## SETUP

---

### Initial Power On and Pairing

1. **Charge the Watch:** Before first use, fully charge your Galaxy Watch Active2 using the provided charging cable.
2. **Power On:** Press and hold the Home button (bottom right) until the Samsung logo appears.
3. **Install Galaxy Wearable App:** On your smartphone, download and install the Samsung Galaxy Wearable app from the Google Play Store or Apple App Store.

4. **Pair with Smartphone:** Open the Galaxy Wearable app on your phone and follow the on-screen instructions to pair your watch. Ensure Bluetooth is enabled on your phone.
5. **LTE Activation (Optional):** For LTE functionality, contact your mobile carrier to activate the eSIM on your watch. This typically involves scanning a QR code or entering an activation code provided by your carrier through the Galaxy Wearable app.

## OPERATING INSTRUCTIONS

---

### Basic Navigation

- **Touch Screen:** Tap to select, swipe to scroll.
- **Touch Bezel:** Rotate your finger around the screen edge to navigate through widgets, notifications, and app screens.
- **Home Button:** Press to go to the Home screen or access the Apps screen. Double-press for a customizable shortcut.
- **Back Button:** Press to return to the previous screen.

### Key Features

- **Fitness Tracking:** The watch automatically tracks various exercises and monitors your heart rate. Set your pace and achieve your run goals with advanced sensors.
- **Heart Rate Monitoring:** Continuously monitor your heart rate and receive alerts for high or low readings. Note: This device is not intended for use in the diagnosis of disease.
- **Notifications:** Receive and manage notifications from your smartphone directly on your wrist.
- **Calls and Texts:** With LTE connectivity, make and receive calls and texts even when your phone is not nearby.
- **Tizen OS:** The watch runs on Samsung's Tizen OS, offering flexibility and compatibility with various smartphones.
- **Battery Life:** The long-lasting battery can last for more than a day on a single charge. Compatible Galaxy phones can provide a quick boost with Wireless PowerShare.

## MAINTENANCE

---

### Charging

Use only the charging cable provided with your Samsung Galaxy Watch Active2. Using unapproved chargers may damage the device or cause overheating. Place the watch on the wireless charging dock, ensuring the charging contacts align. The watch display will indicate charging status.

### Cleaning

Regularly clean your watch and band to prevent skin irritation and maintain performance. Wipe the watch with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. Ensure the watch is dry before charging or wearing.

## TROUBLESHOOTING

---

- **Watch Not Powering On:** Ensure the watch is fully charged. If the battery is completely drained, it may take a few minutes on the charger before it responds.
- **Charging Issues:** If the watch displays a "use original equipment" message or overheats during charging, ensure you are using the official Samsung charger. Discontinue use if overheating persists and contact support.
- **LTE Connectivity Problems:** Verify that your carrier supports the Galaxy Watch Active2 LTE model and that your eSIM has been properly activated. Some carriers may require in-store activation.
- **Touch Screen Unresponsive:** Restart the watch by holding down the Home button. If the issue persists, ensure the screen is clean and dry.
- **Pairing Issues:** Ensure Bluetooth is active on both your watch and smartphone. Try restarting both devices and attempting the pairing process again through the Galaxy Wearable app.
