Yeelight Smart Filament Bulb

Yeelight Smart Filament Bulb User Manual

Model: Smart Filament Bulb (Retro Style)

1. Introduction

Thank you for choosing the Yeelight Smart Filament Bulb. This smart LED bulb combines vintage aesthetics with modern smart home technology, offering warm white light, adjustable brightness, and smart control options. This manual provides essential information for safe and efficient use of your bulb.

Image 1.1: Yeelight Smart Filament Bulb installed in a retro cage fixture, illuminating a wall with warm light.

2. Safety Information

- **Indoor Use Only:** This bulb is designed for indoor environments. Do not use it in wet locations or outdoors.
- **Power Off Before Installation:** Always turn off the power supply to the fixture before installing or removing the bulb.
- **Correct Voltage:** Ensure your fixture's voltage is compatible with the bulb's operating voltage (100-240V).
- **Avoid Disassembly:** Do not attempt to disassemble or modify the bulb. This will void the warranty and may cause damage or injury.
- **Operating Temperature:** Do not use in fully enclosed luminaires or fixtures that restrict airflow, as this may reduce bulb lifespan.
- **Dimmer Compatibility:** This smart bulb is dimmable via the Yeelight app or voice control. Do not use with external traditional dimmers, as this may cause damage.

3. Package Contents

Verify that all items are present in the package:

- 1 x Yeelight Smart LED Filament Bulb

4. Setup Guide

Follow these steps to set up your Yeelight Smart Filament Bulb:

1. **Install the Bulb:**
   - Ensure the power to the light fixture is turned off at the switch.
   - Screw the Yeelight Smart Filament Bulb into a standard E27 light socket.
   - Turn on the power to the light fixture. The bulb should light up.
2. **Download the Yeelight App:**

   Download the Yeelight app from the Apple App Store or Google Play Store. You can search for "Yeelight" or scan the QR code usually found in the product packaging or quick start guide (not provided here).
3. **Add Device in App:**
   - Open the Yeelight app and log in or create an account.
   - Tap the "+" icon (usually in the top right corner) to add a new device.
   - Select "Smart Filament Bulb" from the list of available devices.
   - Follow the on-screen instructions to connect the bulb to your 2.4GHz Wi-Fi network. Ensure your phone is connected to the 2.4GHz network during setup.
   - Once connected, you can rename the bulb and assign it to a room.
4. **Pair with Voice Assistants (Optional):**

   To control your bulb with Google Assistant, Amazon Alexa, or Apple HomeKit, follow the pairing instructions within the respective assistant's app or the Yeelight app's integration section.

Image 4.1: The Yeelight Smart Filament Bulb supports control via Yeelight app, voice commands through Google Assistant, Alexa, Apple HomeKit, and SmartThings.

5. Operating Instructions

Your Yeelight Smart Filament Bulb offers various control methods and features:

5.1. Control via Yeelight App

- **On/Off:** Tap the power icon in the app to turn the bulb on or off.
- **Brightness Adjustment:** Use the slider in the app to adjust the brightness from 5% to 100%.
- **Scenes and Modes:** Select from pre-set lighting scenes or create custom ones to suit your mood or activity.
- **Timer and Schedules:** Set timers for the bulb to turn off automatically, or create schedules for it to turn on/off at specific times.

Image 5.1: The bulb offers adjustable brightness, allowing users to set the perfect illumination level.

Image 5.2: Utilize the timer and customizable schedule features to automate your lighting.

5.2. Voice Control

Once paired with a voice assistant, you can use voice commands:

- "Hey Google, turn on [Bulb Name]."
- "Alexa, set [Bulb Name] to 50%."
- "Hey Siri, turn off [Bulb Name]." (via HomeKit)

5.3. Traditional Wall Switch

You can still use your existing wall switch to turn the bulb on and off. However, for smart features to work consistently, it is recommended to leave the wall switch in the "on" position and control the bulb via the app or voice commands.

6. Maintenance

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **No User-Serviceable Parts:** The bulb contains no user-serviceable parts. Do not attempt to open or repair it.
- **Disposal:** Dispose of the bulb according to local electronic waste regulations.

7. Troubleshooting

Problem	Possible Cause	Solution
Bulb does not light up.	• No power to the fixture. • Bulb not screwed in properly. • Bulb is faulty.	• Check the wall switch and circuit breaker. • Ensure the bulb is securely screwed into the socket. • Try the bulb in another working fixture. If it still doesn't work, contact support.

Problem	Possible Cause	Solution
Cannot connect to Wi-Fi.	• Incorrect Wi-Fi password. • Not connected to a 2.4GHz network. • Bulb is too far from the router. • Router issues.	• Double-check your Wi-Fi password. • Ensure your router is broadcasting a 2.4GHz network and your phone is connected to it during setup. • Move the bulb closer to the Wi-Fi router. • Restart your Wi-Fi router. • Reset the bulb (turn off/on 5 times until it flashes) and try pairing again.
Voice control not working.	• Not properly linked to voice assistant. • Incorrect device name. • No internet connection.	• Verify the linking process in the Yeelight app and your voice assistant app. • Use the exact device name configured in the Yeelight app. • Ensure your Wi-Fi and internet connection are active.

8. Specifications

Brand	Yeelight
Model	Smart Filament Bulb (Retro Style)
Lighting Type	LED
Wattage	6 Watts
Incandescent Equivalent	60 Watts
Bulb Base	E27
Light Color	Warm White
