OPERATING INSTRUCTIONS (FOLDING PROCESS)

This kit includes a comprehensive instruction booklet that guides you through the folding process for each tropical figure. Follow these general steps:

1. **Select a Design:** Choose one of the tropical designs from the instruction booklet (e.g., butterfly, hummingbird, turtle, or flower).
2. **Choose Paper:** Select a sheet of origami paper that corresponds to your chosen design or your preference.
3. **Follow Instructions:** Refer to the step-by-step illustrations in the instruction booklet. Each step is clearly depicted to show the required folds.
4. **Crease Firmly:** Make sure each fold is crisp and firm to ensure the final model holds its shape. Use your fingernail or a flat edge to press down on creases.
5. **Apply Stickers:** Once the origami figure is complete, use the provided stickers to add details and personalize your creation.
6. **Repeat:** The kit contains multiple sheets of paper, allowing you to create several figures of each design.

MAINTENANCE

To ensure the longevity of your finished origami creations:

- **Handle Gently:** Origami figures are made of paper and can be delicate. Handle them with care to avoid tearing or unfolding.
- **Keep Dry:** Protect your creations from moisture and humidity, which can damage the paper and alter its shape.
- **Store Properly:** Store finished figures in a dry, flat place where they will not be crushed or exposed to direct sunlight, which can cause fading.

TROUBLESHOOTING

- **Folds Not Holding Shape:** Ensure you are pressing down firmly on each crease. Sometimes re-creasing a fold can help it hold better.
- **Difficulty with a Specific Step:** Re-read the instructions carefully and examine the illustrations. Try the step slowly, paying attention to the direction of the folds. If available, search for online video tutorials for similar origami bases.
- **Paper Tearing:** The paper in this kit is thicker than standard origami paper. Apply gentle, even pressure when folding, especially when making multiple layers or sharp creases, to prevent tearing.
- **Finished Model Does Not Resemble Illustration:** Review the previous steps to ensure all folds were made accurately. Small inaccuracies in early steps can significantly affect the final outcome.
