PACIFIC AC3000BS

Pacific AC3000BS 30-inch Under Cabinet Ducted Range Hood Instruction Manual

Model: AC3000BS

1. INTRODUCTION

This manual provides essential information for the safe installation, operation, and maintenance of your Pacific AC3000BS 30-inch Under Cabinet Ducted Range Hood. Please read all instructions carefully before installation and use to ensure proper function and to prevent injury or damage.

The Pacific AC3000BS is a powerful 900 CFM under-cabinet range hood designed to effectively remove cooking odors, grease, and steam from your kitchen environment. It features a durable stainless steel construction, dual fans, LED lighting, and an innovative auto-cleaning function.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, observe the following:

- Read all instructions before using this appliance.
- Installation work and electrical wiring must be done by qualified person(s) in accordance with all applicable codes and standards, including fire-rated construction.
- Sufficient air is needed for proper combustion and exhausting of gases through the flue (chimney) of fuel-burning equipment to prevent back-drafting. Follow the heating equipment manufacturer's guideline and safety

standards such as those published by the National Fire Protection Association (NFPA), and the American Society for Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), and the local code authorities.

- When cutting or drilling into wall or ceiling, do not damage electrical wiring and other hidden utilities.
- Ducted fans must always be vented to the outdoors.
- Do not use this unit with any solid-state speed control device.
- To reduce the risk of fire, use only metal ductwork.
- Never leave surface units unattended at high settings. Boilovers cause smoking and greasy spillovers that may ignite. Heat oils slowly on low or medium settings.
- Clean ventilating fans frequently. Grease should not be allowed to accumulate on fan or filter.
- Use proper pan size. Always use cookware appropriate for the size of the surface element.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged:

- Pacific AC3000BS Range Hood Unit
- LED Lights (pre-installed)
- Mounting Hardware (screws, anchors)
- Duct Collar (for 6-inch round ducting)
- Grease Collection Tray
- Instruction Manual

4. INSTALLATION

The Pacific AC3000BS is designed for standard under-cabinet installation. Professional installation is recommended. Ensure proper ventilation and electrical connections are available before beginning.

4.1 Dimensions and Clearance

Ensure your cabinet and cooking surface provide adequate space for the range hood. The unit measures approximately 29.75 inches wide, 22 inches deep, and 7 inches high.

2 Fan Speeds at Your Choice

Image 4.1: Detailed dimensions of the Pacific AC3000BS range hood.

4.2 Ducting Connection

The range hood requires a 6-inch round duct for exhaust. A duct collar is provided. Securely attach the duct collar to the top of the range hood using a strong construction adhesive, ensuring an airtight seal. Allow the adhesive to cure completely before proceeding with mounting. Connect the ductwork to the collar, sealing all joints with metal duct tape to prevent air leaks.

Image 4.2: Bottom view of the range hood, indicating the vertical 6-inch round duct outlet and water inlet.

4.3 Mounting the Unit

The unit is mounted to the underside of your kitchen cabinet. It is crucial to ensure the cabinet structure can support the weight of the range hood (approximately 34 pounds). Use appropriate fasteners for your cabinet material. If your cabinet has a recessed bottom, consider adding a supporting block to provide a flat and secure mounting surface. The mounting holes are positioned near the edges; ensure your chosen fasteners provide a strong bite into the supporting structure.

4.4 Electrical Connection

Connect the range hood to a grounded electrical outlet. The unit operates on 2.3E+2 Volts. Ensure the electrical supply meets local codes and the range hood's requirements. The power cord length is approximately 12 inches; an extension may be required depending on your outlet location.

5. OPERATING INSTRUCTIONS

The Pacific AC3000BS features a touch control panel for easy operation.

Image 5.1: Touch control panel with Power/Delay Off, Fan Speed, Auto Clean, and LED Light buttons.

5.1 Power On/Off and Delay Off

- Press the **Power/Delay Off** button to turn the unit on or off.
- To activate the **Auto-Delay Off** function, press and hold the Power/Delay Off button while the unit is running. The hood will continue to operate for 5 minutes before automatically shutting off. This is useful for clearing residual smoke and odors after cooking.

5.2 Fan Speed Control

The range hood has two fan speeds:

- Press the **Fan Speed** button to cycle between Low (Lo) and High (Hi) settings.
- Select the appropriate speed based on your cooking needs. The 900 CFM suction power is effective for various cooking styles.

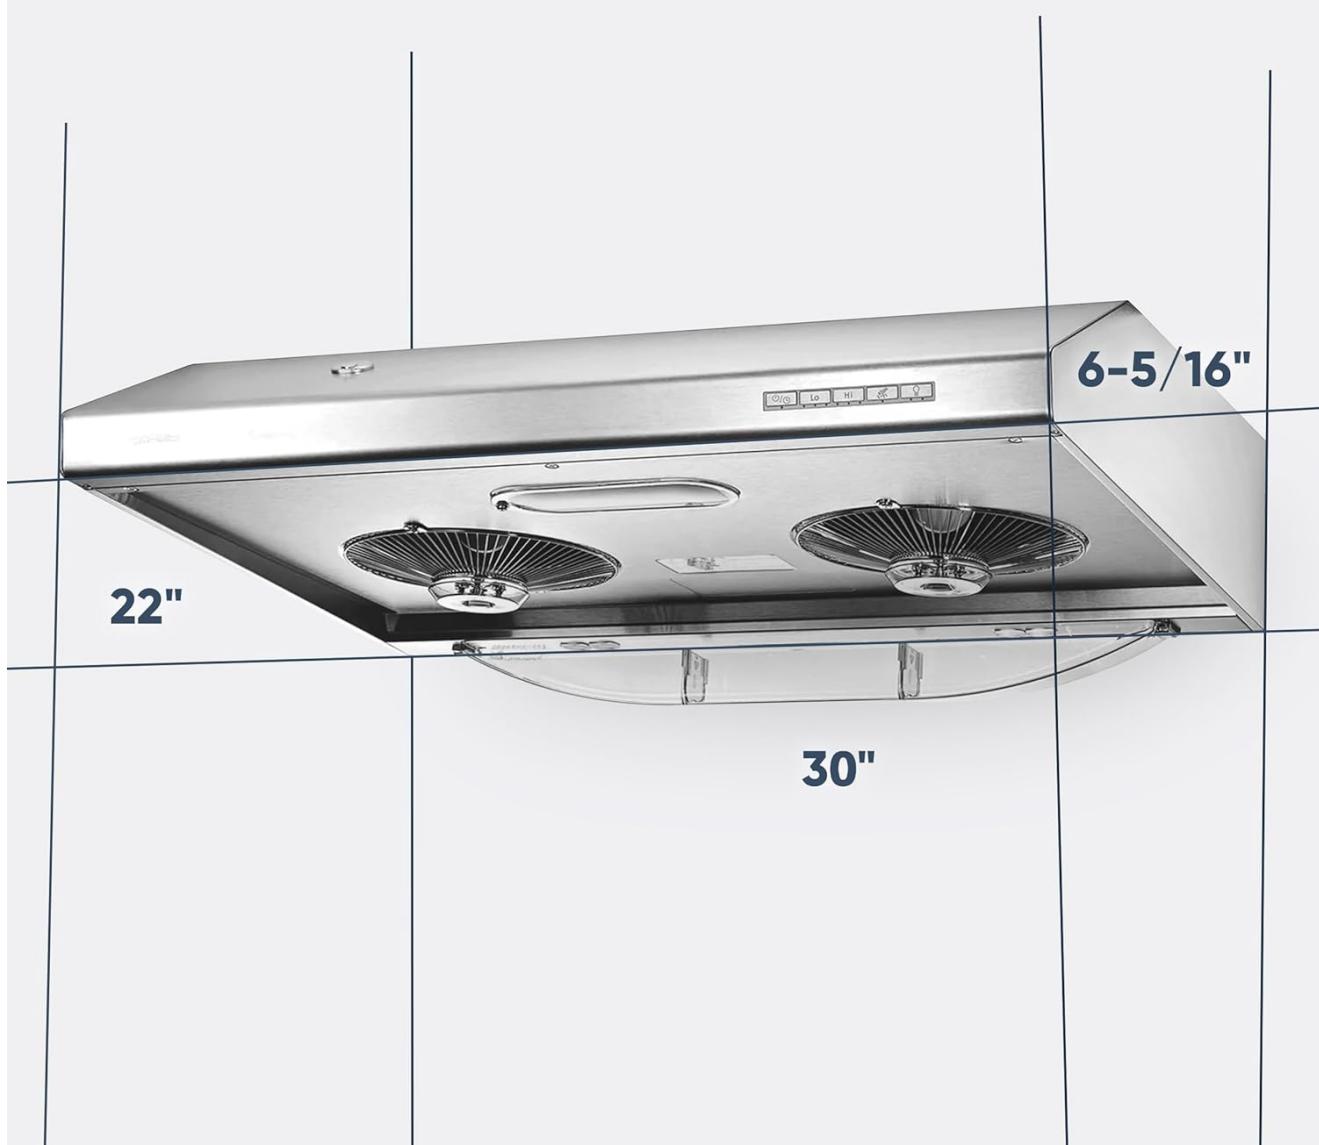

Image 5.2: HD LED Light Strip with bright and dim modes, and fan speed indicators.

5.3 LED Lighting

- Press the **LED Light** button to turn the integrated LED lights on or off.
- The LED lights provide illumination for your cooking surface.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your range hood.

6.1 Auto-Cleaning Function

The Pacific AC3000BS features a filterless design with an auto-cleaning function to simplify maintenance.

1. Mix liquid cleaner and water in the provided jar.
2. Follow the ratio marked on the jar for proper dilution.
3. Add one jar of the cleaner and water mixture to the hood's water inlet. Do not overfill.
4. Press the **Auto Clean** button on the control panel. The self-cleaning process will run for approximately 38

seconds, using spinning blades to degrease and flush residue.

5. For daily cooks, it is suggested to perform steam cleaning twice a week.
6. After each cleaning cycle, pour out the collected water from the grease collection cup.

Image 6.2: Overview of key features including the auto-clean function and removable grease tray.

6.2 Grease Collection Tray

The removable grease collection tray gathers oil and residue. Regularly empty and clean this tray to prevent buildup and maintain hygiene. The tray is designed for easy removal and disposal of collected grease.

6.3 Exterior Cleaning

Clean the exterior stainless steel surfaces with a mild detergent and a soft cloth. Avoid abrasive cleaners or scouring pads, which can scratch the finish. Dry thoroughly to prevent water spots.

7. TROUBLESHOOTING

Refer to the following table for common issues and their solutions:

Problem	Possible Cause	Solution
Range hood does not turn on.	No power supply.	Check power cord connection and circuit breaker.
Fan is weak or noisy.	Ductwork obstruction or improper installation.	Inspect ductwork for blockages. Ensure proper duct size and sealing.
LED lights not working.	Loose connection or faulty bulb.	Ensure light is properly seated. Contact support for replacement if needed.
Auto-clean function not effective.	Incorrect cleaner mixture or insufficient frequency.	Verify cleaner-to-water ratio. Increase cleaning frequency as needed. Ensure water inlet is not blocked.

If you encounter issues not listed here or if solutions do not resolve the problem, please contact customer support.

8. SPECIFICATIONS

Feature	Specification
Model	AC3000BS
Dimensions (W x D x H)	29.75" x 22" x 7"
