Schulte Bathtub Screen 70 x 130 cm, Black Profile, Decor Atelier

Instruction Manual

1. INTRODUCTION

Thank you for choosing the Schulte Bathtub Screen. This manual provides essential information for the safe and correct installation, operation, and maintenance of your new bathtub screen. Please read all instructions carefully before beginning installation and keep this manual for future reference.

This product is designed to transform your bathtub into a functional shower area, preventing water splashes and offering a modern aesthetic.

2. SAFETY INSTRUCTIONS

- Always handle glass panels with care. Safety glass, while robust, can break if subjected to sharp impacts.
- Wear appropriate personal protective equipment (PPE) during installation, including safety glasses and gloves.
- Ensure the mounting surface (wall) is solid and capable of supporting the weight of the bathtub screen. Use appropriate fasteners for your wall type.
- Do not overtighten screws, as this can damage the glass or profiles.
- Keep children and pets away from the installation area.
- If you are unsure about any step of the installation, consult a qualified professional.

Important Information: Always prioritize safety during installation and use.

3. PACKAGE CONTENTS

Please verify that all components are present before starting the installation:

- 1 x Bathtub Screen Panel (5mm safety glass, Decor Atelier)
- Mounting accessories (screws, wall plugs, seals, profiles)
- Detailed assembly instructions

4. SETUP AND INSTALLATION

The Schulte Bathtub Screen is designed for easy installation. Refer to the included detailed assembly instructions for step-by-step guidance. The screen can be mounted on either the left or right side of your bathtub.

4.1. Pre-Installation Checks

- Ensure the wall is clean, dry, and structurally sound.
- Verify the dimensions of your bathtub and the installation area. The screen measures 70 x 130 cm.

4.4. General Installation Steps (Summary)

1. Mark drilling points on the wall according to the provided template.
2. Drill holes and insert wall plugs.
3. Attach the wall profile securely.
4. Insert the glass panel into the wall profile.
5. Install the hinge mechanism and ensure smooth pivoting.
6. Apply all necessary sealing strips to ensure water tightness.

5. OPERATING INSTRUCTIONS

The Schulte Bathtub Screen features a single pivot panel that can be folded 180 degrees against the wall. This design allows for easy access to the bathtub and saves space when the shower is not in use.

- To use as a shower screen: Gently pivot the glass panel outwards until it forms a barrier against water splashes. Ensure the bottom seal is properly seated on the bathtub rim.
- To fold away: Gently pivot the glass panel inwards towards the wall until it rests flat against it. This maximizes space in your bathroom.

6. MAINTENANCE AND CARE

Regular cleaning and maintenance will ensure the longevity and appearance of your Schulte Bathtub Screen.

6.1. Cleaning the Glass

- Clean the glass panels regularly with a soft cloth and a non-abrasive glass cleaner.
- Avoid using harsh chemicals, abrasive sponges, or scouring powders, as these can scratch the glass or damage the Decor Atelier finish.
- For best results, wipe the glass dry after each use to prevent water spots and limescale buildup.

6.2. Cleaning the Profiles and Seals

- Clean the black profiles with a soft, damp cloth and mild soap. Do not use abrasive cleaners.
- Regularly check the sealing strips for wear and tear. Clean them with water and mild soap to maintain their flexibility and effectiveness.
- Replace damaged or worn seals promptly to ensure continued water tightness.

7. TROUBLESHOOTING

If you encounter any issues with your Schulte Bathtub Screen, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Water leakage	Improperly installed or worn seals; incorrect panel alignment.	Check all sealing strips for correct placement and condition. Replace if necessary. Ensure the panel is fully extended when showering.

Problem	Possible Cause	Solution
Panel does not pivot smoothly	Hinges are dirty or stiff; misalignment during installation.	Clean hinges and apply a silicone-based lubricant if needed. Re-check installation alignment.
Glass appears cloudy or stained	Limescale or soap scum buildup.	Clean with a specialized glass cleaner or a mixture of vinegar and water. Rinse thoroughly.
