2. IMPORTANT SAFETY INSTRUCTIONS

Please read and save these safety instructions before using the WISPI unit. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not operate the humidifier without water in the tank.
- Do not use hot water. Use cool tap water or distilled water.
- Do not add essential oils directly into the water tank. Use only the designated essential oil tray.
- Keep the unit out of reach of children and pets.
- Unplug the unit before filling, cleaning, or moving.
- Do not block the mist outlet or air intake vents.
- If the unit is damaged, do not operate it. Contact customer support.
- Avoid placing the unit near heat sources or in direct sunlight.

3. PACKAGE CONTENTS & PRODUCT COMPONENTS

3.1 Package Contents

Verify that all items are included in your package:

- LittleHippo WISPI Unit
- Power Adapter
- 3 Essential Oil Pads
- Optional Demineralization Filter
- User Manual (this document)

3.2 Product Components

Familiarize yourself with the main parts of your WISPI unit:

- **Water Tank:** Holds up to 1.6 liters of water.
- **Base Unit:** Contains the ultrasonic transducer and control electronics.
- **Mist Nozzles:** Located on top of the unit, for mist output.
- **Control Panel:** Touch-sensitive buttons for power, mist, and light settings, with an LED display.
- **Essential Oil Tray:** A small compartment for adding essential oils to the included pads.
- **Demineralization Filter:** Helps reduce white dust from hard water.

4. SETUP GUIDE

Follow these steps for initial setup:

1. **Placement:** Place the WISPI on a flat, stable, and waterproof surface. Ensure it is not directly on carpet or near sensitive electronics.
2. **Fill Water Tank:** Remove the top cover of the unit. Fill the water tank with cool, clean tap water or distilled water. Do not exceed the maximum fill line. Replace the top cover securely.

3. **Install Demineralization Filter (Optional):** If your water is hard, insert the demineralization filter into its designated slot in the base unit. This helps prevent white dust.

Image: A hand placing the demineralization filter into the base of the humidifier.

4. **Connect Power:** Plug the power adapter into the unit and then into a standard electrical outlet. The unit will emit a beep, and the display will briefly illuminate.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press the **Power button** () once to turn the unit on. Press it again to turn off. The unit will start in the last

used mist setting.

5.2 Mist Control

The WISPI offers three mist intensity levels. Press the **Mist button** (🌫️) repeatedly to cycle through Low, Medium, and High mist settings. The current setting will be displayed on the LED screen.

5.3 Night Light Control

Press the **Light button** (💡) to activate the night light. Repeatedly press to cycle through 7 different LED colors and a color-changing mode. Press and hold to turn the night light off.

5.4 Humidistat / Auto Mode

The WISPI features a built-in humidistat to monitor room humidity. To set a desired humidity level, press the **Humidity button** (📊). The unit will automatically adjust its mist output to maintain the set humidity. The auto-shutoff feature activates when the tank runs dry or the desired humidity is reached.

5.5 Aromatherapy Diffuser

To use the aromatherapy function:

1. Locate the essential oil tray on the side of the unit.
2. Pull out the tray and place one of the included essential oil pads inside.
3. Add a few drops of your preferred essential oil onto the pad.
4. Slide the tray back into the unit. The mist will now carry the aroma into the air.

6. MAINTENANCE & CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your WISPI unit.

6.1 Daily Maintenance

- Empty and rinse the water tank daily.
- Wipe the inside of the water tank and base with a clean, dry cloth.

6.2 Weekly Cleaning

- Unplug the unit and remove the water tank.
- Pour 1 cup of white vinegar into the water tank and base. Let it sit for 20 minutes.
- Use a soft brush or cloth to clean any mineral buildup.
- Rinse thoroughly with clean water until the vinegar smell is gone.
- Do not submerge the base unit in water.

6.3 Demineralization Filter Replacement

The demineralization filter should be replaced every 2-3 months, or more frequently with hard water use. Replacement filters are available from LittleHippo.

Image: A close-up of the demineralization filter, which helps reduce mineral buildup and white dust.

6.4 Essential Oil Pad Replacement

Replace essential oil pads when they become discolored or no longer effectively diffuse scent. Additional pads are available from LittleHippo.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	No water in tank Mineral buildup on transducer Mist nozzle blocked	Refill water tank Clean transducer with vinegar solution Clear any obstructions from mist nozzle
Unit not turning on	Not plugged in Power outlet issue	Ensure power adapter is securely plugged in Test outlet with another device
Unpleasant odor	Stale water Dirty water tank/base	Empty and rinse tank daily Perform weekly cleaning with vinegar solution
White dust around unit	Hard water minerals Demineralization filter needs replacement	Use distilled water Replace demineralization filter
