ZINUS IRPFG-6T

ZINUS Suzanne 6-Inch Bamboo and Metal Platform Bed Frame

Model: IRPFG-6T | Brand: ZINUS

Product Overview

The ZINUS Suzanne 6-Inch Bamboo and Metal Platform Bed Frame is a sleek, sturdy, and modern industrial design. This award-winning bed frame provides durable support for your mattress without the need for a box spring, thanks to its wooden slat system. It is designed for easy assembly and efficient packaging.

Key Features

- **Bamboo and Durable Steel Construction:** Combines sustainable bamboo with a robust steel frame for a modern industrial aesthetic and lasting durability.
- **Award-Winning Design:** Recognized by the Chicago Athenaeum Museum of Architecture and Design in 2019 for its outstanding design and packaging.
- **No Box Spring Needed:** Features closely spaced wooden slats that provide strong support for various mattress types, including latex, spring, or memory foam, eliminating the need for a traditional box spring.
- **Easy Assembly:** All necessary parts, tools, and instructions are conveniently packed into one box, allowing for quick and straightforward assembly in under an hour.
- **Efficient Packaging:** Designed for compact and efficient shipping, ensuring all components arrive together for a hassle-free setup experience.

Setup and Assembly

The ZINUS Suzanne bed frame is designed for simple and quick assembly. Follow these steps for a smooth setup:

1. **Unpack Components:** Carefully open the packaging and lay out all parts, tools, and the instruction manual. Ensure all pieces are present as listed in the manual.

2. **Assemble Frame:** Connect the main metal frame components using the provided tools. The design features interlocking parts for ease of alignment.
3. **Install Slats:** Place the wooden slats across the frame. The slats are designed to fit securely and may include adhesive strips to prevent mattress movement.

Operating Instructions

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. Simply place your mattress on top of the wooden slats. The frame provides stable and even support for a comfortable sleep experience.
Ensure the mattress is centered on the frame to prevent shifting. The integrated anti-slip tape on the slats helps to keep the mattress in position.

Maintenance

To maintain the appearance and longevity of your ZINUS Suzanne bed frame, follow these simple maintenance tips:

- **Regular Cleaning:** The metal frame can be easily wiped clean with a damp cloth to remove dust and debris.
- **Dusting:** Dust the bamboo footboard and metal frame regularly with a soft, dry cloth.

- **Check Connections:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals on the frame, as they may damage the finish.

Troubleshooting

- **Squeaking Noises:** If the bed frame produces squeaking noises, ensure all bolts and screws are securely tightened. Loose connections are a common cause of squeaking.
- **Mattress Shifting:** If your mattress slides on the frame, verify that the anti-slip tape on the wooden slats is properly adhered and not covered. If needed, you can add additional non-slip pads between the mattress and the slats.
- **Damaged Slats:** In the event of a damaged wooden slat, the design allows for individual slat replacement. Contact ZINUS customer support for replacement parts.

Specifications

Attribute	Detail
