2. OPERATION

2.1 Key Features

Semi-Mechanical Touch with Floating Keycaps

The keyboard is designed with floating keycaps to provide a semi-mechanical typing experience, offering tactile feedback for enhanced gaming and typing precision.

3. MAINTENANCE

3.1 Cleaning

To clean your keyboard, disconnect it from the computer. Use a soft, dry cloth to wipe down the keycaps and chassis. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the keyboard's internal components. Avoid harsh chemicals or abrasive materials.

3.2 Spill Resistance

The EvoFox Fireblade keyboard features a spill-resistant design. In case of accidental spills, immediately disconnect the keyboard from your computer, invert it to drain any liquid, and allow it to dry completely before reconnecting. While spill-resistant, it is not waterproof, and excessive liquid exposure should be avoided.

4. TROUBLESHOOTING

4.1 Keyboard Not Responding

- Ensure the USB cable is securely connected to both the keyboard and the computer's USB port.
- Try connecting the keyboard to a different USB port.
- Restart your computer.
- Test the keyboard on another computer to determine if the issue is with the keyboard or the computer's port/drivers.

4.2 Backlighting Not Working or Incorrect

- Ensure the keyboard is properly connected.
- Use `Fn` + `Light Key` to toggle the breathing effect.
- Use `Fn` + `Page Up` / `Page Down` to adjust brightness.

4.3 Keys Not Registering or Ghosting

- Ensure the 19-key anti-ghosting feature is functioning as expected.
- Clean around the affected keys to remove any debris that might be obstructing key presses.
- If the issue persists, contact customer support.
