

Philips Hue 1746330V7

Philips Hue UpDown Round Wall Lantern LED (Model 1746330V7) Instruction Manual

Brand: Philips Hue

INTRODUCTION

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your Philips Hue UpDown Round Wall Lantern. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

Important: Always disconnect power at the circuit breaker before installation or servicing.

- Electrical installation should be performed by a qualified electrician in accordance with local electrical codes.
- This product is designed for outdoor use and is IP44 rated for protection against water splashes.
- Do not attempt to modify or disassemble the product.
- Use only with a Philips Hue Bridge for full smart functionality.
- Ensure the mounting surface can support the weight of the fixture.

WHAT'S IN THE BOX

Verify that all components are present before beginning installation:

- 1x Philips Hue UpDown Round Wall Lantern (Black)
- Mounting hardware (screws, wire nuts)
- Instruction Manual

SETUP AND INSTALLATION

Step 1: Electrical Installation

1. **Power Disconnection:** Turn off power at the main circuit breaker to the area where the lantern will be installed.
2. **Mounting Bracket:** Secure the mounting bracket to the wall using the provided hardware. Ensure it is level and firmly attached.
3. **Wiring:** Connect the fixture's wires to the household electrical wires (live, neutral, ground) using the provided wire nuts. Match colors (typically black to black, white to white, green/bare copper to ground). Ensure all connections are secure.
4. **Fixture Attachment:** Carefully attach the lantern fixture to the mounting bracket. Secure it with the provided screws, ensuring a tight seal against the wall to prevent water ingress.

Easy to install and connect to the Philips Hue Bridge*

*Requires a Philips Hue Bridge. sold separately

Step 2: Connecting to Philips Hue Bridge (Required for full functionality)

The Philips Hue Bridge is essential for unlocking all smart features, including remote control, automations, and voice control. If you already have a Hue Bridge, proceed to connect your new light.

1. Plug in your Philips Hue Bridge to a power outlet.
2. Connect the Hue Bridge to your Wi-Fi router using an Ethernet cable.
3. Power on the Bridge and wait for the indicator lights to stabilize.

Step 3: Download the Philips Hue App

1. Download the official Philips Hue app from the App Store (iOS) or Google Play Store (Android).
2. Open the app and follow the on-screen instructions to connect to your Hue Bridge.
3. Once connected, the app will guide you through discovering your new Philips Hue UpDown Round Wall Lantern.
