## Zephyr PRW24F01CG

# Zephyr Presrv PRW24F01CG 24-Inch Single Zone Wine Cooler Instruction Manual

Model: PRW24F01CG | Brand: Zephyr

## INTRODUCTION

---

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Zephyr Presrv PRW24F01CG 24-Inch Single Zone Wine Cooler. Please read these instructions thoroughly before use and retain them for future reference.

## SAFETY INFORMATION

---

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Ensure the appliance is properly grounded.
- Do not operate with a damaged power cord or plug.
- Keep ventilation openings clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

## SETUP AND INSTALLATION

---

### Unpacking and Placement

Carefully remove all packaging materials. This wine cooler is designed for either freestanding or built-in installation. Ensure adequate ventilation space around the unit, especially at the rear and sides, if freestanding. If built-in, refer to the detailed installation guide for specific clearance requirements.

Image: The Zephyr Presrv PRW24F01CG wine cooler seamlessly integrated into a modern kitchen, showcasing its sleek design and potential for both freestanding and built-in applications.

## Door Reversibility

The door is field-reversible, allowing it to open from either the left or right side to suit your kitchen layout. Consult the detailed installation instructions for steps on reversing the door swing. The unit features zero-clearance door hinges for flush installation.

Video: This official product video from Zephyr Appliances demonstrates the features of the Presrv PRW24F01BG Single Zone Wine Cooler, including its field-reversible door and zero-clearance hinges, which allow for flexible placement and seamless integration into cabinetry.

## Initial Cleaning

Before placing bottles inside, clean the interior and exterior of the wine cooler with a mild detergent and soft cloth. Ensure the unit is completely dry before plugging it in.

## OPERATING INSTRUCTIONS

---

### Electronic Capacitive Touch Controls

The wine cooler features intuitive electronic capacitive touch controls for easy temperature adjustment and lighting management.

## 3-COLOR ELECTRONIC TOUCH CONTROLS

## LED LIGHT STRIPS IN 3 COLORS AND 4 LIGHT LEVELS

Image: A detailed view of the wine cooler's control panel, showing buttons for Power ON/OFF, °C/°F Selector, Decrease Temperature, Increase Temperature, Light Brightness, and Interior Light, along with a digital temperature display.

### Temperature Setting (PreciseTemp™)

The PreciseTemp™ system utilizes multiple internal sensors to maintain accurate temperatures within the range of 38°F - 65°F. Use the up and down arrows on the control panel to set your desired temperature.

### 3-Color LED Lighting

Customize the interior ambiance with 3-color LED lighting options: Cloud White, Deep Blue, and Amber. The lighting also features four light levels and an auto-illuminating function that sets the lighting to the highest brightness level when the door opens for greater visibility.

## 3-COLOR ELECTRONIC TOUCH CONTROLS

## LED LIGHT STRIPS IN 3 COLORS AND 4 LIGHT LEVELS

Image: The interior of the wine cooler illuminated with vibrant blue LED lighting, showcasing bottles stored on the full-extension wood racks.

### Active Cooling Technology & Vibration Dampening

The Active Cooling Technology employs an on-board computer to control an active cooling fan, ensuring temperature stability and even cooling throughout the cabinet. A Vibration Dampening System minimizes noise and vibration, protecting your wine from disturbance.

### Loading Bottles

The wine cooler has a capacity of 148 standard 750ml wine bottles. It features 15 shelves, including 4 adjustable, transparent-gray glass shelves with airflow openings, 1 full-extension stainless steel rollout bin, and 2 full-extension black wood racks with stainless trim. The full-extension wood racks allow for easy access to all bottles.

## FULL-EXTENSION WOOD RACKS

Large Diameter 9-Bottle Racks for  
Pinot Noir, Chardonnay, and Champagne

Image: A close-up of the full-extension wood racks, designed to accommodate large diameter bottles such as Pinot Noir, Chardonnay, and Champagne, sliding out smoothly for easy access.

- Ensure bottles are placed securely on the racks to prevent rolling.
- Avoid overloading shelves to maintain proper airflow and prevent damage.

## MAINTENANCE

---

### Cleaning

- **Interior:** Clean the interior with a solution of mild detergent and warm water. Wipe dry with a soft cloth. Do not use abrasive cleaners.
- **Exterior:** Wipe the stainless steel exterior with a soft cloth and a stainless steel cleaner. For the glass door, use a glass cleaner.
- **Racks:** The wood racks can be removed and wiped clean with a damp cloth.

### Carbon Filter Air Filtration

The wine cooler includes a carbon filter for air filtration, acting as a natural barrier against odors. Replace the carbon filter periodically (typically every 6-12 months) to ensure optimal performance. Refer to the full product manual for specific replacement instructions.

## Defrost System

This unit features an automatic defrost system, minimizing the need for manual defrosting.

## TROUBLESHOOTING

If you experience issues with your wine cooler, consult the following common troubleshooting steps before contacting service.

- **Unit Not Cooling:** Check if the power cord is securely plugged in. Ensure the circuit breaker has not tripped. Verify the temperature setting is appropriate.
- **Temperature Fluctuations:** Ensure the door is closing properly and not being opened too frequently. Check for obstructions around the ventilation grilles.
- **Excessive Noise:** Verify the unit is level. Ensure bottles or shelves are not rattling against each other.
- **Door Open Alarm:** The unit is equipped with a door open alarm. If the door is left ajar, an audible alarm will sound. Close the door completely to silence the alarm.

For persistent issues, please contact Zephyr customer support.

## SPECIFICATIONS
