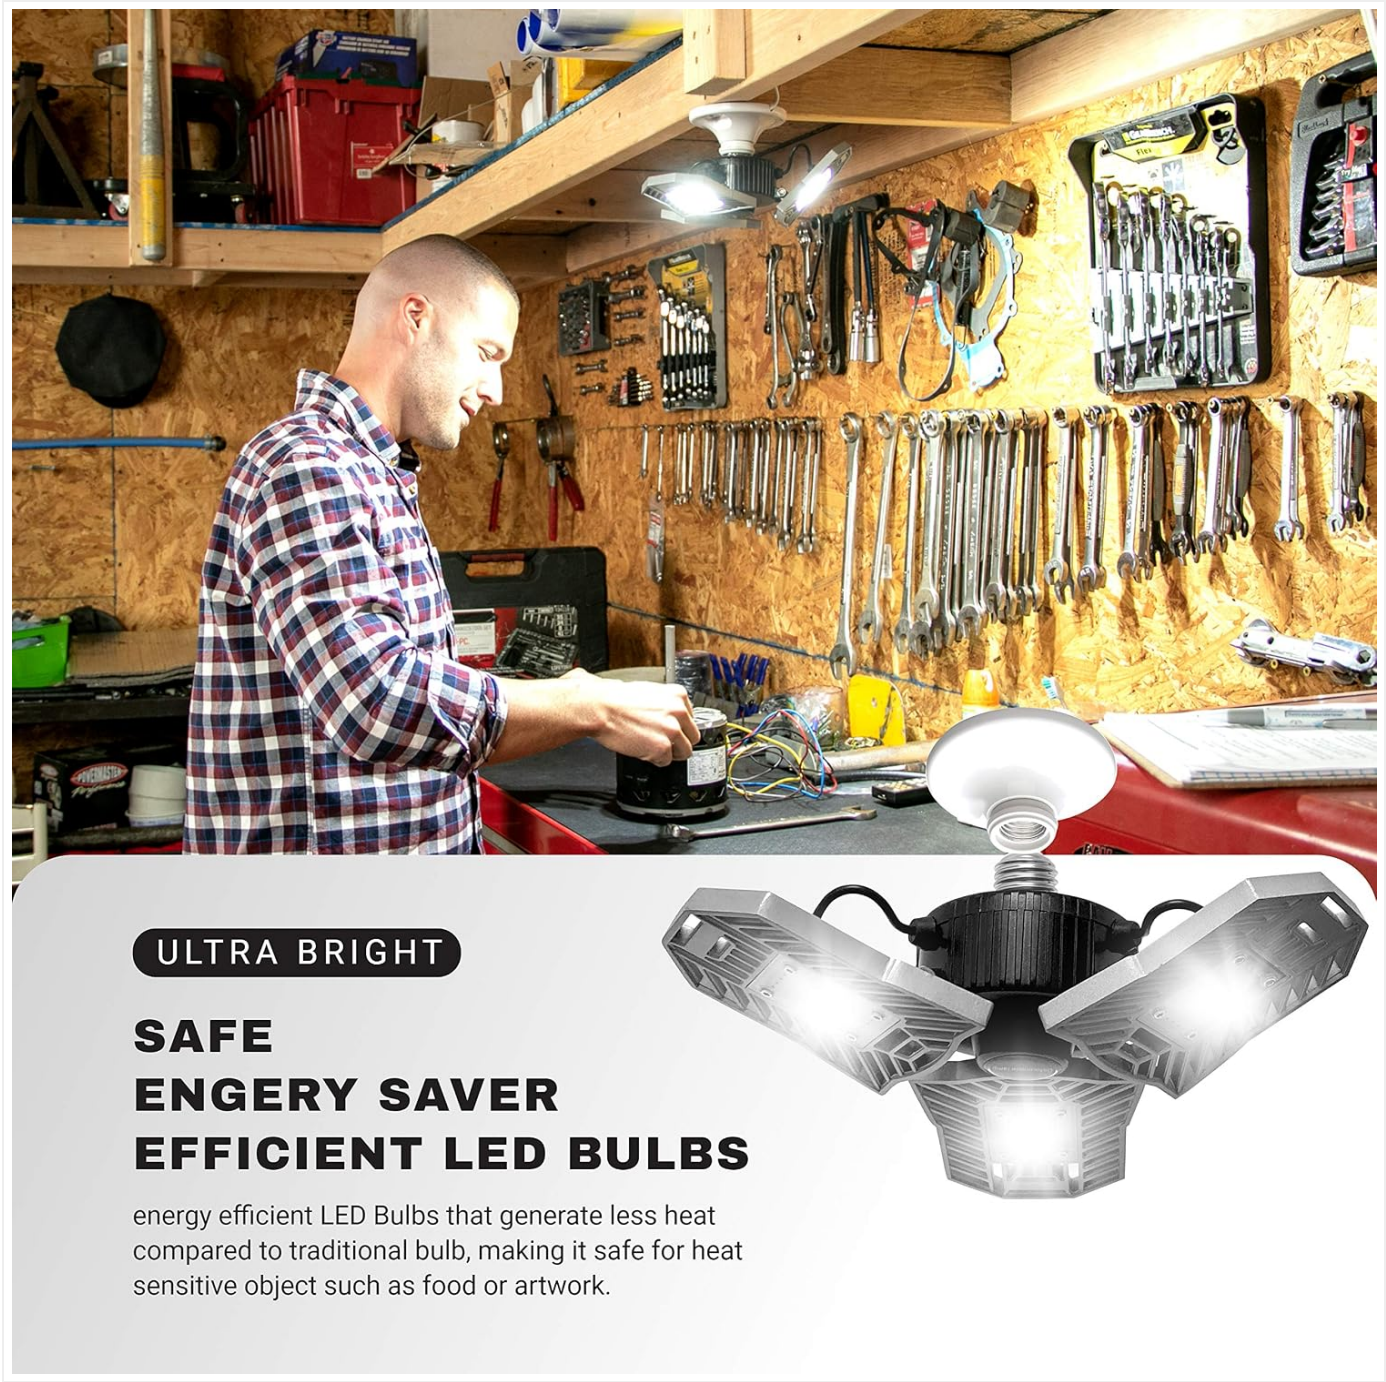

Figure 5.2: An example of the Bell+Howell Triburst Deluxe LED Light providing ample illumination in a garage workshop. The bright, multi-directional light enhances visibility for tasks and general use.

6. Maintenance

The Bell+Howell Triburst Deluxe LED Light requires minimal maintenance due to its durable construction and long-lasting LED technology.

- **Cleaning:** To clean the light, ensure the power is off at the circuit breaker. Use a soft, dry cloth to wipe down the surfaces. Do not use liquid cleaners or abrasive materials, as they may damage the finish or electrical components.
- **Bulb Replacement:** The LED bulbs are integrated and designed to last up to 50,000 hours or more than 5 years, eliminating the need for frequent bulb replacement. If the light stops functioning, refer to the Troubleshooting section.

7. Troubleshooting

If you encounter issues with your Bell+Howell Triburst Deluxe LED Light, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the socket, loose connection, or faulty unit.	Check the light switch and ensure it is in the "ON" position. Verify the circuit breaker for the light fixture is not tripped. Carefully unscrew and re-screw the Triburst Deluxe into the socket to ensure a secure connection. Test the socket with another working bulb to confirm power supply.
Light flickers.	Loose connection or unstable power supply.	Ensure the light is securely screwed into the socket. Check for any loose wiring in the light fixture (consult a qualified electrician if unsure). Ensure the light is not connected to a dimmer switch, as this product is not designed for dimming.
Light is not bright enough.	Panels are not optimally positioned.	Adjust the three hinged panels to direct light towards the desired area for maximum illumination.

If the problem persists after trying these solutions, please contact Bell+Howell customer support for further assistance.

8. Specifications

Brand	Bell+Howell
Model Number	7123
Brightness	5500 Lumens
Color Temperature	6500 Kelvin (Cool White)
Wattage	12 Watts
Voltage	120 Volts
Bulb Base	E26 (Standard Medium Screw Base)
Light Source Type	LED (144 high-intensity LED bulbs)
Material	Alloy Steel
Product Dimensions	8.99 x 5.07 x 8.99 inches
Item Weight	1.41 Pounds
Indoor/Outdoor Usage	Indoor
Water Resistance Level	Not Water Resistant
UPC	080313071232
