## Miko jinmoqiang-018

# Miko Shiatsu Foot Massager Machine: User Manual

Model: jinmoqiang-018

## INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Miko Shiatsu Foot Massager Machine. This device is designed to provide deep kneading shiatsu massage, air compression, and heat therapy for your feet, ankles, and calves. Please read this manual thoroughly before operation and retain it for future reference.

## SAFETY INFORMATION

Always read all instructions before using this appliance. Failure to follow these instructions may result in injury or damage to the device.

- Do not use this massager if you have any medical conditions that may be exacerbated by massage, such as open wounds, skin infections, or severe circulatory problems. Consult a physician before use if you have concerns.
- Keep the device away from water and moisture. Do not use in a bathroom or near a sink.
- Unplug the massager from the power outlet when not in use and before cleaning.
- Do not operate the massager if the cord or plug is damaged, or if the device malfunctions or has been dropped or damaged.
- Keep out of reach of children. This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities unless supervised.
- Do not stand on the device. Use only while seated.
- Avoid prolonged use on one area. Move the massager periodically to prevent excessive stimulation.
- The heat function is intended for comfort and should not be used as a medical treatment. If you experience discomfort, discontinue use.

## PRODUCT OVERVIEW

The Miko Shiatsu Foot Massager Machine features multiple functions to provide a comprehensive massage experience.

- **Deep Kneading Shiatsu Massage:** Utilizes rotation balls and rolling sticks to target pressure points.
- **Heat Therapy:** Provides gentle warmth to enhance relaxation.
- **Air Compression:** Inflatable airbags apply pressure to feet, ankles, and calves.
- **Adjustable Bar:** Allows for positioning to massage feet, ankles, legs, and calves.
- **Wireless Remote Control:** For convenient adjustment of settings.

- **LCD Touch Screen:** Integrated control panel on the device.
- **Auto Shut-off Timer:** Ensures safe usage duration.

#### SETUP

- Unpacking:** Carefully remove the massager and all accessories from the packaging. Ensure all components are present: the main massager unit and the wireless remote control.
- Placement:** Place the massager on a flat, stable surface in a comfortable seating area. Ensure there is enough space around the unit for proper ventilation and to adjust the angle.
- Power Connection:** Plug the power cord into a standard electrical outlet. The device is corded electric.
- Initial Use:** The device is ready for use once plugged in. No charging is required before first use.

THE  
MAS II

## OPERATING INSTRUCTIONS

- Positioning:** Sit comfortably and place your feet into the foot massager, ensuring they are properly positioned within the foot chambers. For calf or ankle massage, adjust the integrated bar to your preferred angle.
- Power On:** Press the Power button on the control panel or the wireless remote to turn on the device. The LCD screen will illuminate.
- Select Massage Mode:** Use the 'Mode' button on the control panel or remote to cycle through the available massage modes (e.g., Rolling + Air Pressure, Rolling + Vibration, Air Pressure only).
- Adjust Air Pressure Intensity:** Use the 'Air Pressure Intensity' buttons (up/down arrows) to select from 5 pressure settings (P1 being lowest, P5 highest).
- Activate Heat Therapy:** Press the 'Heat' button to turn the heat function on or off.
- Activate Vibration:** Press the 'Vibration' button to turn vibration on or off, or to select low/high intensity if available.
- Sway Function:** The device includes a sway function. Refer to the control panel or remote for its activation.

- Recommended Use:** Begin with pressure level 1 for approximately 15 minutes per day. Gradually increase intensity as you become accustomed to the massage experience. A slight soreness after initial uses is normal.
- Automatic Shut-off:** The massager is equipped with an automatic shut-off timer, typically set for 20 minutes, to prevent overuse.
- Power Off:** Press the Power button again to turn off the massager when finished. Unplug the device from the power outlet.

## MAINTENANCE

- Cleaning:** Always unplug the massager before cleaning. Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water.
- Foot Pads:** The internal foot pads are removable and washable. Gently remove them, hand wash with mild soap, and allow them to air dry completely before reinserting.
- Storage:** Store the massager in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid placing heavy objects on top of the unit.

## TROUBLESHOOTING

| Problem                                | Possible Cause  | Solution   |
|--|---|--|
| Massager does not turn on.             | Not plugged in; power outlet issue; power button not pressed. | Ensure power cord is securely plugged into a working outlet. Press the power button firmly.  |
| No heat or weak heat.                  | Heat function not activated; device not warmed up yet.        | Press the heat button. Allow a few minutes for the heating elements to warm up.  |
| Massage feels too intense or too weak. | Incorrect intensity setting; improper foot positioning.       | Adjust the air pressure intensity settings. Reposition your feet for optimal comfort.  |
| Remote control not working.            | Battery depleted; obstruction between remote and unit.        | Replace remote control batteries. Ensure no objects are blocking the signal path.  |
| Device shuts off unexpectedly.         | Automatic shut-off timer activated; overheating protection.   | This is normal operation for the 20-minute timer. If it shuts off sooner, unplug and allow to cool for 30 minutes before restarting. |

## SPECIFICATIONS

- Model Number:** jinmoqiang-018
- Brand:** Miko
- Dimensions:** 53 cm (L) x 43 cm (W) x 25 cm (H)
- Weight:** 9.07 kg (20 lbs)
- Power Source:** Corded Electric
