Cecotec Cumbia Power Matic-ccino 9000 Serie Nera Superautomatic Coffee Machine User Manual

Model: 01592 | Brand: Cecotec

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your Cecotec Cumbia Power Matic-ccino 9000 Serie Nera Superautomatic Coffee Machine. Please read this manual thoroughly before first use and keep it for future reference.

SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Ensure the voltage indicated on the appliance corresponds to your local mains voltage before connecting.
- Do not immerse the appliance, power cord, or plug in water or any other liquid.
- Unplug the appliance from the outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Keep the appliance out of reach of children.
- Use only accessories recommended by the manufacturer.

PRODUCT OVERVIEW

The Cecotec Cumbia Power Matic-ccino 9000 is a superautomatic coffee machine designed for ease of use and versatility, offering a wide range of hot beverages.

Figure 1: Front view of the Cecotec Cumbia Power Matic-ccino 9000, showing the main unit, control panel, coffee spouts, and milk frother container. Two cups are positioned to receive coffee.

Figure 2: The coffee machine placed on a wooden kitchen counter, demonstrating its compact design. Several prepared coffee beverages are visible around the machine.

Key Features:

- Superautomatic Plug&Play system for automatic beverage preparation.
- 20 types of hot beverages: espresso, ristretto, lungo, doppio, americano, latte, flat white, latte macchiato, cortado, hot milk, cappuccino, cappuccino mix, macchiato, inverted macchiato, and various tea waters.
- Custom Coffee System: personalize intensity, temperature, pressure, coffee quantity, milk, cream, and foam.
- Memory function for up to 10 favorite user profiles.
- Thermoblock rapid heating system for optimal temperature.
- ForceAroma 19-bar pressure pump for best crema and aroma.
- All Cappuccino System for automatic milk integration.
- High-quality interactive touch control panel.
- 250g bean hopper with hermetic lid and integrated conical grinder with 5 levels.
- 500ml Full Latte milk tank.
- 1.7-liter removable water tank.

- Adjustable coffee spout height (10.5 cm to 15 cm).
- Cup warmer tray.
- Automatic shut-off with programmable time (30 minutes to 24 hours).
- Maximum power of 1500 W.

SETUP

Unpacking and Initial Placement:

1. Carefully remove all packaging materials.
2. Place the coffee machine on a stable, flat, and dry surface, away from heat sources and water.
3. Ensure adequate ventilation around the appliance.

Water Tank Filling:

1. Remove the 1.7-liter water tank from the back or side of the machine.
2. Fill the tank with fresh, cold drinking water up to the MAX level indicator.
3. Reinsert the water tank securely into its position.

Bean Hopper Filling:

1. Open the lid of the 250g bean hopper located on top of the machine.
2. Pour fresh coffee beans into the hopper. Do not overfill.
3. Close the lid firmly to preserve aroma.

Milk Tank Connection (for milk-based beverages):

1. Fill the 500ml Full Latte milk tank with fresh milk.
2. Connect the milk tank to the designated port on the machine, ensuring a secure fit.

First Use and Rinsing:

1. Plug the appliance into a grounded power outlet.
2. Turn on the machine using the main power switch.
3. The machine will perform an automatic rinsing cycle. Place a container under the coffee spouts to collect the water.
4. Once the rinsing cycle is complete, the machine is ready for use.

OPERATING INSTRUCTIONS

Basic Coffee Preparation:

1. Ensure the water tank is filled and coffee beans are in the hopper.
2. Place a cup under the coffee spouts. Adjust the spout height if necessary.
3. On the interactive touch panel, select your desired coffee type (e.g., Espresso, Lungo).
4. The machine will automatically grind the beans, brew, and dispense the coffee.

Figure 3: The touch display interface, illustrating the customization sliders for various parameters such as coffee bean quantity, coffee volume, temperature, flavor intensity, milk volume, and foam level. An option to prioritize milk first is also shown.

Customizing Your Coffee (Custom Coffee System):

The Custom Coffee System allows for precise control over your beverage.

1. Select a beverage from the main menu.
2. Tap the "Customize" or "Settings" icon (refer to the on-screen interface for exact icon).
3. Adjust parameters such as:
 - **Intensity:** Adjust the strength of the coffee.
 - **Temperature:** Set the brewing temperature.

- **Pressure:** Fine-tune the brewing pressure.
- **Coffee Quantity:** Control the volume of coffee dispensed.
- **Milk/Foam Quantity:** For milk-based drinks, adjust milk and foam levels.
- **Pour Order:** For layered drinks, choose the order of ingredients (e.g., milk first).

4. Save your customized recipe to one of the 10 user profiles for quick access.

Figure 4: The user profile management screen, displaying options to create personalized coffee recipes, access saved favorites, change user names, and delete user profiles. This feature allows multiple users to store their preferred settings.

Milk Frothing (All Capuccino System):

For lattes, cappuccinos, and macchiatos, ensure the milk tank is connected and filled.

1. Select a milk-based beverage from the menu.
2. The machine will automatically dispense coffee, then milk and foam in the correct proportions directly into your cup.

Figure 5: A close-up shot of the coffee machine dispensing a layered milk-based coffee drink into a clear glass, showcasing the distinct layers of coffee, milk, and foam. The milk frother container is visible on the right.

Adjusting Grinding Level:

The integrated conical grinder has 5 levels of grinding. Adjust this setting to achieve your preferred coffee strength and flavor.

- Finer grind: Stronger coffee, slower flow.
- Coarser grind: Milder coffee, faster flow.

Note: Adjust the grinding level only when the grinder is operating to prevent damage.

Using Pre-ground Coffee:

The machine also supports pre-ground coffee. Refer to the specific port for pre-ground coffee, usually a small bypass doser.

1. Open the pre-ground coffee compartment.

2. Add one scoop of pre-ground coffee (do not exceed recommended amount).
3. Select the "Pre-ground Coffee" option on the display before brewing.

MAINTENANCE

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your coffee machine.

Daily Cleaning:

- **Drip Tray and Coffee Grounds Container:** Empty and rinse daily. The machine will prompt you when the grounds container needs emptying.
- **Water Tank:** Rinse daily and refill with fresh water.
- **Milk System:** After each use of milk-based beverages, perform a quick rinse cycle for the milk system. Detach and clean the milk tank and frothing components thoroughly with warm water and mild detergent.
- **Brew Group:** The brew group should be removed and rinsed under lukewarm water daily. Allow it to air dry before reinserting.

Weekly/Bi-weekly Cleaning:

- **Coffee Spouts:** Clean the coffee spouts with a damp cloth to remove any coffee residue.
- **Exterior:** Wipe the exterior of the machine with a soft, damp cloth. Do not use abrasive cleaners.

Descaling:

The machine will indicate when descaling is required. The frequency depends on water hardness and usage.

1. Use a descaling solution specifically designed for coffee machines.
2. Follow the instructions provided with the descaling solution and the machine's on-screen prompts for the descaling process.
3. After descaling, perform several rinsing cycles to ensure all descaling solution is flushed out.

Automatic Shut-off:

The machine features an automatic shut-off function, programmable from 30 minutes to 24 hours, to save energy. This can be configured in the settings menu.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No coffee dispensed / Slow flow	Water tank empty; Coffee beans empty; Grinding too fine; Brew group clogged.	Refill water tank; Refill bean hopper; Adjust grinder to a coarser setting; Clean brew group.

Problem	Possible Cause	Solution
No milk foam / Poor foam quality	Milk tank empty; Milk system clogged; Milk not cold enough; Incorrect milk type.	Refill milk tank; Clean milk system thoroughly; Use cold milk (preferably semi-skimmed or skimmed); Try different milk.
Machine displays "Empty Grounds" but it's empty	Sensor issue; Grounds container not properly reinserted.	Ensure grounds container is fully inserted and clicked into place. Empty the container only when the machine is on.
Coffee is not hot enough	Cup not pre-heated; Temperature setting too low.	Use the cup warmer tray; Adjust temperature setting in the menu to a higher level.
Machine leaks water	Water tank not properly seated; Internal hose disconnected (rare).	Ensure water tank is securely in place. If problem persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	Cecotec
Model Number	01592
Color	Black
Dimensions (L x W x H)	52 x 36 x 44 cm
Weight	8 kg
Water Tank Capacity	1.7 Liters
Bean Hopper Capacity	250 g
Milk Tank Capacity	500 ml
Voltage	230 Volts (AC)
Power	1500 W
Pressure Pump	19 Bars (ForceAroma Technology)
Grinding Levels	5
Special Features	Cup warmer, Milk frother, Touch screen, User profiles

WARRANTY AND SUPPORT

Your Cecotec Cumbia Power Matic-ccino 9000 Serie Nera coffee machine comes with a manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms and conditions.
