vidaXL 284698

vidaXL Metal Bed Frame 200 x 200 cm, White

Instruction Manual - Model: 284698

1. PRODUCT OVERVIEW

This vidaXL metal bed frame, model 284698, is designed for a 200 x 200 cm mattress. It features a simple, timeless design with a sturdy, powder-coated metal construction that is scratch and impact resistant. The flexible metal slatted base provides a comfortable foundation for your mattress. This package includes the bed frame only; a mattress is not included.

2. SAFETY INFORMATION

- Exercise caution around sharp edges during assembly and use.
- The recommended maximum weight capacity for this bed frame is 200 Kilograms (approximately 440 pounds). Do not exceed this weight limit to prevent damage or injury.
- Ensure all bolts and fasteners are securely tightened before use and periodically check for tightness.
- Keep small parts away from children during assembly to avoid choking hazards.

3. SETUP INSTRUCTIONS

Please read all instructions carefully before beginning assembly. It is recommended to assemble the bed frame with two people.

3.1. Unpacking and Component Check

1. Carefully unpack all components from the packaging.
2. Verify that all parts listed in the included parts list (not provided in this document) are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

3.2. Assembling the Frame

1. Lay out the main frame components on a clean, soft surface to prevent scratches.
2. Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are firm but do not fully tighten bolts until the entire frame is assembled.
3. Install any central support beams or legs as indicated in your specific assembly diagram. These typically provide additional stability to the middle of the bed frame.

Image 3.2: Detail of a leg attachment point, illustrating how support legs are secured.

3.3. Installing the Slatted Base

1. Once the main frame is assembled, place the metal slats onto the designated supports within the frame.
2. Ensure each slat is properly seated and secured according to the design. The slats form the foundation for your mattress.

Image 3.3: Side view of the bed frame, highlighting the structure of the metal slatted base.

3.4. Final Tightening

1. Once all components are in place, go back and fully tighten all bolts and fasteners. Do not overtighten.
2. Place your 200 x 200 cm mattress on the slatted base.

4. OPERATING INSTRUCTIONS

The vidaXL Metal Bed Frame is designed for static use as a sleeping surface. No specific operational steps are required beyond proper assembly and placement of a suitable mattress.

- **Ensure the bed frame is placed on a level surface to prevent instability.**
- **Use with a mattress of appropriate size (200 x 200 cm) to ensure proper support and fit.**

5. MAINTENANCE

- **Cleaning:** Wipe clean with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the powder-coated finish.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.
- **Damage:** If any part of the frame becomes bent or damaged, discontinue use and contact customer support for replacement parts or advice.

6. TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame makes squeaking noises, check all bolts and connections and tighten them securely. Ensure the bed is on a level surface.
- **Instability:** If the bed frame feels unstable, verify that all legs are making full contact with the floor and that all assembly steps have been followed correctly, with all fasteners tightened.
- **Damaged Parts:** If you encounter any damaged components during unpacking or assembly, do not attempt to force them. Contact customer support for assistance.

7. SPECIFICATIONS

Feature	Specification
Model Number	284698
Brand	vidaXL
