Mayfair 126CHSL 000

Mayfair Bennett Elongated Toilet Seat with Chrome Hinges

Model: 126CHSL 000

Manufactured by Mayfair

1. PRODUCT OVERVIEW

The Mayfair Bennett Elongated Toilet Seat is designed for comfort, durability, and quiet operation. Crafted from durable enameled wood, it features a high-gloss white finish and non-tarnish chrome hinges that complement various bathroom decors. This seat incorporates advanced features such as slow-close technology and the innovative STAY-TITE Seat Fastening System to ensure a secure and stable fit.

2. SAFETY INFORMATION

- Do not stand on the toilet seat or lid.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- Ensure all fasteners are securely tightened during installation to prevent movement.
- Keep small children away from installation hardware.

3. PACKAGE CONTENTS

Your Mayfair Bennett Toilet Seat package includes:

- 1 x Elongated Toilet Seat with Chrome Hinges
- 1 x Hardware Kit (bolts, washers, nuts)

Tools Required (Not Included):

- 1/2 inch (13 mm) wrench or socket

4. INSTALLATION INSTRUCTIONS

The Mayfair Bennett Toilet Seat features the STAY-TITE Seat Fastening System for a secure installation that prevents loosening. Follow these steps for quick and easy setup:

1. **Prepare the Toilet:** Remove your old toilet seat. Clean the toilet bowl area thoroughly where the new seat will be installed.
2. **Insert Bolts:** Thread the bolts (A) into the hinges on the new toilet seat. Ensure they are fully inserted.
3. **Position Seat:** Place the toilet seat onto the toilet bowl, aligning the bolts with the holes in the bowl.
4. **Attach Washers and Nuts:** From the underside of the toilet bowl, slide the washers onto the bolts, followed by the nuts (C).
5. **Finger Tighten:** Finger tighten the nuts until the seat is snug.
6. **Final Tightening (STAY-TITE System):** Use a 1/2 inch (13 mm) wrench or socket to tighten the nuts further. The STAY-TITE system is designed to achieve precision torque, ensuring the seat remains firmly attached without over-tightening. Tighten until the nut snaps off, indicating optimal torque.

Easy Installation

Video: Sharp Looking Easy Install Slow Close Toilet Seat!! This video provides a visual guide to the easy installation of the toilet seat, highlighting its sleek appearance and slow-close feature.

5. OPERATION (SLOW-CLOSE FEATURE)

The Mayfair Bennett Toilet Seat is equipped with Whisper Close hinges, providing a slow and quiet closing action for both the lid and the seat. This feature prevents slamming, reduces noise, and protects fingers from being pinched.

- To close the lid or seat, simply push it down gently. The slow-close mechanism will engage, allowing it to descend smoothly and quietly on its own.
- The slow-close mechanism functions best when the seat is properly installed on the toilet bowl.

SLOW CLOSE FEATURE

Seat must be installed on toilet bowl
BEFORE
the Slow Close mechanism will function.

CLEANING YOUR TOILET SEAT

To preserve your seat's glossy finish,
we recommend cleaning with either:

- Mild soapy water
- Dish soap
- Water wipes

**Do Not Use
Bleach or Harsh Chemicals**

6. MAINTENANCE & CLEANING

To preserve the glossy finish and extend the life of your Mayfair Bennett Toilet Seat, follow these cleaning guidelines:

- Clean regularly with mild soapy water, dish soap, or water wipes.
- Use a soft cloth or sponge to wipe the surfaces.
- **DO NOT** use bleach, abrasive cleaners, or harsh chemicals, as these can damage the finish and hinges.
- Rinse thoroughly with clean water and dry with a soft cloth.

Image: A hand wiping the toilet seat with a cloth, illustrating the use of gentle cleaners to maintain the color and finish.

7. TROUBLESHOOTING

Seat is Loose or Wiggles:

- Ensure the STAY-TITE nuts are fully tightened. The system is designed to snap off when the correct torque is reached, providing a secure fit. If the nuts did not snap during initial installation, re-tighten them using a 1/2 inch (13 mm) wrench until they do.
- Check that the bolts are properly aligned with the toilet bowl holes.

Slow-Close Feature Not Working Properly:

- Verify that the toilet seat is correctly installed and securely fastened to the toilet bowl. Improper installation can affect the slow-close mechanism.
- Ensure no obstructions are preventing the lid or seat from closing smoothly.
- Avoid forcing the lid or seat down, as this can damage the slow-close mechanism over time.
