PILOT 48500BLK

Pilot Super Color Marker Refill Ink (30ml, Black) Instruction Manual

INTRODUCTION

This manual provides instructions for the safe and effective use of the Pilot Super Color Marker Refill Ink. This product is designed to replenish the ink in compatible Pilot Super Color Markers, ensuring continued performance and extending the life of your markers. This 30ml bottle contains black, xylene-free ink.

SAFETY INFORMATION

- **Keep out of reach of children:** This product is not a toy and should be stored securely away from children.
- **Avoid contact with skin and eyes:** In case of contact, wash immediately with plenty of water. If irritation persists, seek medical attention.
- **Do not ingest:** If swallowed, do not induce vomiting. Seek immediate medical attention.
- **Use in a well-ventilated area:** Although xylene-free, ensure adequate ventilation during use.
- **Flammability:** Keep away from open flames and high heat sources.
- **Storage:** Store in a cool, dry place, away from direct sunlight. Keep the bottle tightly capped when not in use.

SETUP

Before refilling, ensure you have a clean, flat work surface and a compatible Pilot Super Color Marker. It is advisable to wear gloves to prevent ink stains.

1. **Prepare the Marker:** Remove the cap from your Pilot Super Color Marker. Depending on the marker model, you may need to unscrew the barrel or remove the end cap to access the ink reservoir or felt wick. Refer to your specific marker's instructions if unsure.
2. **Open the Ink Bottle:** Carefully twist open the cap of the Pilot Super Color Marker Refill Ink bottle.
3. **Prepare for Refilling:** Position the marker so that the ink reservoir or felt wick is easily accessible and stable.

OPERATING (REFILLING YOUR MARKER)

Follow these steps to refill your Pilot Super Color Marker:

1. **Locate Refill Port:** For markers with a dedicated refill port, insert the nozzle of the refill ink bottle into the port. For markers with a felt wick system, carefully drip ink onto the felt wick.
2. **Dispense Ink:** Gently squeeze the refill ink bottle to dispense ink into the marker. Do not overfill. Observe the ink level to prevent spillage.
3. **Allow Absorption:** If refilling a felt wick, allow a few moments for the ink to be absorbed.
4. **Reassemble Marker:** Once refilled, carefully reassemble your marker, ensuring all parts are securely fastened.
5. **Test Marker:** Replace the marker cap and shake gently. Test the marker on a scrap piece of paper to ensure proper ink flow.

MAINTENANCE

- **Storage:** Always keep the refill ink bottle tightly capped when not in use to prevent drying and spillage. Store in a cool, dry place away from direct sunlight.
- **Cleaning Spills:** In case of ink spills, wipe immediately with a damp cloth. For stubborn stains, use an appropriate ink cleaner.
- **Marker Care:** Ensure your marker caps are always securely placed after use to prevent the marker tip from drying out.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Marker not writing after refill.	Insufficient ink, air bubble, or dried tip.	Ensure enough ink was added. Gently shake the marker to dislodge air bubbles. If the tip is dry, try gently pressing it onto a scrap paper to encourage ink flow.
Ink leakage during refill.	Overfilling or improper marker assembly.	Do not overfill the marker. Ensure all marker parts are securely reassembled after refilling.
Ink appears faded.	Marker tip is worn or not fully saturated.	Allow more time for the ink to saturate the tip. If the tip is old, consider replacing the marker.

SPECIFICATIONS

Product Name: Pilot Super Color Marker Refill Ink

Model Number: 48500BLK

Ink Color: Black

Ink Volume: 30 Milliliters

Ink Type: Xylene-free

Manufacturer: Pilot

Package Information: Bottle

Item Weight: Approximately 3.52 ounces (bottle with ink)

Package Dimensions: Approximately 2.1 x 2 x 1.65 inches
