6. TROUBLESHOOTING

If you encounter any issues with your FEZIBO Electric Standing Desk, please refer to the following general troubleshooting steps:

- **Desk Not Moving:** Check if the power cord is securely plugged into both the desk and a working power outlet. Ensure no cables are obstructing the movement of the legs.
- **Error Codes:** If the control panel displays an error code, consult the full assembly manual for specific interpretations and solutions.
- **Uneven Movement:** Ensure the desk is on a level surface and that all leg components are securely fastened.

- **Noise:** While the desk operates quietly (45 dB), unusual or excessive noise may indicate a loose component. Inspect the frame and motor area.

For persistent issues or technical support, please contact FEZIBO customer service.
