2. PRODUCT FEATURES

The Naztech Magnetic Phone Holder offers several key features:

- **Universal Device Compatibility:** Supports a wide range of smartphones, tablets, and eReaders.
- **Instant One-Handed Attachment:** Powerful built-in magnets allow for quick and easy device attachment and removal without clips or adjustments.
- **Peel-and-Stick Installation:** Features a strong adhesive backing for tool-free installation on various flat surfaces.
- **Cradle-Free Design:** Minimalist design ensures full access to the device screen and charging ports.
- **Secure and Stable Hold:** High-strength magnets maintain a firm grip on your device, even during

movement.

3. PACKAGE CONTENTS

The package typically includes:

- Naztech Magnetic Phone Holder (1 unit)
- Metal Plate(s) for device attachment (quantity may vary)

4. SETUP INSTRUCTIONS

Follow these steps for proper installation of your magnetic phone holder:

1. **Clean the Surface:** Ensure the desired mounting surface is flat, dry, and free of dust or debris. Use an alcohol wipe if necessary and allow it to dry completely.
2. **Peel the Backing:** Carefully remove the protective liner from the adhesive backing of the magnetic phone holder.

3. **Press and Hold:** Position the mount on the cleaned surface and press firmly for at least 30 seconds. Apply consistent pressure to ensure strong adhesion. Allow the adhesive to cure for 24 hours before attaching a device.
4. **Attach Metal Plate to Device:** For your device to work with the magnetic holder, attach one of the included metal plates to the back of your phone or phone case. Ensure the plate is centered for optimal magnetic connection.

Image 4.1: Peel-and-Stick Installation Steps. Follow these steps for secure mounting.

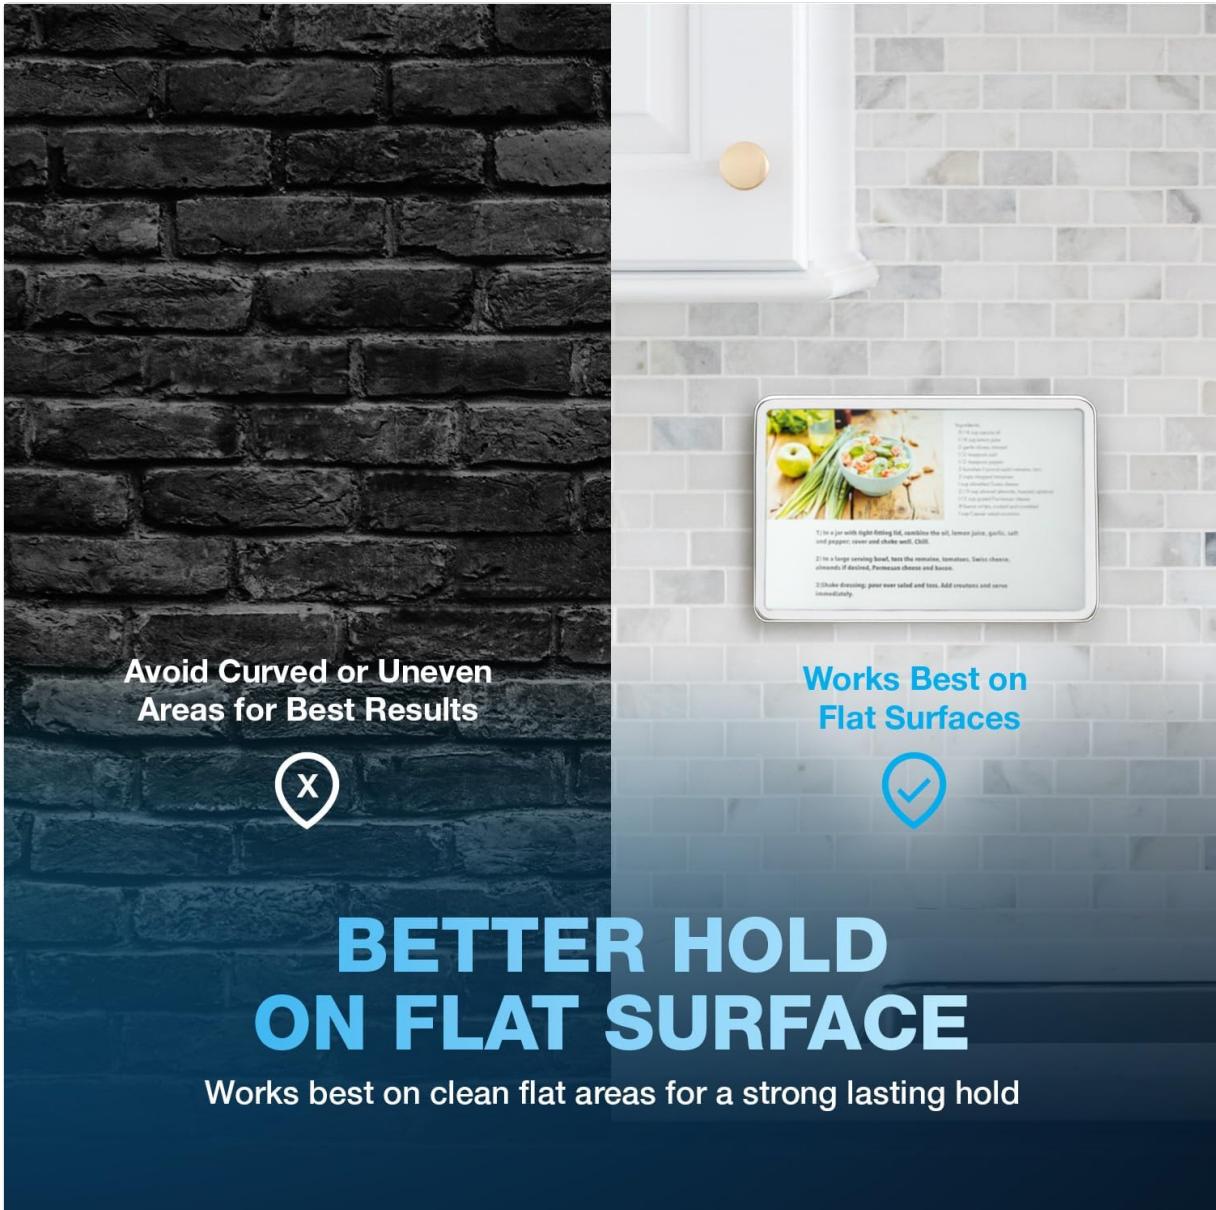

Image 4.2: Surface Recommendation. For best results, install on clean, flat surfaces.

5. OPERATING INSTRUCTIONS

Once installed, operating the magnetic phone holder is straightforward:

- **Attaching Your Device:** Simply bring your device (with the metal plate attached) close to the magnetic mount. The strong magnets will automatically secure your device in place.
- **Detaching Your Device:** Gently pull your device away from the mount.
- **Adjusting Viewing Angle:** The mount allows for flexible positioning. You can rotate your device for portrait or landscape viewing as needed.

Strong Magnet Hold

Advanced Magnetic Grip for Secure Stability

The Naztech MagBuddy Elite uses advanced magnets to keep your phone secure, even on rough surfaces. Its sleek, compact design fits perfectly in any setting while ensuring reliable performance.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Naztech Magnetic Phone Holder:

- **Cleaning:** Wipe the surface of the mount with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Adhesive Care:** The adhesive is designed for single-use application. Once removed, it may not re-adhere effectively.
- **Magnetic Plate:** Ensure the metal plate on your device remains clean and free of obstructions for the best magnetic connection.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mount does not stick to surface.	Surface is dirty, uneven, or not properly prepared.	Clean the surface thoroughly and ensure it is flat and dry. Apply firm pressure during installation and allow 24 hours for adhesive to cure.
Device falls off the mount.	Metal plate not correctly positioned, phone case is too thick, or mount is damaged.	Ensure the metal plate is centered on your device or inside a thin case. Consider using a thinner case or attaching the plate directly to the phone. If the mount is damaged, replace it.
Wireless charging not working.	Metal plate interferes with wireless charging coil.	Reposition the metal plate to avoid the wireless charging area of your device, or use a case that allows for plate placement without interference.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions	2.96 x 0.91 x 7.88 inches
Item Weight	3.2 ounces
Item Model Number	it-Cable-23h-760
