BALDERIA Naran Electric Fireplace Instruction Manual

Model: RICHEN-Naran

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using this electric fireplace. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- Ensure the power supply voltage matches the rating label on the appliance.
- Do not operate the fireplace with a damaged cord or plug. If the cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 1 meter (3 feet) from the front of the fireplace.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the fireplace.
- This fireplace is equipped with **overheating protection** and an **Open-Window-Detection** feature for enhanced safety. If the unit overheats or a sudden drop in room temperature is detected, the heating function will automatically shut off.
- Do not use outdoors. This fireplace is designed for indoor use only.
- Always unplug the fireplace when not in use or before cleaning.

4. OPERATING INSTRUCTIONS

The BALDERIA Naran Electric Fireplace offers various functions controlled via the included remote control or the

unit's LCD display.

4.1 Power and Heating

- **Power On/Off:** Use the power button on the remote control or unit to turn the fireplace on or off.
- **Heating Levels:** The heating power can be set to two levels: 1000 W or 2000 W. Select the desired heat output based on room size and comfort.
- **Temperature Control:** Utilize temperature profiles to maintain a preset, constant temperature level in your room. The remote control's sensor continuously measures the ambient temperature, and the thermostat automatically regulates the heating.
- **Safety Features:** The fireplace includes overheating protection and an Open-Window-Detection system. These features automatically shut off the heating function if unsafe conditions are detected.

4.2 Remote Control Functions

The remote control provides convenient access to all fireplace settings.

- **3D Flame Effect:** Activate or adjust the realistic 3D flame effect.
- **Flame Pattern:** Choose from 3 different flame patterns to customize the visual experience.
- **LED Lighting:** Control the LED ambient lighting.
- **Fan Heater:** Turn the fan heater on or off and adjust its settings.
- **Temperature:** Set the desired room temperature.
- **Timer:** Program the fireplace to operate for a specific duration.
- **Programming:** Access advanced programming options for customized operation.
- **LCD Display:** All selected functions and settings are displayed on the unit's LCD screen.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your electric fireplace.

- **Cleaning:** Before cleaning, always unplug the fireplace from the power outlet. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or solvents.
- **Ventilation Openings:** Periodically check and clean the air intake and exhaust openings to ensure they are free from dust and debris, which can impede airflow and cause overheating.
- **MDF Casing:** The matte white MDF casing can be repainted with standard paint if you wish to change its color or refresh its appearance. Ensure the fireplace is unplugged and cool before painting.
- **Storage:** If storing the fireplace for an extended period, unplug it and cover it to protect it from dust. Store in a dry, cool place.

6. TROUBLESHOOTING

If you encounter issues with your BALDERIA Naran Electric Fireplace, refer to the following common troubleshooting steps:

- **No Power:** Ensure the power cord is securely plugged into a working electrical outlet. Check your household circuit breaker or fuse box.
- **No Heat:** Verify that the heating function is activated. Check the temperature setting; it should be set higher than the current room temperature. Ensure the overheating protection or Open-Window-Detection has not been triggered. Unplug the unit for 15 minutes and plug it back in to reset.
- **Flame Effect Not Working:** Check if the flame effect is turned on via the remote control or unit's display. Ensure no obstructions are blocking the light source.
- **Remote Control Not Responding:** Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the fireplace's receiver.
- **Unusual Noises:** A slight fan noise is normal when the heating function is active. If you hear loud or unusual noises, turn off and unplug the unit immediately and contact customer support.
