- Do not stand or jump on the bed frame.
- Use only with a mattress of appropriate size and weight.

- Included Allen wrench or ratchet tool.

Assembly Steps (General Guide):

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface and compare them against the parts list in your included instruction sheet to ensure everything is present.
2. **Assemble the Headboard:** Attach the metal support brackets to the wooden headboard sections using the provided hardware. Ensure all connections are firm.
3. **Connect Side Rails:** Attach the side rails to the headboard and footboard using the designated bolts. Do not fully tighten bolts until the entire frame is assembled.
