LEGO DUPLO Disney Ariel's Undersea Castle 10922 Instruction Manual

Model: 10922

INTRODUCTION

Welcome to the enchanting world of LEGO DUPLO Disney Ariel's Undersea Castle! This set (Model 10922) is designed to provide an engaging and educational building experience for young children, fostering creativity, fine motor skills, and imaginative play. This manual will guide you through the assembly process, explain the interactive features, and provide important care instructions to ensure lasting enjoyment.

The product packaging displays the complete LEGO DUPLO Ariel's Undersea Castle set, featuring Ariel, Flounder, and various castle elements.

SETUP: ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your LEGO DUPLO Ariel's Undersea Castle. Ensure all 35 pieces are present before beginning. Adult supervision is recommended for younger children.

- 1. Unpack Components:** Carefully remove all LEGO DUPLO bricks and figures from the packaging. Lay them out on a clean, flat surface to easily identify each piece.
- 2. Build the Base:** Start by connecting the larger base plates. These form the foundation of the castle structure.
- 3. Construct the Main Castle Structure:** Use the various colored bricks to build the castle walls and archways. Refer to the visual guides for brick placement.
- 4. Add Interactive Elements:** Integrate the spinning platform for Ariel and the blue slide for Flounder into the castle structure. Ensure these elements are securely attached and can move freely.
- 5. Place Decorative Pieces:** Attach the castle turret, seaweed elements, and other decorative pieces to complete the undersea castle theme.

6. **Introduce Figures and Accessories:** Place Ariel and Flounder figures, along with the treasure chest and other small accessories, around the completed castle.

OPERATING THE SET

Once assembled, the Ariel's Undersea Castle offers several interactive play features:

- **Spinning Carousel:** Place the Ariel figure on the pink circular platform. Gently turn the platform to make Ariel spin, simulating an undersea dance.

- **Flounder's Slide:** Position the Flounder figure at the top of the blue slide. Release him to watch him slide down into the water below.

The Flounder figure is shown positioned on the blue slide, ready to descend, demonstrating one of the interactive play features.

- **Treasure Chest:** Open and close the yellow treasure chest to store small items or pretend treasures.

MAINTENANCE

To ensure the longevity and hygiene of your LEGO DUPLO set, follow these maintenance guidelines:

- **Cleaning:** Clean LEGO DUPLO bricks and figures with mild soap and lukewarm water. Rinse thoroughly and air dry. Avoid using hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store the set in a clean, dry place away from direct sunlight and extreme temperatures. Keeping the pieces in a designated container will help prevent loss and damage.
- **Inspection:** Periodically inspect all pieces for any signs of wear or damage. Discard any broken or heavily worn pieces to ensure safety.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Missing Pieces:** If you find a piece missing, double-check the packaging and play area. For genuine missing parts from a new set, contact LEGO Customer Service.

- **Difficulty Assembling:** Ensure you are following the visual instructions carefully. DUPLO bricks are designed for easy connection; if a piece doesn't fit, verify it's the correct piece for that step.
- **Loose Connections:** If bricks feel loose, ensure they are fully pressed together. Over time, some wear may occur, but DUPLO bricks are generally very durable.
