

Vacplus VA-T165

Vacplus Automatic Toilet Bowl Cleaner Tablets VA-T165 Instruction Manual

PRODUCT OVERVIEW

The Vacplus Automatic Toilet Bowl Cleaner Tablets (Model VA-T165) are designed to provide continuous cleaning, deodorizing, and descaling for your toilet bowl. Each tablet is formulated to effectively maintain toilet hygiene and reduce the accumulation of dirt and stains with every flush.

This product is suitable for all toilets with tanks and is safe for septic systems. The 12-pack provides a supply for approximately 6 months, with each tablet lasting up to 15 days depending on usage frequency.

SAFETY INFORMATION & PRECAUTIONS

- **Eye Irritant:** If product comes into contact with eyes, rinse gently with water for at least 15 minutes. Seek medical advice if irritation persists.
- **Skin Irritation:** If product comes into contact with skin, wash thoroughly with soap and water.
- **Harmful if Swallowed:** Do not induce vomiting. Drink plenty of water and contact a poison control center or physician immediately.
- **Keep out of reach of children and pets.** Store the product in a cool, dry place when not in use.
- Wear gloves when handling the product to avoid direct skin contact.
- Do not remove the water-soluble outer protective film from the tablet. It dissolves directly in the water tank.
- This product is intended for toilet bowl cleaning only and cannot completely replace the toilet brush for stubborn stains. Regular manual cleaning is still recommended.
- Do not mix this product with other toilet bowl cleaners.

SETUP & INSTALLATION

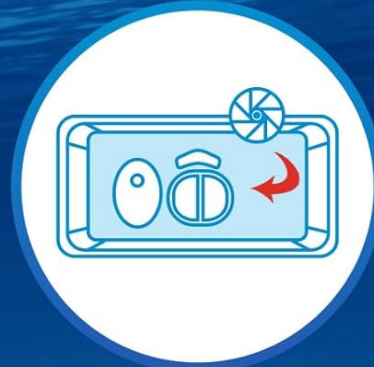

1. Before first-time use, thoroughly clean the toilet bowl with a toilet brush to remove any existing stubborn stains or dirt accumulation.
2. Carefully remove the toilet tank lid.
3. Take one Vacplus Automatic Toilet Bowl Cleaner Tablet from its individual packaging. **Do not tear off the blue outer protective film; it is water-soluble.**

4. Place the tablet into the toilet tank, away from the water inlet and outlet, preferably under the float ball. Ensure the refill tube and overflow tube are well-connected.
5. Replace the toilet tank lid.
6. Allow the tablet to dissolve sufficiently for at least 10 minutes (or up to 1 hour for optimal dissolution) until the water in the bowl turns blue before the first flush.

USING METHOD

1. Unpack the product and take out the cleaner.

**2. Just drop the cleaner into the tank.
(Do not remove the transparent protective film.)**

**3. To get a better cleaning result,
please brush the toilet before flushing.**

**4. Wait for 1 hour before
the first use.**

Note: The product can keep the stains from adhering to the toilet bowl but it cannot remove the stubborn stains.

OPERATING INSTRUCTIONS

Once the tablet is placed in the tank and the water has turned blue, the Vacplus Automatic Toilet Bowl Cleaner Tablets will automatically clean, deodorize, and freshen your toilet bowl with every flush.

- Each tablet lasts up to 15 days (based on 20 flushes daily). The actual lifetime may vary depending on the frequency of flushes and water temperature.
- When the blue color of the water fades, it indicates that the tablet has dissolved completely and a new tablet should be placed in the tank.

AUTOMATICALLY CLEAN
with every flush

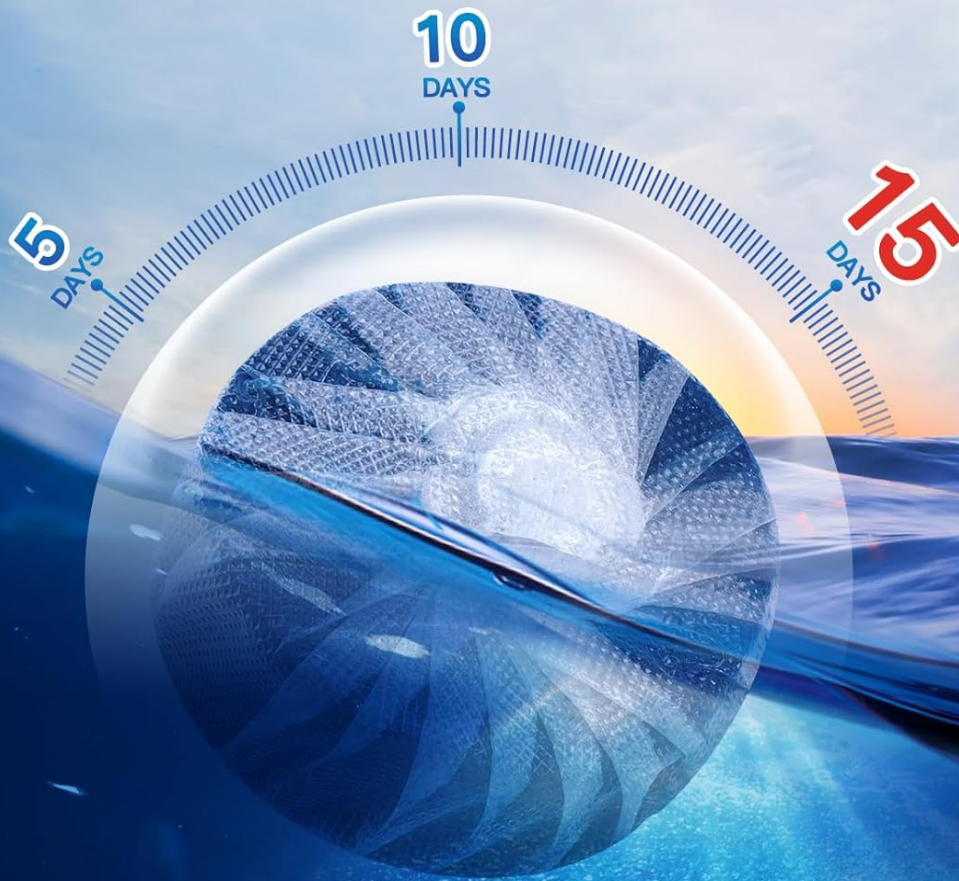

DEODORIZE & FRESHEN
all the time

Image: A hand is shown dropping a blue tablet into a toilet bowl. Text indicates the product automatically cleans with every flush and deodorizes & freshens all the time.

1 TABLET CLEANS 5–15 DAYS

*** The duration of the product varies with the frequency of flushes. The longest lifetime of 15 days is based on 20 flushes a day.**

Image: A graphic showing a circular dial with numbers 5, 10, and 15 days, indicating that one tablet cleans for 5-15 days. A note states that the duration varies with flush frequency, with 15 days being the maximum for 20 flushes a day.

MAINTENANCE

- Replace the tablet when the blue color in the toilet bowl fades, indicating it has fully dissolved.
- While the tablets help maintain cleanliness, periodic manual cleaning with a toilet brush is still recommended to address any stubborn stains or buildup that may occur over time.

Image: A split image showing a "Before" view of a dirty toilet bowl with stains and an "After" view of a clean toilet bowl with blue water, indicating the cleaning effect of the tablet.

TROUBLESHOOTING

- **Blue color fades too quickly:** This may indicate high frequency of toilet usage. Consider replacing the tablet more often or ensuring it is placed in an optimal position in the tank.
- **Blue color is too light:** This can happen with very frequent toilet use. The cleaning effect is still present, but the color may be less intense.
- **Tablet not dissolving properly:** Ensure the tablet is not obstructed by any internal parts of the tank and is placed away from direct water flow.
- **Stains persist:** For stubborn stains, manual scrubbing with a toilet brush and appropriate cleaner is necessary. These tablets are for maintenance and prevention.

SPECIFICATIONS

Product Dimensions	1 x 1 x 1 inches; 1 Pounds
Item Model Number	USVA165BU-12
Brand	Vacplus
Item Form	Tablet
Scent	Fragrance Free
Specific Uses For Product	Toilet
Material Feature	Toilet cleaner
