XTU Wireless Chime C1 User Manual

Indoor Chime for J1 Wireless Video Doorbell

Brand: XTU | Model: C1

1. INTRODUCTION

Thank you for choosing the XTU Wireless Chime C1. This indoor chime is designed to work seamlessly with your J1 Wireless Video Doorbell, providing an audible alert when someone presses your doorbell. This manual will guide you through the setup, operation, and maintenance of your new chime.

2. PRODUCT OVERVIEW

The XTU Wireless Chime C1 is a compact and easy-to-use device that plugs into a standard power outlet. It features a simple design with a reset button and an LED indicator for status updates. When paired with your XTU J1 Wireless Video Doorbell, it provides an immediate audible notification inside your home.

3. SETUP AND PAIRING

Follow these steps to pair your XTU Wireless Chime C1 with your J1 Wireless Video Doorbell:

- 1. Locate the Reset Button:** On the back of the chime, you will find a small reset button.
- 2. Power On the Chime:** Plug the chime into a standard DC5V adapter (not included) and then into a power outlet. The indicator light on the chime will turn solid blue.
- 3. Initiate Pairing Mode:** Short click the reset button on the chime. The LED indicator will begin to flash blue, indicating it is ready for pairing.
- 4. Press the Doorbell Button:** Go to your J1 Wireless Video Doorbell and press its button.
- 5. Confirmation:** The chime will ring to confirm successful pairing. The indicator light on the chime will then return to a solid blue.

For a visual guide, please watch the official setup video below:

Video Description: This video demonstrates the step-by-step process of pairing the XTU Wireless Chime with the XTU J1 Wireless Video Doorbell. It shows how to locate the reset button, plug in the chime, activate pairing mode by short-clicking the reset button, and then pressing the doorbell button to complete the pairing. The video highlights the LED indicator's behavior during the process.

4. OPERATING INSTRUCTIONS

Once successfully paired, the XTU Wireless Chime C1 operates automatically. When a visitor presses the button on your J1 Wireless Video Doorbell, the chime will sound, alerting you to their presence. There are no additional operational controls on the chime itself after pairing.

5. MAINTENANCE

To ensure optimal performance and longevity of your XTU Wireless Chime C1:

- Keep the device clean and dry. Avoid exposing it to moisture or extreme temperatures.
- Wipe the exterior with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Ensure it is plugged into a stable power source.

6. TROUBLESHOOTING

If you encounter issues with your XTU Wireless Chime C1, please refer to the following common solutions:

- **Chime is not ringing:**
 - Ensure the chime is properly plugged into a working power outlet and the indicator light is solid blue.
 - Re-attempt the pairing process as described in Section 3.
 - Check the distance between the chime and the doorbell. While wireless, extreme distances or heavy obstructions can affect signal.
- **Chime not staying connected:**
 - Ensure the chime is receiving consistent power. Try a different outlet.
 - Perform the pairing process again.
 - If the issue persists, there might be interference. Try relocating the chime to a different power outlet within range of the doorbell.
- **No sound from chime:**
 - Verify the chime is powered on and paired.
 - Ensure there are no physical obstructions blocking the speaker.
