SETUP

1. Unpacking

- Carefully remove all luggage pieces from their packaging.
- Remove any protective films or tags.
- Ensure all three pieces (20", 24", 28") are present.

2. Setting the Combination Lock

Your luggage may come equipped with a TSA-compatible combination lock. Follow these steps to set your personal combination:

1. The lock is preset to 0-0-0.
2. Locate the reset button (a small, recessed button, often requiring a pen tip to press).
3. Press and hold the reset button.
4. While holding the reset button, rotate the dials to your desired 3-digit combination.
5. Release the reset button. Your new combination is now set.
6. Test the lock by scrambling the dials and then entering your new combination to open it.

Important: Remember your combination. The manufacturer cannot open your lock if the combination is forgotten.

OPERATING INSTRUCTIONS

1. Packing Your Luggage

The interior of each luggage piece is fully lined and features organization pockets and garment restraints to secure your belongings.

- **Garment Restraints:** Use the elastic straps with buckles in the main compartment to hold clothes in place and minimize shifting during transit.
- **Interior Pockets:** Utilize the hanging side zipper pocket, mesh zipper pocket, and transparent PEVA gusseted pocket (ideal for toiletries) for organized storage.
- **Exterior Pockets:** The front exterior features a small zipper pocket for quick-access items and a larger gusseted zipper pocket for additional storage.

IT'S WHAT'S INSIDE THAT COUNTS.

2. Using the Retractable Trolley Handle

Each piece of luggage is equipped with a sturdy, user-friendly push-button retractable trolley handle. To extend the handle, press the button located on the handle grip and pull upwards. To retract, press the button and push the handle down until it locks into place.

3. Maneuvering with Spinner Wheels

The luggage features premium 8-wheel multi-directional spinners, allowing for effortless 360-degree navigation. This design enables smooth gliding through airports and other travel environments.

4. Using the Expansion Feature

Each suitcase expands an additional 2.0 inches, providing extra packing capacity when needed. To expand, simply unzip the expansion zipper located around the perimeter of the luggage. To return to

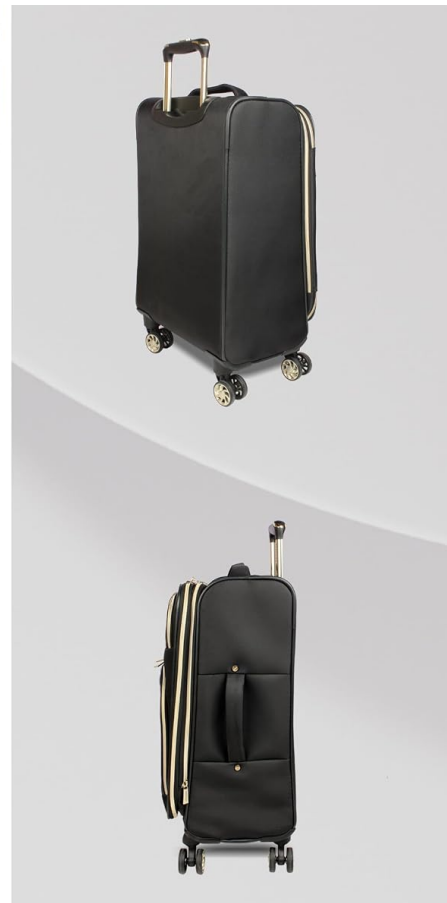

its original size, zip it back up.

5. Lifting and Carrying

Padded top and side handles are provided for comfortable lifting and carrying. A bottom grab handle assists with easier lifting, especially when placing luggage into overhead bins or onto baggage carousels.

MAINTENANCE

1. Cleaning Instructions

- **Exterior:** Wipe the polyester-twill chevron quilted exterior with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.
- **Interior:** Spot clean the fully lined interior with a damp cloth and mild detergent. Allow to air dry completely before closing.

2. Wheel and Zipper Care

- **Wheels:** Periodically check wheels for debris. Clean any accumulated dirt or hair to ensure smooth rolling.
- **Zippers:** The luggage features premium self-repairing coil zippers. To ensure longevity, avoid overstuffing the luggage, which can strain the zippers. If a zipper becomes stiff, apply a small amount of zipper lubricant or wax.

TROUBLESHOOTING

- **Stuck Retractable Handle:** If the handle becomes difficult to extend or retract, ensure no items inside the luggage are obstructing the handle mechanism. Gently wiggle the handle while pressing the release button. Avoid forcing the handle.
- **Stiff or Jammed Wheels:** Check the wheels for any trapped debris (e.g., string, hair, dirt). Remove any obstructions. If the wheels still do not spin freely, they may require cleaning or lubrication at the axle point.
- **Zipper Issues:** If a zipper separates or snags, try to gently pull the slider back to the beginning of the zipper track and slowly re-zip. Ensure the fabric is not caught in the zipper teeth. Avoid excessive force.
