Better Living HiRISE 4-Corner Tension Pole Shower Caddy Instruction Manual

Model: 70054

INTRODUCTION

Thank you for choosing the Better Living HiRISE 4-Corner Tension Pole Shower Caddy. This rust-proof aluminum shower organizer is designed to maximize space in your shower or bathtub with its adjustable baskets and tension pole system. It also includes a bonus fog-resistant mirror for added convenience.

SETUP AND ASSEMBLY

Follow these steps to correctly assemble and install your shower caddy. No tools are required for assembly.

1. Unpack Components

Carefully remove all parts from the packaging. Verify that all components are present according to the parts list in your package.

BONUS SHOWER MIRROR

Image: All individual components of the shower caddy, including the tension pole sections, four corner shelves, and end caps, neatly arranged on a surface before assembly.

2. Assemble the Tension Pole

1. Connect the pole sections by twisting them together. Ensure they are securely fastened. The pole is designed to extend from 5 feet to 9 feet (60 to 108 inches) to fit various shower and bathtub heights.
2. Attach the rubber end caps to the top and bottom of the assembled pole. These caps provide stability and protect your shower surfaces.

3. Install the Shelves

1. Slide the four adjustable corner baskets onto the pole. The shelves can be positioned at any desired height.
2. Secure each shelf in place using the provided rubber rings or locking mechanisms. Ensure the shelves are level and stable.

4. Position the Caddy

Place the assembled caddy in a corner of your shower or bathtub. Extend the tension pole until it firmly presses against the ceiling and floor, ensuring a secure fit. The spring-loaded mechanism will hold it in place.

OPERATING INSTRUCTIONS

Adjustable Baskets

The four corner baskets can be adjusted vertically along the tension pole to accommodate items of various heights. Simply release the locking mechanism, slide the basket to the desired position, and re-engage the lock. This allows for flexible storage of shampoos, conditioners, soaps, and other shower essentials.

Inverted Bottle Holders

Some baskets feature inverted bottle holders, allowing you to store bottles upside down. This design helps to dispense every last drop of product, reducing waste.

Image: A detailed shot of the inverted bottle holder integrated into a shower caddy shelf, showing a bottle stored upside down for easy dispensing.

Accessory Hooks

The caddy includes movable accessory hooks. These hooks are ideal for hanging loofahs, washcloths, razors, or other small shower items, keeping them within easy reach and allowing them to air dry.

Fog-Resistant Mirror

A bonus fog-resistant mirror is included for tasks such as shaving in the shower. Position it on any shelf for optimal viewing.

MAINTENANCE

To ensure the longevity and cleanliness of your shower caddy, follow these maintenance guidelines:

- **Regular Cleaning:** Wipe down the shelves and pole regularly with a mild soap and water solution. Rinse thoroughly to prevent soap scum buildup.
- **Rust-Proof Design:** The caddy is made from rust-proof aluminum and durable plastic, minimizing the need for rust removal. However, regular cleaning helps maintain its appearance.
- **Drainage:** The shelves are designed with drainage holes to prevent water accumulation and inhibit mold or mildew growth. Ensure these holes remain clear.
- **Check Stability:** Periodically check the tension pole to ensure it remains firmly secured between the ceiling and floor. Adjust if necessary.

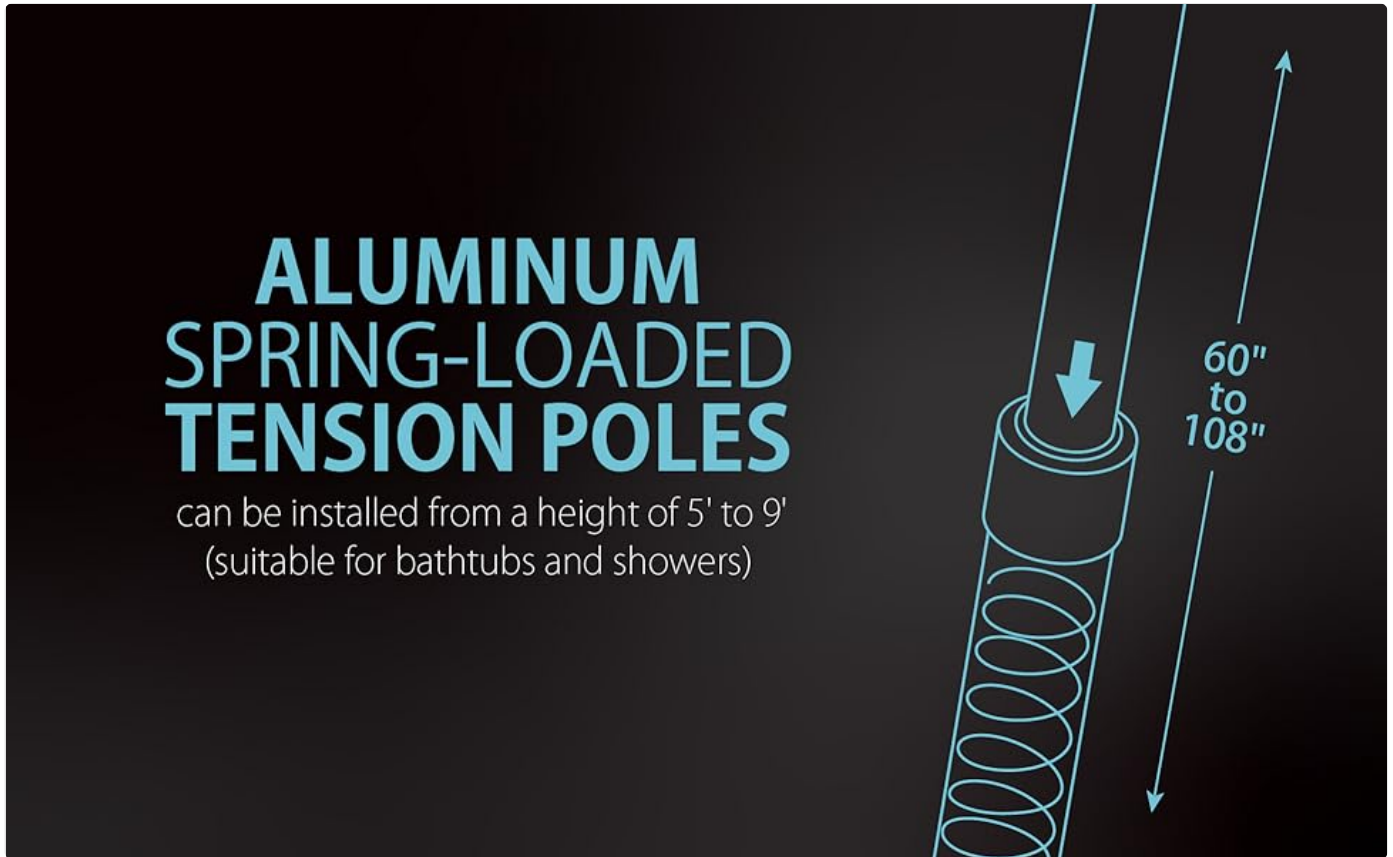

Image: A graphic emphasizing the "RUST PROOF" feature of the shower caddy, indicating its durable construction for wet environments.

TROUBLESHOOTING

- **Caddy is not stable:** Ensure the tension pole is fully extended and firmly pressed against both the ceiling and floor. The spring mechanism should provide adequate pressure. Re-adjust the pole if it feels loose.
- **Shelves are slipping:** Make sure the rubber rings or locking mechanisms for each shelf are properly engaged and tightened. If the rings are worn, they may need replacement.
- **Water accumulation on shelves:** Check that the drainage holes on each shelf are not blocked by soap residue or debris. Clean them as part of routine maintenance.

SPECIFICATIONS

Brand	Better Living
Model Name	70054
Material	Plastic, Aluminum (pole)

Color	White
Mounting Type	Tension Mount
Number of Compartments	4
Adjustable Height	5 to 9 feet (60 to 108 inches)
Special Features	Space-saving, Adjustable, Rust-proof, Fog-resistant mirror
Item Weight	3.9 Pounds
UPC	773315700544
