NutriChef 18 Bottle Slim Wine Fridge (Model PKCWC18) Instruction Manual

Model: PKCWC18

1. INTRODUCTION

The NutriChef 18 Bottle Slim Wine Fridge is designed to preserve the flavor and aroma of your wine collection by maintaining an optimal temperature range. This freestanding wine cooler features advanced compressor fan cooling technology, ensuring consistent temperature control and air circulation. Its sleek design and quiet operation make it suitable for various placements in your home or office.

2. SAFETY INFORMATION

Please read all instructions carefully before using the appliance. Keep this manual for future reference. Always ensure the appliance is placed on a stable, level surface. Do not block ventilation openings. Do not use mechanical devices or other means to accelerate the defrosting process. Do not damage the refrigerant circuit. This appliance is intended for household use only. Keep away from children.

3. PACKAGE CONTENTS

- NutriChef 18 Bottle Slim Wine Fridge Unit
- Contoured, Polished Chrome Wine Racks (5 shelves)
- User Manual

4. SETUP & INSTALLATION

4.1 Placement

This wine cooler is designed for freestanding installation. It can be placed on floors, tables, or countertops. Ensure adequate space around the unit for proper ventilation. Avoid direct sunlight or heat sources.

4.2 Initial Setup

- Unpack the wine fridge and remove all packaging materials.
- Place the unit upright in its desired location. It is crucial to let the appliance stand upright for at least 2 hours before plugging it in to allow the refrigerant to settle.
- Clean the interior of the unit with a damp cloth.

4. Plug the unit into a grounded 120V power outlet.

4.3 Handle Installation (if applicable)

The recessed handle is typically pre-installed. If your model requires handle attachment, carefully align the handle with the pre-drilled holes on the door and secure it with the provided screws. Ensure the door seal is not obstructed during installation.

Figure 2: The freestanding design allows for flexible placement on floors, tables, or countertops.

5. OPERATING INSTRUCTIONS

5.1 Temperature Control

The wine fridge features a sensitive digital touch button display panel on the glass door for easy temperature adjustment and monitoring. The temperature range is 41°F to 64°F (5°C to 18°C).

1. To adjust the temperature, press the **UP** or **DOWN** arrow buttons on the control panel.
2. The display will show the set temperature.
3. To switch between Celsius and Fahrenheit, press the **°C/°F** button.

5.2 Interior LED Light

An integrated LED light with power control illuminates the interior, allowing you to view your wine collection.

- To turn the LED light on or off, press the **Light Bulb** button on the control panel.

5.3 Control Panel Auto-Lock

The control panel automatically locks after 20 seconds of inactivity to prevent accidental changes. To unlock, press

and hold the **Lock** button for 2 seconds.

Figure 4: Key features include an air-tight seal, adjustable temperature, and a reinforced glass door.

6. MAINTENANCE & CARE

6.1 Cleaning the Interior

Regularly clean the interior with a mild detergent and warm water. Wipe dry with a soft cloth. The chrome wine racks can be removed for easier cleaning.

6.2 Cleaning the Exterior

Clean the exterior with a soft cloth and a mild, non-abrasive cleaner. For stainless steel surfaces, use a stainless steel cleaner and polish in the direction of the grain.

6.3 Power Outage

In case of a power outage, minimize opening the door to maintain the internal temperature for as long as possible.

7. TROUBLESHOOTING

7.1 Unit Not Cooling

- Ensure the power plug is securely connected.
- Check if the circuit breaker has tripped.
- Verify the temperature setting is appropriate.
- Ensure the door is closed properly and the seal is intact.
- Confirm adequate ventilation around the unit.

7.2 Excessive Noise

- Ensure the unit is on a level surface.
- Check for any objects vibrating against the unit.
- Normal compressor operation may produce a low hum.

7.3 Temperature Fluctuations

- Avoid frequent door openings.
- Ensure the unit is not exposed to direct sunlight or extreme ambient temperatures.
- Verify the door seal is not compromised.

8. SPECIFICATIONS

Feature	Specification
Brand Name	NutriChef
