tectake Robust Sun Lounger with Adjustable Sun Canopy - Model 403417

User Manual

1. INTRODUCTION

Thank you for choosing the tectake Robust Sun Lounger, Model 403417. This sun lounger is designed for outdoor relaxation, offering comfort and versatility with its adjustable features and portable design. Constructed with a durable alloy steel frame and robust polyester fabric, it provides a stable and comfortable surface for sunbathing or lounging. This manual provides essential information for the safe setup, operation, and maintenance of your sun lounger.

2. SAFETY INSTRUCTIONS

- **Maximum Weight Capacity:** Do not exceed the maximum weight recommendation of **110 kg (242 lbs)**. Overloading can cause damage to the lounger and lead to injury.
- **Stable Surface:** Always place the sun lounger on a flat, stable, and non-slippery surface to prevent tipping.
- **Children and Pets:** Keep children and pets away from the lounger during setup and adjustment to prevent pinching or injury.
- **Weather Conditions:** Avoid using the lounger in strong winds or extreme weather conditions. Fold and store it indoors during adverse weather to prevent damage.
- **Inspection:** Before each use, inspect the lounger for any signs of damage, loose parts, or wear. Do not use if damaged.
- **Moving the Lounger:** Use the integrated carry handles when transporting the folded lounger. Ensure it is fully folded and secured before moving.
- **Adjustments:** Ensure all adjustment mechanisms are securely locked in place before use.

3. PACKAGE CONTENTS

The tectake Robust Sun Lounger is typically shipped as a single unit. No separate components are included for assembly beyond the main lounger itself. The product arrives largely pre-assembled, requiring only unfolding and adjustment for use.

- 1 x tectake Robust Sun Lounger (Model 403417)
- 1 x Detachable Head Pillow

4. SETUP INSTRUCTIONS

The sun lounger is designed for quick and easy setup.

1. **Unfolding the Lounger:** Place the folded lounger on a flat, open surface. Carefully unfold the main frame until it is fully extended. Ensure all leg supports are securely locked into their open positions.
2. **Attaching the Head Pillow:** The head pillow is detachable. Position it at the top of the lounger and secure it using the integrated straps or loops, if present, to prevent it from sliding during use.
3. **Adjusting the Backrest:** To adjust the backrest, lift the backrest slightly and move the support bar to one of the four available reclining positions. Ensure the support bar is fully seated in the desired notch before applying weight.
4. **Adjusting the Sun Canopy:** The sun canopy can be adjusted to provide shade. Gently pull or push the canopy frame to achieve the desired angle. Ensure it is stable and does not obstruct your view or movement.

5. OPERATING INSTRUCTIONS

Using your tectake sun lounger is straightforward:

- **Reclining Positions:** The backrest offers 4 adjustable reclining positions. To change the position, lift the backrest slightly, disengage the support bar from its current notch, and reposition it into a new notch. Always ensure the support bar is fully engaged before leaning back.
- **Sun Canopy:** The sun canopy can be angled to block direct sunlight. Adjust it as needed by gently moving the canopy frame. It can also be folded down completely when not required.
- **Folding for Storage/Transport:** To fold the lounger, first lower the backrest and sun canopy. Then, carefully collapse the frame by reversing the unfolding steps. Secure any locking mechanisms to keep it folded. Use the carry handles for easy transport.

6. MAINTENANCE

Proper care will extend the life of your sun lounger.

- **Cleaning:** Wipe the fabric and frame with a damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly with clean water. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Allow the lounger to air dry completely before folding and storing to prevent mildew and rust.
- **Storage:** When not in use, especially during off-season or adverse weather, store the folded lounger in a dry, protected area to prevent damage from moisture, UV exposure, and extreme temperatures.
- **Frame Care:** The alloy steel frame is powder-coated for durability. If any scratches or rust appear, clean the area and apply a rust-inhibiting paint to prevent further corrosion.

7. TROUBLESHOOTING

If you encounter issues with your sun lounger, refer to the following common solutions:

- **Lounger feels unstable:** Ensure all legs are fully extended and locked. Check that the lounger is placed on a flat, even surface.
- **Backrest not staying in position:** Verify that the support bar is correctly seated in one of the four notches. If the mechanism appears damaged, discontinue use.
- **Difficulty folding/unfolding:** Ensure no fabric or foreign objects are obstructing the folding mechanism. Apply gentle, even pressure. Do not force the mechanism.
- **Sun canopy not holding position:** Check if the canopy frame is properly extended and tightened (if applicable). Ensure no fabric is caught in the joints.

8. SPECIFICATIONS
