Pentair 360330

Pentair Racer LS Pressure Pool Cleaner - Instruction Manual

Model: 360330

Introduction

The Pentair Racer LS Pressure Pool Cleaner is designed for superior vacuum performance, ensuring maximum debris removal from your pool. Its extra-wide intake valve efficiently collects dirt, leaves, and debris of various shapes and sizes. Featuring quad-jet vacuum technology, it delivers enhanced cleaning power compared to other pressure-side in-ground pool cleaners. This manual provides essential information for the setup, operation, and maintenance of your Pentair Racer LS.

Product Overview

An image showing the Pentair Racer LS Pressure Pool Cleaner. It is a grey and blue robotic cleaner with four wheels and a large grey debris bag extending upwards from its body. Grey hoses are connected to the unit.

The Pentair Racer LS is equipped with advanced features for efficient pool cleaning:

- **Quad Jet Technology:** Provides 25% more cleaning power.
- **Large Vacuum Inlet:** 40% larger intake for effective debris collection.
- **Front Wheel Drive:** With Steady Grip Traction for reliable movement.
- **Easy Snap-On Debris Bag Design:** Simplifies debris removal.

Setup

Follow these steps to set up your Pentair Racer LS Pressure Pool Cleaner:

1. Assemble the pool cleaner, if necessary.
2. Connect to the pool's circulation system.
3. Ensure the debris bag is empty and securely attached.
4. Place the cleaner in the pool and turn on the system.
5. Monitor the cleaner during its initial operation.
6. Clean or replace the debris bag when full.
7. Turn off and disconnect the cleaner when finished.

Operating Instructions

The Pentair Racer LS operates by connecting to your pool's pressure-side return line, using the water flow to power its movement and vacuuming action. It is designed for in-ground pools.

- Ensure all hoses are properly connected and free of kinks.
- The cleaner will move randomly across the pool floor and walls, collecting debris.

- It can be set to run on a timer integrated with your pool's circulation system for automated cleaning cycles.

Note: No official seller videos were available for embedding that met the specified criteria.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your pool cleaner.

- **Debris Bag:** Regularly check and empty the debris bag. A full bag can reduce cleaning efficiency. Rinse the bag thoroughly after emptying to prevent buildup.
- **Hoses:** Inspect hoses for wear, cracks, or blockages. Replace damaged sections as needed.
- **Wheels and Brushes:** Periodically check the wheels for smooth rotation and ensure brushes (if applicable) are not excessively worn.
- **Storage:** When not in use for extended periods, store the cleaner in a cool, dry place away from direct sunlight.

Troubleshooting

If you encounter issues with your Pentair Racer LS, consider the following common troubleshooting steps:

- **Poor Cleaning Performance:** Check if the debris bag is full, if there are blockages in the intake or hoses, or if the pool's circulation system pressure is adequate.
- **Cleaner Not Moving:** Verify that the cleaner is properly connected to the pressure line and that the pool pump is running. Check for obstructions in the cleaner's drive mechanism.
- **Hose Kinks:** Ensure the hose is laid out straight before placing the cleaner in the pool to prevent tangles and kinks that can impede movement.

For persistent issues, refer to the detailed troubleshooting guide on the manufacturer's website or contact customer support.

Specifications

Feature	Detail
Brand	Pentair
Model Name	Pentair Racer LS Pressure Pool Cleaner
Item Model Number	360330
Special Feature	Quad Jet Technology
Assembly Required	No
Control Method	Remote
Load Capacity	1E+1 lb
Efficiency	good efficiency
Battery Description	Rechargeable

Feature	Detail
Installation Type	In-ground pool pressure-side installation
UPC	788379868482
Product Dimensions	22.5 x 23 x 11 inches
Item Weight	22.5 pounds
Manufacturer	Pentair
Material	Polypropylene, Polyethylene (PE), Nylon
Color	white
Power Source	Battery Powered

Warranty Information

The Pentair Racer LS Pressure Pool Cleaner comes with a **Limited Warranty**. For specific terms, conditions, and duration of the warranty, please refer to the warranty card included with your product or visit the official Pentair website.

Customer Support

For further assistance, technical support, or to purchase replacement parts, please contact Pentair customer service. You can find contact information on the official Pentair website or through the retailer where you purchased the product.
