HQRP Replacement Microfiber Steam Mop Pads for HAAN Steamers

Model: 884667801312004

PRODUCT OVERVIEW

The HQRP 4-Pack Blue Microfiber Steam Mop Pads are designed to replace original pads for various HAAN FS, SI, and MS Series Steam Cleaners. These washable and reusable pads are engineered to enhance the cleaning efficiency of your steam mop, providing effective scrubbing power and superior absorption for streak-free floors.

Key Features:

- **4-Pack:** Includes four washable ultra-cleaning microfiber blue steam mop pads.

- **Compatibility:** Designed to fit HAAN MS30, MS30R, MS35, SI25, SI35, SI35G, SI35R, SI35BCRF, SI38, SI40, SI45Q, SI46, SI60, SI70, SI70C, SI70CC, SI70CS, SI70Q, SI75, SI77, SV60, FS20, BS10, BS20, HD50, and FS series Steamers.
- **Replacement for:** HAAN Parts # RMF2X, RMF4X, RMF-2X, RMF-4X, RMF2, RMF2P, RMF-2, RMF4, RMF-4.
- **Enhanced Cleaning:** Microfiber material provides scrubbing power, collects loose debris, and absorbs excess water for dry, streak-free floors.
- **Reusable:** Pads are machine washable for repeated use.

Perfect Fit

Select Models Haan Steam Cleaners

FS, SI and MS Series

SETUP: ATTACHING THE MOP PADS

1. **Ensure Safety:** Before attaching or detaching pads, ensure your steam mop is unplugged and completely cooled down to prevent burns or injury.
2. **Align Pad:** Position the microfiber pad on the bottom of the steam mop head. The pads are designed with a specific attachment mechanism (e.g., hook-and-loop or a central plastic disc) that aligns with the mop head.
3. **Secure Attachment:** Press the pad firmly onto the mop head, ensuring it is securely attached and centered. The pad should not easily shift or detach during use.

OPERATING INSTRUCTIONS

These HQRP microfiber pads are designed for use with compatible HAAN steam cleaners. Always refer to your specific steam cleaner's manual for detailed operating instructions regarding water filling, heating, and steam generation.

1. **Prepare Mop:** Fill your HAAN steam cleaner with water according to its instructions and allow it to heat up until ready for use.
2. **Begin Cleaning:** Once the pad is securely attached and the steam mop is ready, begin cleaning your hard floor surfaces. The microfiber material is effective on wood, marble, and tile.
3. **Movement:** Move the steam mop slowly and steadily across the floor to allow the steam and pad to effectively loosen and absorb dirt.
4. **Pad Saturation:** Replace the pad when it becomes visibly dirty or saturated to maintain optimal cleaning performance.

MAINTENANCE AND CARE

Proper care of your HQRP microfiber steam mop pads will extend their lifespan and maintain cleaning effectiveness.

- **Machine Washing:** The pads are machine washable. Wash them with similar colors in cold or warm water.
- **Detergent:** Use a mild detergent. Avoid using bleach or fabric softeners, as these can degrade the microfiber material and reduce its absorbency.
- **Drying:** Air drying is recommended to preserve the integrity of the microfiber and extend the pads' usability. If using a dryer, use a low heat setting.
- **Storage:** Store clean, dry pads in a clean, dry place until their next use.

WASHABLE & REUSABLE

Can be washed multiply in the washing machine

TROUBLESHOOTING

- **Pads not cleaning effectively:**
 - Ensure the pad is clean and not overly saturated with dirt. Replace with a fresh pad if necessary.
 - Verify your steam mop is producing adequate steam. Refer to your steam mop's manual.
 - Move the mop slower over stubborn areas.
- **Pads leaving streaks:**
 - The pad might be too dirty or oversaturated. Replace with a clean, dry pad.
 - Ensure no fabric softener was used during washing, as it can leave residue.
- **Pads detaching during use:**
 - Ensure the pad is firmly and correctly attached to the mop head before starting.
 - Check the attachment mechanism on both the pad and your mop head for wear or damage.

SPECIFICATIONS

Feature	Detail
Product Type	Microfiber Steam Mop Pads
Quantity	4-Pack
Color	Blue
Material	Microfiber
Compatibility	HAAN FS, SI, MS Series Steam Cleaners (e.g., SI-35, MS-30, SV-60, etc.)
