Gold N Hot GH299

Gold N Hot Professional 24K Gold Pressing & Styling Comb User Manual

Model: **GH299** | Brand: **Gold N Hot**

1. Product Overview

The Gold N Hot Professional 24K Gold Pressing & Styling Comb is designed for straightening and styling hair. It features 24K gold technology for consistent, even heating, which helps to minimize hot spots and reduce heat-related damage. The unique wedge-shaped teeth are engineered to glide smoothly through hair, assisting in detangling and reducing breakage. Its design allows for close-to-root styling, making it suitable for various hair types and styles.

- **24K Gold Technology:** Ensures consistent and even heat distribution for effective styling.
- **Detangling Wedge-Shaped Teeth:** Designed to smoothly glide through hair, reducing tangles and breakage.
- **Close-to-Root Styling:** Allows for precise straightening, even in hard-to-reach areas.
- **Adjustable Heat Settings:** Offers temperatures up to 430°F to suit different hair types.
- **Professional Swivel Cord:** An 8-foot cord provides flexibility and tangle-free operation.

2. Important Safety Instructions

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. **DANGER:** Keep away from water. As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:
    - Always unplug this appliance immediately after using.
    - Do not use while bathing or in a shower.
    - Do not place or store appliance where it can fall or be pulled into a tub or sink.
    - Do not place in or drop into water or other liquid.
    - If an appliance falls into water, unplug it immediately. Do not reach into the water.

3. **WARNING:** To reduce the risk of burns, electrocution, fire, or injury to persons:
    - This appliance should never be left unattended when plugged in.
    - Do not pull, twist, or wrap line cord around appliance.
    - This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
    - Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
    - Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
    - Keep the cord away from heated surfaces.
    - Never use while sleeping.
    - Never drop or insert any object into any opening.
    - Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
    - Do not use an extension cord with this appliance.
    - This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
    - Do not place the heated appliance directly on any surface while it is hot or plugged in.
    - Always store this appliance and cord in a moisture-free area. Do not store it at temperatures exceeding 140°F (60°C).
    - Do not plug this appliance into a voltage converter.

3. Setup and Initial Use

Before using your Gold N Hot Pressing & Styling Comb, ensure your hair is clean and completely dry. This tool is designed for use on dry hair only.

1. **Plug In:** Insert the appliance plug into a standard electrical outlet.
2. **Adjust Temperature:** Rotate the temperature control dial to your desired heat setting. The comb offers adjustable heat up to 430°F.
3. **Heat Up:** Allow the pressing comb to heat up. The indicator light will typically show when it's heating and may change when it reaches the set temperature.
4. **Test Temperature:** To determine the proper operating temperature for your hair, allow the comb to heat up to a lower setting (e.g., 200°F). Once hot, test the comb on a small, inconspicuous section of hair. If the heat is too low, increase the setting gradually and re-test until the optimal temperature is found for your hair type.

4. Operating Instructions

Always ensure your hair is clean and completely dry before using the pressing comb. For best results, apply a heat protectant to your hair.

4.1. Straightening Natural (Unrelaxed) Hair

1. **Section Hair:** Divide your hair into small sections, ideally not more than 1-inch deep and 2 inches wide.
2. **Comb Through:** Take one section of hair and hold the ends taut with one hand.
3. **Apply Comb:** With the other hand, slowly and smoothly comb the heated pressing comb through the section from root to tip. Ensure the comb glides through without snagging.
4. **Repeat:** Repeat this process for all sections until desired straightness is achieved.

Image: Demonstrating the use of the pressing comb to straighten a section of hair, holding the ends for tension.

4.2. Straightening Relaxed Hair

The pressing comb can be used to maintain straightened relaxed hair between salon visits, especially for new hair growth.

1. **Focus on New Growth:** Concentrate the comb on new hair growth. Be careful not to touch the scalp directly with the hot metal.
2. **Adjust Heat:** Relaxed hair is often more sensitive to heat. Always test a small, relaxed section of your hair first to properly adjust the heat setting and prevent damage. Use the lowest effective temperature.
3. **Gentle Combing:** Gently comb through the sections, ensuring smooth passes.

5. Care and Maintenance

Proper care and maintenance will ensure the longevity and optimal performance of your pressing comb.

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the gold-plated comb surface with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Store the comb in a cool, dry place, away from moisture. Do not wrap the cord tightly around the appliance, as this can damage the cord.
- **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord is damaged, discontinue use immediately and contact customer support.

6. Troubleshooting

If you encounter issues with your Gold N Hot Pressing & Styling Comb, refer to the following common solutions:

- **Appliance Not Heating:**
  - Ensure the comb is securely plugged into a working electrical outlet.
  - Check if the power switch is in the "ON" position and the temperature dial is set.
  - Verify that the outlet itself is functional by plugging in another appliance.
- **Hair Snagging or Pulling:**
  - Ensure hair is thoroughly detangled before using the comb.
  - Work with smaller sections of hair.
  - Clean any residue from the comb teeth that might be causing friction.
- **Inconsistent Heat:**
  - Allow sufficient time for the comb to reach its set temperature.
  - Ensure the comb surface is clean and free of product buildup.

If these steps do not resolve the issue, please contact Gold N Hot customer support for further assistance.

7. Product Specifications

Brand	Gold N Hot
Model Number	GH299
Product Dimensions	12.3 x 1.9 x 4 inches
