# KETTLER K1 Indoor Table Tennis Table Instruction Manual

Model: 5946255

## INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your KETTLER K1 Indoor Table Tennis Table. Designed for amateur players and home use, this table features a robust construction and a convenient folding mechanism. Please read this manual thoroughly before use to ensure safe and correct handling of your product.

The KETTLER K1 is a professional-grade indoor table tennis table, featuring a 16mm 5-layer wooden top for excellent playability. Its sturdy 36mm frame ensures durability, and the foldable design with four double wheels allows for easy storage and transport. Integrated accessories include convenient holders for rackets and balls.

## SAFETY INFORMATION

---

**Warning:** Failure to follow these safety instructions may result in injury or damage to the product.

- Always ensure the table is placed on a level, stable surface before use.
- Keep children and pets away from the table during assembly and when folding/unfolding.
- Do not climb, sit, or lean heavily on the table. It is designed for playing table tennis only.
- Ensure all locking mechanisms are securely engaged when the table is in playing position and when folded for storage.
- Exercise caution when moving the table to prevent pinching fingers or hands in moving parts.
- Regularly inspect the table for any loose parts, damage, or wear. Do not use if damaged.
- Assembly requires at least two adults, especially when handling the tabletop sections.

## SETUP AND ASSEMBLY

---

The KETTLER K1 table requires assembly. It is recommended that two adults perform the assembly process. Allow sufficient space for assembly.

## 1. Unpacking and Component Check

Carefully unpack all components and verify against the parts list provided in the separate assembly guide. Ensure no parts are missing or damaged.

## 2. Frame Assembly

Follow the step-by-step instructions in the included assembly manual to construct the main frame and attach the wheels. Ensure all bolts and screws are tightened securely.

## OPERATING INSTRUCTIONS

---

### 1. Playing Position

Once assembled, ensure both halves of the table are fully extended and the safety locking mechanisms are engaged. The net should be properly installed and taut.

### 2. Playback Function

For solo practice, one half of the table can be folded into an upright position while the other half remains flat. This allows for a rebound surface. Ensure the upright half is securely locked in place before use.

### **3. Folding for Storage**

To fold the table for storage, disengage the safety locks on both halves. Carefully lift each half and fold it upwards until it locks into the vertical storage position. The table can then be easily moved on its wheels.

#### **4. Accessory Holders**

The table is equipped with convenient holders for table tennis rackets and balls, located near the net posts. Utilize

these to keep your equipment organized and within reach.

## MAINTENANCE

---

- **Cleaning the Tabletop:** Use a soft, damp cloth to wipe the playing surface. Avoid abrasive cleaners or solvents that could damage the finish.
- **Frame and Legs:** Periodically check all bolts and screws for tightness and re-tighten if necessary. Wipe the frame with a damp cloth to remove dust.
- **Wheels:** Keep the wheels clean and free of debris to ensure smooth movement. Lubricate axles if they become stiff.
- **Storage:** When not in use, store the table in its folded position in a dry, indoor environment to protect it from moisture and extreme temperatures.
- **Net:** Remove the net when storing the table for extended periods. Clean the net with mild soap and water if needed.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Table is wobbly or unstable.	Loose bolts or uneven floor surface.	Check and tighten all assembly bolts. Ensure the table is on a flat surface. Note: The KETTLER K1 table does not feature adjustable feet for leveling.

Problem	Possible Cause	Solution
Folding mechanism is stiff or stuck.	Debris in the mechanism or lack of lubrication.	Clean any visible debris from the hinges and locking points. Apply a small amount of silicone lubricant if necessary. Do not force the mechanism.
Wheels do not roll smoothly.	Debris caught in wheels or axles.	Remove any hair or debris from the wheel axles. Clean the wheels.
Net is not taut.	Improper net installation or adjustment.	Re-install the net according to its specific instructions, ensuring tensioning mechanisms are correctly used.
