## Kleenguard V30 22475 Nemesis

# Kleenguard V30 22475 Nemesis Safety Glasses User Manual

Model: V30 22475 Nemesis

## INTRODUCTION

---

The Kleenguard V30 22475 Nemesis Safety Glasses are designed to provide superior eye protection in various environments. Featuring a sporty, lightweight design, these glasses offer comfort and style while meeting rigorous safety standards. The smoke anti-fog lenses are ideal for outdoor use, providing glare reduction and maintaining clear vision even when transitioning between different temperature and humidity conditions. They are equipped with patented FLEX-DRY technology for enhanced comfort and stability.

## SAFETY INFORMATION

---

Always ensure your safety glasses are clean and free from damage before use. Do not use if lenses are scratched or frame is broken, as this may compromise protection. These glasses are designed for personal eye protection and meet ANSI Z87.1+ standards. They provide 99.9% UVA/UVB/UVC protection. Always wear appropriate personal protective equipment for the task at hand.

## SETUP

---

The Kleenguard Nemesis Safety Glasses are ready for use directly out of the packaging. No assembly is required.

1. **Unpack:** Carefully remove the safety glasses from their packaging.
2. **Inspect:** Before first use, inspect the glasses for any signs of damage, such as scratches on the lenses or cracks in the frame.
3. **Adjust:** Place the glasses on your face, ensuring the temples rest comfortably behind your ears and the nose piece sits securely on your nose bridge. The patented FLEX-DRY nose piece is designed to be flexible and prevent slippage.

## OPERATING INSTRUCTIONS

---

These safety glasses are designed for continuous wear in environments requiring eye protection. The smoke anti-fog lenses are particularly effective in bright, sunny conditions and help maintain clear vision when moving between varying temperatures and humidity levels.

- **Wearing:** Position the glasses firmly on your face, ensuring full coverage of your eyes. The lightweight design and FLEX-DRY nose piece are engineered for extended comfort.
- **Visibility:** The anti-fog coating on the smoke lenses helps prevent condensation buildup, ensuring consistent visibility.
- **UV Protection:** The polycarbonate lenses block 99.9% of harmful UVA, UVB, and UVC rays, protecting your eyes from sun exposure.

## MAINTENANCE

---

Proper maintenance will extend the life and effectiveness of your safety glasses.

- **Cleaning:** Clean the lenses and frame regularly with a soft, lint-free cloth. For stubborn dirt, use a mild soap and water solution, then rinse thoroughly with clean water.
- **Drying:** Air dry or gently pat dry with a clean, soft cloth. Avoid rubbing the lenses vigorously, especially when dry, to prevent scratching the anti-fog coating.
- **Storage:** Store the safety glasses in a clean, dry place, preferably in a protective case or pouch, to prevent scratches and damage when not in use. Avoid storing in direct sunlight or high heat.
- **Avoid Chemicals:** Do not use harsh chemicals, abrasive cleaners, or solvents on the lenses or frame, as these can damage the materials and coatings.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Lenses fogging up	Extreme temperature/humidity changes; dirt/oil on lenses.	Ensure lenses are clean. The anti-fog coating should minimize this; if persistent, clean thoroughly.
Glasses slipping down nose	Improper fit; sweat buildup.	Adjust position on nose. The FLEX-DRY nose piece is designed to channel sweat away; ensure it is clean.
Scratches on lenses	Improper cleaning; abrasive contact.	Clean with soft cloth only. Store in protective case. Scratched lenses should be replaced for optimal protection.

## SPECIFICATIONS

---

**Model:** V30 22475 Nemesis

**Lens Type:** Smoke Anti-Fog

**Lens Material:** Polycarbonate

**UV Protection:** 99.9% UVA/UVB/UVC

**Frame Color:** Black

**Standards Met:** ANSI Z87.1+

**Special Features:** Patented FLEX-DRY nose piece

**Care Instructions:** Clean with a soft cloth. Avoid harsh chemicals and high heat.

**Origin:** Imported
