Ever Pest B084V968K8

Ever Pest Ultrasonic Pest Repeller

MODEL: B084V968K8 - INSTRUCTION MANUAL

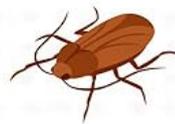

1. Introduction

The Ever Pest Ultrasonic Pest Repeller is designed to help create a pest-free environment in your home or office. Utilizing advanced ultrasonic technology, this device emits high-frequency sound waves that are irritating to pests but generally imperceptible and harmless to humans and most household pets. It offers a non-toxic, non-chemical, and odor-free solution for managing various pests.

2. Important Safety Information

- This device is for indoor use only.
- Keep the device away from water and humid environments.
- Do not attempt to open or modify the device.
- Keep out of reach of children.
- The ultrasonic sound used is safe for humans and common household pets like dogs and cats. However, it may affect rodent-like pets such as hamsters, gerbils, and guinea pigs. Keep such pets away from the device.

5. Setup

Setting up your Ever Pest Ultrasonic Pest Repeller is quick and easy:

1. Unpack the device from its packaging.
2. Plug the unit directly into a standard electrical outlet (90-230V).
3. Ensure the device is not obstructed by furniture, curtains, or other objects that could block the ultrasonic waves.

6. Operating Instructions

The device begins operating immediately upon being plugged in. It features different modes to adjust the intensity of the ultrasonic waves:

- **Mode 1 (Blue Light):** Low intensity, suitable for general pest deterrence.
- **Mode 2 (Orange Light):** Medium intensity, for more persistent pest issues.
- **Mode 3 (Red Light):** High intensity, for severe infestations or when the area is unoccupied.

To switch between modes, press the power button located on the device. The indicator light will change color to reflect the current mode.

7. Placement Guidelines

For optimal effectiveness, consider the following placement guidelines:

- Use one unit per room for better efficiency, especially in areas up to 1600 sq. ft.
- Plug the device into an electrical outlet that is clear of obstructions to allow the ultrasonic waves to spread freely.
- Avoid placing units behind large furniture, curtains, or thick carpets, as these can absorb the ultrasonic waves and reduce effectiveness.

Make Your Home "Pest-Free"

FOR A BETTER EFFICIENCY - USE ONE UNIT PER ONE ROOM

8. Maintenance

The Ever Pest Ultrasonic Pest Repeller requires minimal maintenance:

- Wipe the device periodically with a dry, soft cloth to remove dust.
- Do not use water or any cleaning solutions directly on the device.
- Ensure the area around the device remains clean and free of clutter to maximize effectiveness.

Image: Maintaining a clean environment complements the repeller's function.

9. Troubleshooting

If you are experiencing continued pest activity, consider the following:

Problem	Possible Cause	Solution
Pests still present after initial setup.	It can take 2-4 weeks for full results. Pests may initially increase activity as they try to escape.	Allow sufficient time for the device to take full effect. Ensure continuous operation.
Reduced effectiveness.	Obstructions blocking ultrasonic waves, or device is too far from pest activity.	Relocate the device to an unobstructed outlet. Consider adding more units for larger or multi-room areas.

Problem	Possible Cause	Solution
Device not turning on.	Not properly plugged in, or power outlet issue.	Ensure the device is firmly plugged into a working electrical outlet. Test the outlet with another appliance.

10. Specifications

- **Brand:** Ever Pest
- **Model:** B084V968K8
- **Color:** Black
- **Number of Pieces:** 2
- **Is Electric:** Yes
- **Target Species:** Bed Bug, Cockroach, Mosquito, Mouse, Spider
- **Unit Count:** 2 Count
- **Package Dimensions:** 5 x 2.76 x 2.24 inches
- **Item Weight:** 2.08 ounces
- **Operating Temperature:** -30°F to +130°F (from image)
