

MCM MCM2707

MCM 2707 004 Eyeglasses User Manual

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your MCM 2707 004 Eyeglasses. Please read these instructions carefully to ensure the longevity and optimal performance of your eyewear.

SETUP

Unboxing and Initial Inspection

Carefully remove your new MCM eyeglasses from their packaging. Inspect the frames and lenses for any visible damage or imperfections. Ensure all components, including the case and cleaning cloth, are present.

Fitting

For optimal comfort and vision, it is recommended to have your eyeglasses professionally fitted by an optician. They can adjust the frame and nose pads to suit your facial structure.

OPERATING (WEARING YOUR EYEGLASSES)

To wear your eyeglasses, gently place them on your face, ensuring the temples rest comfortably over your ears and the nose pads sit securely on your nose bridge. Avoid forcing the frames, as this can cause misalignment or damage.

Removing Eyeglasses

Always remove your eyeglasses using both hands, grasping the temples near the hinges. This prevents bending the frame and maintains proper alignment.

CARE AND MAINTENANCE

Cleaning

- **Hand Wash Only:** Clean your eyeglasses with lukewarm water and a mild, non-abrasive soap.
- **Rinse Thoroughly:** Ensure all soap residue is rinsed off.
- **Dry Gently:** Use the provided microfiber cleaning cloth or a soft, lint-free cloth to gently dry the lenses and frame. Avoid paper towels or rough fabrics, which can scratch the lenses.
- **Avoid Harsh Chemicals:** Do not use ammonia-based cleaners, window cleaner, or other harsh chemicals, as these can damage lens coatings and frame materials.

Storage

When not in use, always store your MCM eyeglasses in their protective case to prevent scratches, dust accumulation, and accidental damage. Avoid leaving them in direct sunlight or extreme temperatures (e.g., on a car dashboard).

TROUBLESHOOTING

Issue	Possible Cause	Solution
Eyeglasses feel loose or slide down	Frame misalignment, loose screws, or improper fit.	Visit an optician for professional adjustment. Tighten loose screws gently if comfortable.
Lenses are scratched	Improper cleaning, abrasive materials, or dropping the eyeglasses.	Scratches are generally permanent. Consider lens replacement by an optician. Always use the provided cleaning cloth.
Frame is bent or distorted	Accidental impact or improper handling.	Do not attempt to bend the frame back yourself, as this may cause breakage. Seek professional repair from an optician.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	MCM2707 42983
