## 4. MAINTENANCE AND CARE

---

To ensure the longevity and appearance of your COBI USS Enterprise model, follow these simple maintenance guidelines:

- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures, which can cause plastic to warp or colors to fade.
- **Handling:** Handle the model with care, especially when moving it, to prevent small parts from detaching.

## 5. TROUBLESHOOTING

---

Should you encounter any issues during assembly or with the product, consider the following:

- **Missing Pieces:** While COBI kits are known for their quality control, occasionally a piece may be missing. Refer to the manufacturer's website or contact customer support for assistance with replacement parts.
- **Difficulty Assembling:** If you struggle with a particular step, re-examine the instruction manual carefully. Ensure you are using the correct pieces and that they are oriented as shown in the diagrams. Sometimes, a small error in an earlier step can affect later assembly.
- **Loose Connections:** If parts feel loose, ensure they are fully pressed together. COBI blocks are designed for a secure fit.
