Bajaj Regal Gold NXG 1200mm

Bajaj Regal Gold NXG 4 Blade 1200 mm Ceiling Fan Instruction Manual

Model: Regal Gold NXG 1200mm (Matt Ivory)

1. Product Overview

The Bajaj Regal Gold NXG 4 Blade 1200 mm Ceiling Fan is designed for efficient air circulation and durability. This manual provides essential information for the safe installation, operation, and maintenance of your ceiling fan.

Key Features:

- **High Air Delivery:** Provides 225 CMM (Cubic Meters Per Minute) for improved air circulation.
- **Low Power Consumption:** Designed to save electricity.
- **Quick-Start High Torque Motor:** Ensures instant comfort by achieving high performance rapidly.
- **Double Ball Bearing:** Enhances load-bearing capacity and product durability.
- **Metallized Ornament and Body Ring:** Adds to the aesthetic appeal.
- **Finish Type:** Matte Matt Ivory.
- **Material Type:** Aluminium blades and body.

3. Installation and Setup

Installation should be performed by a qualified electrician or a competent person in accordance with local electrical codes and regulations. Ensure the power supply is disconnected before beginning installation.

Mounting Type: Downrod Mount

1. **Prepare the Mounting Location:** Ensure the ceiling joist or support structure can safely hold the weight of the fan (approximately 5-7 kg) and is suitable for a downrod mount.
2. **Install the Mounting Bracket:** Securely attach the mounting bracket to the ceiling outlet box or support structure using appropriate hardware.
3. **Assemble the Downrod:** Insert the downrod through the canopy and connect it to the fan motor unit. Ensure all screws are tightened.

4. **Hang the Fan:** Carefully lift the fan assembly and hang it from the mounting bracket.
5. **Electrical Connections:** Connect the electrical wires from the fan to the household wiring according to the wiring diagram provided in the separate installation guide (not included in this manual). Ensure all connections are secure and insulated.
6. **Attach Blades:** Securely attach the four blades to the motor unit. Ensure they are balanced to prevent wobbling.
7. **Final Checks:** Verify all connections are tight and the fan is securely mounted. Restore power and test the fan.

4. Operating Instructions

The Bajaj Regal Gold NXG Ceiling Fan is operated via a standard wall-mounted button control switch.

Basic Operation:

- **Power On/Off:** Use the main power button on your wall switch to turn the fan on or off.
- **Speed Control:** Adjust the fan speed using the dedicated speed control buttons or knob on your wall switch. The fan typically offers multiple speed settings.

Ensure the fan is completely stopped before attempting any cleaning or maintenance.

5. Maintenance

Regular maintenance ensures optimal performance and longevity of your ceiling fan. Always disconnect power before performing any maintenance.

Cleaning:

- **Dusting:** Periodically dust the fan blades and motor housing with a soft, dry cloth.
- **Wiping:** For stubborn dirt, use a slightly damp cloth with a mild cleaning solution. Avoid abrasive cleaners or solvents that could damage the finish.

- **Blade Cleaning:** Clean the blades regularly to prevent dust buildup, which can affect fan balance and air delivery.

General Care:

- **Tighten Fasteners:** Check all screws and fasteners periodically to ensure they are tight. Loose connections can cause noise or wobbling.
- **Double Ball Bearing:** The fan features double ball bearings for enhanced durability and smooth operation, requiring minimal lubrication maintenance.

6. Troubleshooting

Before contacting customer support, review the following common issues and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power supply; Loose wiring; Faulty switch	Check circuit breaker/fuse; Verify all electrical connections are secure; Test or replace the wall switch.
Fan wobbles	Loose blades or mounting; Unbalanced blades	Ensure all blade screws and mounting hardware are tight; Use a blade balancing kit (not included) if necessary.
Excessive noise	Loose screws; Motor issues; Obstruction	Tighten all screws; Ensure no wires or objects are touching the fan blades or motor; If noise persists, contact service.
Low air delivery	Incorrect fan size for room; Dirty blades; Low speed setting	Refer to fan sweep guide (Figure 3); Clean blades; Increase speed setting.
