4. OPERATING INSTRUCTIONS: HOW TO PLAY

The objective of MASH is to predict a player's future in a humorous and unexpected way. Follow these steps for each round:

1. **Choose a Fortune Teller:** One player is chosen to have their fortune told.
2. **Select a Scenario:** The Fortune Teller chooses a random Scenario Card and reads it aloud. This card presents a future scenario with categories to fill in (e.g., "You're going to marry ____", "You're going to live in ____").
3. **Fill in Categories:** All players contribute answers for the categories on the Scenario Card using the Fate Cards or the Dry Erase Fate Cards for custom responses. Place these cards face up under the corresponding categories on the MASH Banner Board.
4. **The Twist of Fate (Spiral Drawing):** The Fortune Teller draws a spiral on the Spiral Dry Erase Card. Once complete, they count the number of lines in their spiral. This number is their "fated number."

5. **Eliminate Fates:** Starting from the first category on the MASH Banner Board, count out cards equal to the fated number. The card landed on is eliminated. Continue this process, going through all categories and wrapping around if necessary, until only one card remains in each category.
6. **Reveal the Future:** The remaining cards in each category reveal the Fortune Teller's fated future. Read the complete fortune aloud for entertainment.
