VICSEED B084ZFK84T

VICSEED Ultra Stable Car Phone Holder Mount User Manual

Model: B084ZFK84T

INTRODUCTION

Thank you for choosing the VICSEED Ultra Stable Car Phone Holder Mount. This manual provides detailed instructions for the proper installation, operation, and maintenance of your new car phone holder. Designed for ultimate stability and ease of use, this mount ensures your device remains secure and accessible while driving. Please read this manual thoroughly before use to ensure optimal performance and safety.

SETUP AND INSTALLATION

Package Contents

- 1 x Car Phone Holder Mount
- 1 x Twist-Lock Vent Clip
- 1 x User Manual
- Lifetime Service & Free Replacement Information

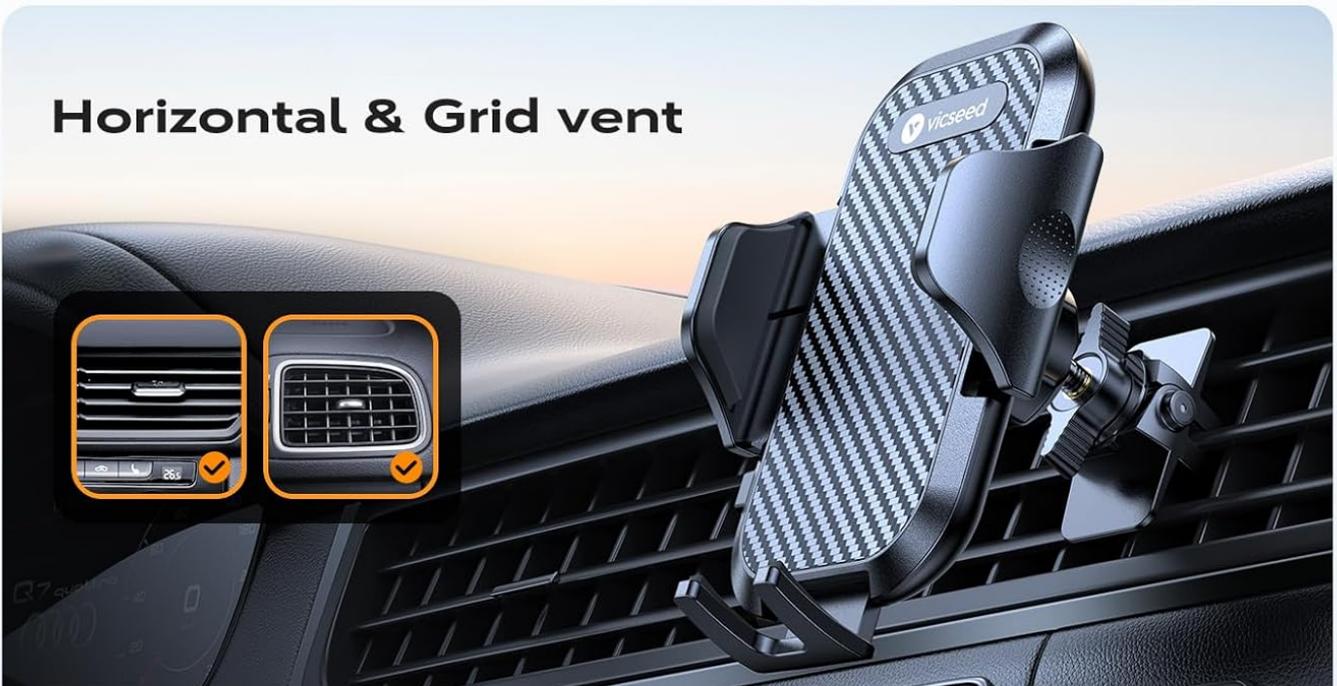

Installation Steps

Follow these steps to properly install your VICSEED car phone holder:

1. **Attach the Vent Clip:** Insert the twist-lock vent clip into the back of the phone holder mount until it clicks securely into place. Ensure it is firmly attached.
2. **Secure to Air Vent:** Choose a suitable air vent in your vehicle. The VICSEED mount is compatible with 99% of horizontal, vertical, and grid-style air vents. Insert the vent clip firmly onto an air vent blade. Twist the locking knob on the clip clockwise to tighten it, ensuring a secure and stable grip on the vent blade.
3. **Adjust the Foot:** The bottom foot of the phone holder is adjustable. If you have a large phone or a thick case, pull down the foot first to ensure proper alignment and support for your device.

Fits 99% Air Vent

Horizontal & Grid vent

Vertical Vent

Image: The phone holder securely mounted on both horizontal and grid-style air vents, demonstrating its universal compatibility.

Won't Break & Drop Clip

Built-in metal, double lock design

OTHERS Break & Fall off Easily

Image: A close-up of the vent clip, highlighting its built-in metal and double-lock design for enhanced durability and stability, preventing breakage and accidental drops.

OPERATING INSTRUCTIONS

Mounting Your Phone

The VICSEED car phone holder features a convenient one-handed operation for quick phone mounting and removal:

1. **Open Clamp Arms:** Gently touch the quick-release button located on the left side of the holder. The clamp arms will automatically open.
2. **Insert Phone:** Place your phone into the holder. The adjustable foot should support the bottom of your device.

3. **Secure Phone:** Press the clamp arms on both sides inward until they securely grip your mobile phone. The thick soft silicone pads on the clamp arms and foot protect your phone from scratches and ensure a firm hold, even on bumpy roads.

Adjusting Viewing Angle

The holder features a 360° rotation ball joint, allowing you to adjust your phone to the ideal viewing angle. Simply rotate the phone to switch between portrait and landscape view as needed, ensuring it does not distract you from driving.

Charging Port Access

The intelligent design of the holder ensures easy access to your mobile device's charging port while mounted, allowing you to charge your phone conveniently during your drive.

Fit for All Phones & Cases

If you have a large phone, please pull down foot first

CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your VICSEED car phone holder, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surface of the holder with a soft, damp cloth to remove dust and grime. Avoid using harsh chemicals or abrasive cleaners, as they may damage the material.
- **Check Connections:** Periodically check that the vent clip is securely tightened to the air vent and that all moving parts operate smoothly.
- **Storage:** If not in use for an extended period, store the holder in a cool, dry place away from direct sunlight and extreme

temperatures.

TROUBLESHOOTING

If you encounter any issues with your VICSEED car phone holder, please refer to the table below for common problems and their solutions:

Problem	Possible Cause	Solution
Mount feels loose or bounces while driving.	Vent clip not tightened sufficiently or vent blades are too thin.	Ensure the twist-lock knob on the vent clip is fully tightened. If the vent blades are very thin, try a different vent or ensure the clip is gripping multiple blades.
Phone is not held securely or falls out.	Clamp arms not fully closed, adjustable foot not extended, or phone is too large/small.	Press the clamp arms firmly to ensure they grip the phone. Extend the adjustable foot if using a larger phone or thick case. Verify your phone's dimensions are within the compatible range (4-7 inches).
Clamp arms are stiff or do not open/close smoothly.	Dust or debris in the mechanism, or lack of lubrication.	Clean the mechanism with a soft, dry cloth. Avoid applying lubricants unless specifically recommended by the manufacturer.
