Teleco TXP-868-A02

Teleco TXP-868-A02 Remote Control User Manual

Model: TXP-868-A02 | Brand: Teleco

1. INTRODUCTION

This user manual provides comprehensive instructions for the Teleco TXP-868-A02 2-channel rolling code remote control. This device is designed for controlling compatible automated systems, such as garage doors, gates, or other access control systems, operating on the 868 MHz frequency.
Key features include:

- 2 independent channels for controlling different functions.
- Rolling code technology for enhanced security.
- Operates on the 868 MHz frequency.
- Powered by a single CR2032 battery (included).

3. SPECIFICATIONS

Feature	Detail
Model	TXP-868-A02
Brand	Teleco
Channels	2
Frequency	868 MHz
Battery Type	1 x CR2032 (included)
Weight	30 grams
Technology	Rolling Code

4. SETUP

4.1. Battery Installation

The Teleco TXP-868-A02 remote control comes with a CR2032 battery pre-installed. If replacement is needed, follow these steps:

1. Carefully open the remote control casing. Refer to Figure 3 for the battery compartment location on the back.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery, ensuring the positive (+) side is facing upwards.
4. Close the remote control casing securely.

4.2. Programming the Remote Control

The Teleco TXP-868-A02 uses rolling code technology, which requires pairing with a compatible receiver unit. Specific programming procedures vary depending on the receiver model you are using. Always refer to the instruction manual provided with your receiver unit for detailed programming steps.

General Programming Steps (may vary):

1. Locate the programming button or learn mode on your receiver unit (e.g., garage door opener, gate opener).
2. Activate the receiver's programming mode (often indicated by an LED light).
3. Within a few seconds, press and hold the desired button on your Teleco TXP-868-A02 remote control for 2-3 seconds.
4. Release the button. The receiver's LED may flash or change state to indicate successful pairing.
5. Test the remote control to ensure it operates the system correctly.

If you encounter difficulties, consult the receiver's manual or contact a qualified technician.

5. OPERATING INSTRUCTIONS

Once the Teleco TXP-868-A02 remote control is successfully programmed with your receiver, operation is straightforward:

- To activate Channel 1: Press the **left** button on the remote control.
- To activate Channel 2: Press the **right** button on the remote control.

Ensure you are within the operational range of your receiver unit for the remote control to function correctly. Obstructions and interference can affect the range.

6. MAINTENANCE

6.1. Battery Replacement

When the remote control's range decreases significantly or it stops responding, the battery may need replacement. Follow the steps outlined in Section 4.1. "Battery Installation". Dispose of old batteries responsibly according to local regulations.

6.2. Cleaning

Clean the remote control with a soft, dry cloth. Do not use abrasive cleaners, solvents, or immerse the device in water. Keep the buttons free from dirt and debris to ensure proper function.

6.3. Storage

Store the remote control in a dry place, away from direct sunlight, extreme temperatures, and high humidity. Avoid dropping the device or subjecting it to strong impacts.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote control not working.	Dead or low battery. Not programmed correctly. Out of range. Receiver issue.	Replace the CR2032 battery. Re-program the remote control to the receiver (refer to Section 4.2). Move closer to the receiver unit. Check the receiver unit's power and status.
Reduced operating range.	Low battery. Radio interference. Obstructions.	Replace the CR2032 battery. Identify and remove sources of interference (e.g., other wireless devices). Ensure a clear line of sight if possible.
Buttons are sticky or unresponsive.	Dirt or debris under buttons.	Clean the remote control as described in Section 6.2.

8. COMPATIBILITY

The Teleco TXP-868-A02 remote control is designed to be compatible with specific Teleco rolling code remote controls and receivers operating on the 868 MHz frequency. It is **not** compatible with 433 MHz systems.
Compatible Teleco rolling code remote control models include:

- TVTXP-868-A01
- TVTXP-868-A02

- TVTXP-868-A04
- TVMIO-868-P02
- TVMIO-868-P04
- TVTXE-868-A04

Figure 5: Visual guide to compatible Teleco 868MHz rolling code remote controls. Note the explicit incompatibility with 433MHz models.
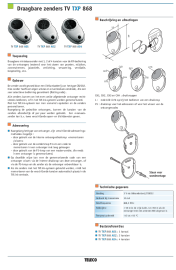

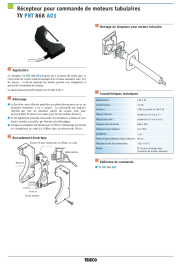

9. WARRANTY AND SUPPORT

For information regarding warranty coverage, returns, or technical support for your Teleco TXP-868-A02 remote control, please contact the retailer or authorized distributor from whom you purchased the product. Keep your proof of purchase for warranty claims.
