1. INTRODUCTION

Thank you for choosing the Spirit Of Gamer XPERT-K300 Mechanical Gaming Keyboard. This high-performance keyboard is designed for an optimal gaming experience, featuring responsive Victory Blue mechanical switches, customizable RGB backlighting, and N-Key Rollover anti-ghosting technology. This manual provides detailed instructions for setting up, operating, and maintaining your keyboard to ensure long-lasting performance.

2. PRODUCT FEATURES

- **Victory Blue Mechanical Switches:** Experience enhanced responsiveness and durability with mechanical switches designed for rapid action. These switches offer a lifespan of 60 million keystrokes, requiring only 44 grams of pressure and a 2mm actuation distance for ultra-fast response times.

- **Advanced Anti-Ghosting with N-Key Rollover (NKRO):** The XPERT-K300 ensures every keystroke is registered, regardless of how many keys are pressed simultaneously. This technology prevents missed commands during intense gaming sessions.
- **Customizable RGB Backlighting:** Personalize your keyboard with 30 distinct RGB lighting modes. Choose from 20 predefined "Gaming Lights" effects such as Neon, Wave, Rainbow, and Shadow, or create and save up to 10 custom lighting profiles using the internal memory. Adjust brightness and effect speed to match your preference.
- **Play/Office Mode:**
 - **Play Mode:** Deactivates the Windows key to prevent accidental interruptions during gameplay.
 - **Office Mode:** Reactivates the Windows key and restores full keyboard functionality for standard use.
- **Multimedia Shortcuts:** Access 12 multimedia functions directly via key combinations, allowing quick control over media playback, volume, and web browser access.
- **Durable Design:** The keyboard features a metallic surface, red trim, and a high-quality plastic base, providing a robust and aesthetically pleasing finish.

3. SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove the keyboard and its accessories from the packaging. Ensure all components listed in the "What's in the Box" section are present.
2. **Connection:** Connect the USB cable from the XPERT-K300 keyboard to an available USB port on your computer.
3. **Driver Installation:** The keyboard is plug-and-play and typically does not require additional drivers for basic functionality. Your operating system (Windows, macOS) should automatically recognize and install the necessary drivers.
4. **Initial Test:** Open a text editor or browser and type to confirm that the keyboard is functioning correctly.

4. OPERATING INSTRUCTIONS

4.1. RGB Backlighting Control

The XPERT-K300 offers extensive customization for its RGB backlighting. Use the following key combinations to control the lighting effects:

- **Changing Modes:** Press **Fn + [Key]** (specific keys may vary, refer to keyboard legends for lighting controls, often located on F-keys or dedicated lighting keys) to cycle through the 20 predefined "Gaming Lights" modes.
- **Adjusting Brightness:** Use **Fn + Up Arrow** to increase brightness and **Fn + Down Arrow** to decrease brightness.
- **Adjusting Speed:** Use **Fn + Left Arrow** to decrease effect speed and **Fn + Right Arrow** to increase effect speed.
- **Customizing Profiles:** The keyboard supports 10 customizable lighting profiles. Consult the full software manual (if available) or specific key combinations for programming these profiles.

4.2. Play/Office Mode

Toggle between Play and Office modes using the dedicated function key combination:

- **Activate Play Mode:** Press **Fn + Windows Key**. This will disable the Windows key to prevent accidental presses during gaming.
- **Activate Office Mode:** Press **Fn + Windows Key** again to re-enable the Windows key for standard desktop use.

4.3. Multimedia Shortcuts

The XPERT-K300 includes 12 multimedia shortcuts accessible via the **Fn** key in combination with the F-keys (F1-F12). Common functions include:

- **Fn + F1-F4:** Media Player controls (e.g., Play/Pause, Stop, Previous Track, Next Track)
- **Fn + F5-F8:** Volume controls (e.g., Mute, Volume Down, Volume Up)
- **Fn + F9-F12:** Application shortcuts (e.g., Email, Web Browser, My Computer, Calculator)

Refer to the key legends on your keyboard for the exact multimedia functions assigned to each F-key.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your XPERT-K300 keyboard.

- **Cleaning the Keyboard:**
 - Disconnect the keyboard from your computer before cleaning.
 - Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and chassis.
 - For dust and debris between keys, use compressed air.
 - The included keycap puller can be used to carefully remove keycaps for deeper cleaning. Ensure to reattach them correctly.
- **Avoid Liquid Spills:** Keep liquids away from the keyboard to prevent damage to internal components.
- **Storage:** When not in use for extended periods, store the keyboard in a clean, dry environment away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not responding.	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely connected. Try a different USB port on your computer. Restart your computer. Check Device Manager (Windows) or System Information (macOS) to see if the keyboard is recognized.
Keys are not registering or double-typing.	Debris under keycap, switch malfunction.	Use compressed air to clear debris around the affected key. Carefully remove the keycap with the provided puller and clean underneath. If the issue persists, contact customer support.
Backlighting is not working or incorrect.	Lighting mode settings, software glitch.	Ensure the brightness is not set to minimum (Fn + Up Arrow). Cycle through different lighting modes (Fn + [Key]) to see if it responds. Restart your computer.
Windows key is disabled.	Keyboard is in Play Mode.	Press Fn + Windows Key to switch back to Office Mode.

Problem	Possible Cause	Solution
Incorrect character input (e.g., AZERTY layout issues).	Operating system language/layout settings.	Ensure your operating system's keyboard layout is set to AZERTY (French) if you are using an AZERTY keyboard. On Windows, this can be found in "Language settings".
