Casio Fisher Timer Quartz Watch User Manual

Model: WSC-1250H-3AVCF

INTRODUCTION

This manual provides comprehensive instructions for the Casio Men's Fisher Timer Quartz Watch, Model WSC-1250H-3AVCF. Designed for outdoor enthusiasts, this watch features a fishing timer, moon data, and robust water resistance. Please read this manual thoroughly to understand the full capabilities and proper operation of your new timepiece.

Figure 1: Front view of the Casio Fisher Timer Quartz Watch (Model: WSC-1250H-3AVCF). This image displays the watch face with its analog and digital displays, showing the time, date, and fishing level indicator.

KEY FEATURES

- Fishing Mode: Provides fishing level indication for specified date and time.
- 100-meter Water Resistance: Suitable for swimming and snorkeling, but not diving.
- LED Light: Illuminates the watch face for visibility in low-light conditions.
- Moon Data: Displays moon age and moon phase.
- Dual Time: Allows tracking of a second time zone.
- Stopwatch: 1/100-second stopwatch for precise time measurement.
- Countdown Timer: Useful for various timed activities.
- Multi-function Alarms: Three independent alarms for daily reminders.
- Hourly Time Signal: An audible alert every hour on the hour.
- Daylight Saving On/Off: Manual adjustment for daylight saving time.
- Full Auto-calendar: Pre-programmed until the year 2099.
- 12/24-hour Format: Selectable time display format.
- Button Operation Tone On/Off: Option to mute button sounds.
- Approximate Battery Life: 3 years on CR1220 battery.

SETUP

Initial Setup and Time Adjustment

Upon first use or after a battery replacement, you will need to set the current time, date, and home city.

1. In the Timekeeping Mode, press and hold the **ADJUST** button (top left) until the city code starts to flash. This indicates the setting mode.
2. Use the **SEARCH** button (top right) and **MODE** button (bottom left) to select your desired home city code.
3. Press the **MODE** button to cycle through the settings: DST (Daylight Saving Time), 12/24-hour format, Seconds, Hour, Minute, Year, Month, Day.
4. Use the **SEARCH** and **MODE** buttons to adjust the flashing value.
5. Once all settings are configured, press the **ADJUST** button to exit the setting mode.

OPERATING MODES

Timekeeping Mode

This is the default mode, displaying the current time (analog and digital), day of the week, and date.

- To switch between 12-hour and 24-hour formats, press the **SEARCH** button in Timekeeping Mode.

Fishing Mode

The Fishing Mode provides an indication of the fishing level for a specified date and time, based on moon data.

1. From Timekeeping Mode, press the **MODE** button to navigate to the Fishing Mode. The display will show a fish icon and a fishing level indicator.

2. The fishing level is indicated by the number of fish icons displayed (from 0 to 4). More fish icons suggest a better fishing period.
3. To view fishing data for a different date, use the **SEARCH** button to advance the date.

Moon Data Mode

This mode displays the moon age and moon phase for the current date.

1. From Timekeeping Mode, press the **MODE** button repeatedly until you reach the Moon Data Mode.
2. The display will show the moon age (in days) and a graphic representation of the moon phase.
3. To view moon data for a different date, use the **SEARCH** button to advance the date.

Stopwatch Mode

The stopwatch measures elapsed time, split times, and two finishes.

1. From Timekeeping Mode, press the **MODE** button to navigate to the Stopwatch Mode.
2. Press **SEARCH** to start/stop the stopwatch.
3. Press **ADJUST** to reset the stopwatch to zero.

Countdown Timer Mode

The countdown timer can be set for a specific duration and will alert you when it reaches zero.

1. From Timekeeping Mode, press the **MODE** button to navigate to the Countdown Timer Mode.
2. Press and hold **ADJUST** to enter setting mode. The hour digits will flash.
3. Use **SEARCH** and **MODE** to set the desired countdown time.
4. Press **ADJUST** to exit setting mode.
5. Press **SEARCH** to start/stop the countdown.

Alarm Mode

The watch features three multi-function alarms and an hourly time signal.

1. From Timekeeping Mode, press the **MODE** button to navigate to the Alarm Mode.
2. Use **SEARCH** to cycle through the alarms (AL1, AL2, AL3) and the Hourly Time Signal (SIG).
3. To set an alarm, press and hold **ADJUST** when the desired alarm is displayed. The hour digits will flash.
4. Use **SEARCH** and **MODE** to set the alarm time.
5. Press **ADJUST** to exit setting mode.
6. To turn an alarm or the hourly time signal on/off, press **SEARCH** in the Alarm Mode without holding **ADJUST**.

Light Function

Press the **LIGHT** button (top right) to illuminate the watch face. The LED light provides visibility in dark environments.

MAINTENANCE

Water Resistance

Your Casio WSC-1250H-3AVCF watch is water resistant to 100 meters (330 feet). This means it is suitable for everyday use and can withstand splashes, rain, and brief immersion in water. It is also suitable for swimming and snorkeling. However, it is **not** recommended for scuba diving. Avoid operating buttons while the watch is wet or submerged to prevent water ingress.

Battery Replacement

The watch is powered by one CR1220 battery, with an approximate life of 3 years. When the display becomes dim or functions become erratic, it may be time to replace the battery. Battery replacement should ideally be performed by a qualified watch technician to ensure proper sealing and water resistance.

Figure 3: Rear view of the Casio Fisher Timer Quartz Watch, showing the stainless steel case back and the resin strap. This view is relevant for understanding battery access and water resistance markings.

Cleaning

To clean your watch, wipe it with a soft, dry cloth. For stubborn dirt, use a soft cloth dampened with water and a mild neutral detergent, then wipe dry. Avoid using volatile agents like thinner or benzine, as they may damage the resin components.

TROUBLESHOOTING

- **Display is dim or blank:** This usually indicates a low battery. Replace the CR1220 battery.
- **Time is incorrect:** Re-adjust the time and date settings as described in the "Initial Setup" section. Ensure the correct home city is selected.
- **Buttons are unresponsive:** Ensure the watch is not in a locked mode (if applicable, though this model typically doesn't have a button lock). If wet, dry the watch thoroughly. If the issue persists, a battery replacement or professional inspection may be required.
- **Water inside the watch:** Immediately take the watch to a qualified service center. Do not attempt to dry it yourself, as this can cause further damage.

SPECIFICATIONS

Feature	Detail
Model Number	WSC-1250H-3AVCF
Brand	Casio
Movement	Quartz
Water Resistance	100 meters (WR100M)
Battery Type	CR1220
Approx. Battery Life	3 years
