CaDA C81008W

RCWare CaDA C81008W Micro UZI Building Block Set

Instruction Manual

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your RCWare CaDA C81008W Micro UZI building block set. Designed for enthusiasts aged 8 and older, this set allows you to construct a detailed replica with a functional shooting mechanism. Please read this manual carefully before beginning assembly to ensure a smooth and enjoyable building experience.

SAFETY INFORMATION

WARNING:

- This set contains small parts and is not suitable for children under 3 years of age due to choking hazards.
- Do not aim the projectile launcher at eyes or face.
- Use only the projectiles provided with this set. Do not modify projectiles or the launcher.
- Adult supervision is recommended during assembly and play, especially for younger users.

PACKAGE CONTENTS

Please verify that all components are present before starting assembly:

- 1 x "Micro UZI" Building Block Set (359 parts)
- 6 x Projectiles
- 1 x Detailed Assembly Manual

SETUP (ASSEMBLY)

The CaDA C81008W Micro UZI set comes with a detailed assembly manual. Follow the step-by-step instructions provided in the included manual for proper construction.

1. **Unpack Components:** Carefully open the box and sort the building blocks by color or type as suggested in the assembly manual.
2. **Follow Instructions:** Refer to the included detailed assembly manual. Each step is illustrated to guide you through

the building process.

3. **Secure Connections:** Ensure all clamping building blocks are firmly connected to achieve strong holding power and structural integrity.
4. **Verify Functionality:** Once assembled, test the moving parts and the shooting mechanism to ensure everything operates correctly before proceeding to play.

If you encounter any difficulties during assembly, double-check the previous steps in the manual or refer to the troubleshooting section.

OPERATING

Your CaDA C81008W Micro UZI model features a functional shooting mechanism.

1. **Loading Projectiles:** Insert one of the six provided projectiles into the designated loading slot or barrel as indicated in the assembly manual. Ensure it is seated correctly.
2. **Preparing to Fire:** Depending on the design, you may need to pull back a charging handle or prime a spring mechanism. Refer to your assembly manual for the specific firing procedure.
3. **Firing:** Press the trigger mechanism to launch the projectile. Remember to always aim away from people, animals, and fragile objects.
4. **Reloading:** After firing, repeat the loading process for the next projectile.

Important Note:

- This toy is designed for manual operation. No batteries or electronic components are required.
- The shooting function is intended for recreational play and should always be used responsibly.

MAINTENANCE

Proper care will extend the life and enjoyment of your building block set.

- **Cleaning:** To clean the building blocks, wipe them with a damp cloth. For stubborn dirt, a mild soap solution can be used, followed by thorough rinsing and air drying. Do not submerge the entire model in water.
- **Storage:** Store the assembled model or disassembled blocks in a cool, dry place away from direct sunlight to prevent material degradation or discoloration.
- **Handling:** Handle the model with care to avoid accidental disassembly or damage to delicate parts.
- **Projectile Care:** Keep projectiles clean and free of debris to ensure smooth firing.

TROUBLESHOOTING

If you encounter issues with your CaDA C81008W set, consider the following:

- **Missing Parts:** If you believe parts are missing, carefully re-check the packaging and the area where you unpacked the set. If parts are genuinely missing, contact the manufacturer or seller for assistance.
- **Assembly Difficulties:** Review the assembly manual step-by-step. Ensure all blocks are oriented correctly and firmly pressed together. Sometimes, a small error in an earlier step can affect later assembly.
- **Shooting Mechanism Not Working:** Verify that the projectile is loaded correctly and that the firing mechanism is fully primed. Check for any obstructions in the barrel or moving parts. Ensure all parts of the firing mechanism are assembled according to the manual.
- **Loose Connections:** If parts feel loose, gently press them together until they click or feel secure. The clamping building blocks are designed for strong holding power.

SPECIFICATIONS

Feature	Detail
Model Number	C81008W
Brand	CaDA (RCWare)
Number of Parts	359
Material	Plastic
Recommended Age	8 years and older
Educational Objective	Building
Control Mode	Manual
Suitability	Indoor and Outdoor
Included Projectiles	6

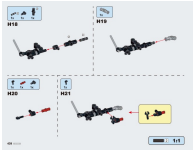

WARRANTY AND SUPPORT

For warranty information or technical support regarding your RCWare CaDA C81008W Micro UZI building block set, please refer to the contact information provided on the product packaging or the official website of the manufacturer, CaDA, or the distributor, RCWare.

It is recommended to retain your proof of purchase for any warranty claims.
