BABY born 827970

BABY born Magic Girl Doll 827970 Instruction Manual

Model: 827970 | Brand: BABY born

Introduction

This manual provides detailed instructions for the BABY born Magic Girl Doll, model 827970. This doll features realistic functions designed for interactive play, including drinking, eating, crying, using the potty, and magic eyes. Please read these instructions carefully before first use to ensure proper operation and maintenance.

Safety Warnings

WARNING! Not suitable for children under 36 months due to small parts which may be swallowed. Choking hazard.

- Not intended for use with real food.
- Rinse the bottle, spoon, and plate thoroughly before use. These accessories are designed for dolls only.
- Use only fresh water with the doll.
- For cleaning, use a damp cloth with water.
- This product contains magnets that are out of reach of children.
- Please comply with the instructions for use.
- Remove all plastic fasteners before giving this toy to a child.
- Shapes and colors are not contractual. Colors and details of the content may vary from the model presented on the box.
- Useful information to read and keep.

Package Contents

The BABY born Magic Girl Doll package includes the doll and the following 10 accessories:

- BABY born Magic Girl Doll (wearing a pink short-sleeved romper and matching hat)
- Birth Certificate

- Doll Bracelet
- Child Bracelet
- Bottle
- Pacifier (for magic eyes)
- Diaper
- Plate
- Spoon
- Potty
- Doll Food Sachets

Note: Styles and colors of accessories may vary.

Setup

1. **Unpacking:** Carefully remove the doll and all accessories from the packaging. Remove any plastic fasteners or ties.
2. **Initial Cleaning:** Before first use, rinse the bottle, spoon, and plate with clean water. Wipe the doll with a damp cloth if desired.
3. **Prepare Doll Food:** If using doll food, follow the instructions on the sachet to mix it with water to create a porridge. Use only BABY born doll food.

Operating Instructions

1. Magic Eyes Function

The doll's eyes can be opened and closed using the special pacifier.

- Insert the pacifier into the doll's mouth.
- To open the eyes, turn the pacifier in one direction.
- To close the eyes, turn the pacifier in the opposite direction.

This function works regardless of the doll's position. If the doll is laid on its back without the pacifier, its eyes will automatically close.

Image description: The BABY born Magic Girl doll is shown lying down with her eyes closed, wearing a pink romper and hat. This illustrates the doll in a sleeping state.

2. Drinking Water

The doll can drink fresh water from its bottle.

- Fill the provided bottle with fresh, clean water.
- Place the bottle nipple into the doll's mouth.
- Gently squeeze the bottle to feed the doll. The water will pass through the doll's internal system.

3. Crying Tears

After the doll has drunk water, it can cry tears.

- Ensure the doll has recently consumed water.
- Press firmly on the middle of the doll's upper chest area.
- Tears will flow from the doll's eyes.

4. Wetting Diaper and Using the Potty (Urination)

After drinking water, the doll can wet its diaper or use the potty.

- **To wet the diaper:** Ensure the doll is wearing a diaper after drinking. The water will be absorbed by the diaper.
- **To use the potty:** Place the doll on its potty after it has drunk water. Press the doll's navel (belly button) firmly. Water will be released into the potty.

Image description: The BABY born Magic Girl doll is lying on its back on a yellow cushion, wearing a pink romper, hat, and a white diaper with pink patterns. A pacifier is in its mouth.

5. Eating Doll Food and Using the Potty (Defecation)

The doll can be fed special BABY born doll food and then use the potty for "big business."

- Prepare the doll food according to the sachet instructions.
- Feed the doll using the provided spoon and plate.

- After feeding, place the doll on its potty.
- Press the doll's navel (belly button) firmly. The doll food will be released into the potty.

Image description: A child is gently placing the BABY born Magic Girl doll onto a purple potty. The doll is sitting upright, wearing a pink romper and hat.

6. Bathing the Doll

The BABY born Magic Girl Doll is designed to be bathed.

- Ensure the doll is clean of any doll food residue before bathing.
- Use lukewarm water. Avoid hot water.
- Do not use harsh soaps or chemicals. Mild baby soap can be used if desired.
- After bathing, thoroughly dry the doll with a soft towel.
- Allow the doll to air dry completely before storing or dressing to prevent mold or mildew.

7. Flexible Body and Dressing

The doll features flexible arms and legs, allowing it to sit independently and be easily dressed in various outfits.

- Gently move the doll's limbs to position it as desired.
- When dressing, carefully guide the doll's limbs through clothing openings to avoid damage.

Maintenance

Cleaning the Doll

- For general cleaning, wipe the doll's surface with a damp cloth and clean water.
- If doll food has been used, ensure all internal channels are flushed with clean water after play to prevent blockages.
- Do not immerse the doll's head in water for extended periods, especially if the internal mechanisms are wet.
- Avoid using abrasive cleaners or solvents, as these can damage the doll's finish.

Cleaning Accessories

- Wash the bottle, plate, spoon, and potty with warm, soapy water and rinse thoroughly after each use, especially after feeding doll food.
- Allow all accessories to air dry completely before storing.

Storage

- Store the doll and its accessories in a clean, dry place away from direct sunlight and extreme temperatures.
- Ensure the doll is completely dry before storage to prevent mildew.

Troubleshooting

Problem	Possible Cause	Solution
Doll's eyes do not open/close with pacifier.	Pacifier not inserted correctly or not turned sufficiently.	Ensure the pacifier is fully inserted and turn it firmly in both directions.

Problem	Possible Cause	Solution
Doll does not cry tears.	Doll has not drunk enough water, or chest is not pressed firmly.	Ensure the doll has recently drunk water. Press the middle of the upper chest area more firmly.
Doll does not wet diaper or use potty (urination).	Doll has not drunk enough water, or navel is not pressed firmly.	Ensure the doll has recently drunk water. Press the navel more firmly.
Doll food does not pass through (defecation).	Doll food mixture is too thick, or navel is not pressed firmly.	Ensure doll food is mixed to the correct consistency (not too thick). Press the navel more firmly. Flush internal channels with water after use.
Water/food leakage.	Overfilling the doll, or internal blockage.	Do not overfill the doll with water or food. Ensure internal channels are clean by flushing with water after each use.
