AIMOS AUB085915CTB

AIMOS USB KVM Switcher

Model: AUB085915CTB

Brand: AIMOS

1. INTRODUCTION

The AIMOS 4-Port USB Switch is designed to allow up to four computers to share four USB 2.0 devices, such as a printer, scanner, mouse, keyboard, card reader, or flash drive. This device eliminates the need for constantly swapping cables, improving efficiency in office or home environments with multiple PCs or Macs.

It supports data transmission speeds up to 480 Mbps and is backward compatible with USB 2.0/1.1 devices. The switch features a durable metal casing and offers two convenient switching methods: direct button press on the unit or via an included remote push-button cable.
