4. OPERATING (HOW TO PLAY)

Marvel United is a cooperative game where players work together to defeat a villain. The game is played over a series of rounds, with each round consisting of Hero turns and a Villain turn.

Hero Turns

During a Hero's turn, the player performs actions based on the Hero card they play. Actions typically include moving, attacking, rescuing civilians, or clearing threats. Heroes must strategically combine their actions to achieve mission objectives and weaken the villain.

Villain Turn

After a set number of Hero turns, the Villain takes their turn. The Villain's actions are determined by drawing a Master Plan card, which can activate special abilities, move the villain, or trigger negative effects for the heroes. The Villain Dashboard tracks the villain's progress and vulnerability.

Winning and Losing

Heroes win by completing the mission objectives and defeating the villain before the villain completes their master plan or the heroes run out of time/resources. If the villain achieves their objective or the heroes fail to meet certain conditions, all heroes lose.
