Swann SWPRO-1080SL-US

Swann 1080p Bullet Camera Instruction Manual

Model: SWPRO-1080SL-US

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Swann 1080p Bullet Camera. Please read this manual thoroughly before using the product to ensure proper functionality and safety. Keep this manual for future reference.

2. PRODUCT OVERVIEW

The Swann 1080p Bullet Camera is a high-resolution wired security camera designed for surveillance. It features night vision capabilities, motion sensor technology, and smart human/vehicle detection.

Key Features:

- 1080p Full HD video quality.
- Color night vision up to 32ft.
- Controllable flashing lights and spotlights for deterrence.
- Wide 90-degree viewing angle.
- Weatherproof design (IP66 rated).
- Smart Human/Vehicle Detection.
- Compatible with Hey Google & Alexa.

What's in the Box:

- 1080p Audio/Video Camera
- Extension Cables (60ft/18m)
- Theft Deterrent Stickers
- Quick Start Guide
- Mounting Screws & Plugs
- Power Adapter

3. SETUP AND INSTALLATION

This camera is designed for wired installation and can be mounted on a wall. Ensure the mounting surface is stable and can support the camera's weight.

Installation Steps:

1. **Choose a Location:** Select a suitable location for the camera, considering the desired viewing angle (90 degrees field of view) and proximity to a power source and DVR connection.
2. **Mount the Camera:** Use the provided mounting screws and plugs to securely attach the camera to the wall.
3. **Connect Cables:** Connect the extension cables to the camera and route them to your DVR system. Ensure all connections are secure.
4. **Power On:** Connect the power adapter to the camera and plug it into an electrical outlet.
5. **DVR Connection:** Refer to your DVR system's manual for specific instructions on adding a new camera.

4. OPERATION

Night Vision:

The camera offers both infrared and color night vision. Infrared night vision provides clear black and white images in complete darkness, while color night vision utilizes ambient light or the camera's spotlights to produce color images.

1080p

Image: A split image demonstrating the difference between infrared night vision (monochrome) and color night vision, showing a house at night.

Motion Detection and Alerts:

The camera features smart human and vehicle detection, reducing false alarms. When motion is detected, the system can send app push notifications and email alerts.

Image: Illustrates smart person and vehicle detection, showing detected outlines around a person with a stroller and a car, alongside icons for app push and email alerts.

Deterrent Features:

The camera includes red and blue flashing lights and spotlights that can be activated to deter intruders upon motion detection.

Scare Intruders Away

The red & blue flashing lights deter intruders, while the spotlights and mobile alerts leave no place for them to hide.

Motion Alert

5. MAINTENANCE

The Swann 1080p Bullet Camera is designed to be weatherproof with an IP66 rating, allowing it to withstand various environmental conditions.

General Care:

- Regularly check the camera lens for dirt or obstructions and clean with a soft, damp cloth.
- Ensure all cable connections remain secure and free from damage.
- Avoid using harsh chemicals or abrasive materials for cleaning.
- Verify the camera's mounting remains stable over time.

6. TROUBLESHOOTING

If you encounter issues with your Swann 1080p Bullet Camera, consider the following common troubleshooting steps:

- **No Image/Video:** Check all cable connections, including power and video cables. Ensure the camera is receiving power and the DVR input is correctly selected.
- **Poor Image Quality:** Clean the camera lens. Verify the resolution settings on your DVR. Ensure there are no obstructions in the camera's field of view.
- **Motion Detection Issues:** Adjust the sensitivity settings on your DVR or through the Swann app. Ensure the camera's view is clear of moving objects that could cause false triggers.
- **Night Vision Not Working:** Check if the infrared LEDs are active. Ensure there is no strong light source directly interfering with the camera's night vision sensors.

For more detailed troubleshooting or specific technical support, please refer to the official [User Guide \(PDF\)](#) or contact Swann customer service.

7. SPECIFICATIONS

Feature	Specification
Model Number	SWPRO-1080SL-US
Video Capture Resolution	1080p

Field Of View	90 Degrees
