1. Product Overview

The Logitech Circle View Home Security Camera is a HomeKit-enabled device designed to provide reliable surveillance for your home. It features Logitech TrueView™ video with full 1080p HD resolution, a 180° field-of-view, wide dynamic range, and enhanced infrared night vision up to 15 feet. Its weatherproof body (IP64-rated) allows for both indoor and outdoor installation.

Key features include:

- **TrueView Video:** 1080p HD with 180° field-of-view and wide dynamic range.
- **Enhanced Night Vision:** Clear visibility up to 15 feet in the dark.
- **Weatherproof Design:** IP64-rated for indoor or outdoor use.
- **Privacy Features:** Tilt camera down or use the rear on/off button for immediate privacy.
- **Apple HomeKit Secure Video:** Seamless integration with the Apple Home app for secure control and encrypted video storage.

2. Setup Guide

Before you begin, ensure you have a stable 2.4 GHz Wi-Fi network and an iOS device with the latest version of iOS or iPadOS. Apple HomeKit Secure Video requires a supported iCloud+ plan and a Home hub (HomePod mini, HomePod, or Apple TV).

2.1 What's Included

- Logitech Circle View Camera with tethered 10-foot power cable
- Indoor USB power supply
- Quick start guide
- Wall mounting hardware (mounting plate, cable clips, screws, and anchors)

2.2 Installation Steps

1. **Unpack:** Carefully remove all components from the packaging.
2. **Power On:** Connect the camera's tethered power cable to the indoor USB power supply and plug it into a power outlet. The camera will power on automatically.
3. **Prepare for HomeKit:** Open the Apple Home app on your iOS device. Tap the '+' icon to add an accessory.
4. **Scan HomeKit Code:** Scan the HomeKit setup code located on the camera or in the quick start guide. Follow the on-screen prompts to add the camera to your HomeKit setup.
5. **Mounting (Optional):** If wall-mounting, use the included hardware. The camera's weatherproof design allows for outdoor placement. Ensure the camera is placed within Wi-Fi range.

**CRAFTED FOR YOUR HOME
WITH SIMPLE SETUP**

SUPPORTS APPLE HOMEKIT SECURE VIDEO

(requires supported iOS device, iCloud plan & home hub)

Figure 3: HomeKit Secure Video requires a compatible iOS device, iCloud+ plan, and a home hub.

3. Operating Instructions

The Logitech Circle View camera operates primarily through the Apple Home app.

3.1 Live View and Recording

- Access live video feed and recorded events directly from the Apple Home app on your iPhone, iPad, or Mac.
- The camera provides 1080p HD video with a 180° field-of-view, capturing a wide area.
- Recordings are motion-detection based and stored securely in iCloud via HomeKit Secure Video.

LOGITECH TRUEVIEW VIDEO

180° FOV / WDR / IR Night Vision

Figure 4: Logitech TrueView video technology provides 180° FOV, WDR, and IR Night Vision.

3.2 Night Vision

The camera features enhanced infrared night vision, providing clear images in low-light conditions up to 15 feet away.

3.3 Two-Way Audio

Utilize the two-way audio feature through the Home app to communicate with individuals near the camera.

3.4 Privacy Features

For immediate privacy, you can:

- **Tilt Down:** Physically tilt the camera lens downwards to block its view.
- **On/Off Button:** Press the button located on the rear of the camera to instantly stop streaming and recording.

DESIGNED FOR YOUR PRIVACY
Tilt camera down to hide from view

TURN OFF WITH THE PRESS OF A BUTTON

Figure 6: The rear on/off button provides immediate control over streaming and recording.

4. Maintenance

The Logitech Circle View camera is designed for durability and minimal maintenance.

4.1 Cleaning

- Wipe the camera lens and body with a soft, damp cloth. Avoid abrasive cleaners or solvents.
- Ensure the lens is clear of dust and debris for optimal video quality.

4.2 Weather Resistance

The camera has an IP64 weatherproof rating, protecting it from dust and splashing water. While designed to withstand outdoor elements, avoid submerging the camera in water.

Figure 7: The weatherproof body ensures reliable operation in various outdoor conditions.

5. Troubleshooting

If you encounter issues with your Logitech Circle View camera, refer to the following common solutions:

5.1 Camera Offline / Connectivity Issues

- **Check Wi-Fi:** Ensure your 2.4 GHz Wi-Fi network is active and the camera is within range.
- **Power Cycle:** Unplug the camera's power supply, wait 10 seconds, and plug it back in.
- **Router Restart:** Restart your Wi-Fi router.
- **Home App:** Verify the camera's status in the Apple Home app. Ensure your Home hub (HomePod, Apple TV) is online and functioning correctly.

5.2 Overheating

- Avoid direct sunlight exposure for extended periods, especially in hot climates, as this can cause the camera to temporarily shut down.
- Relocate the camera to a shaded area if overheating is a recurring issue.

5.3 Firmware Updates

- Firmware updates are managed automatically through Apple HomeKit. Ensure your iOS device and

Home hub are running the latest software versions.

- Allow sufficient time for updates to complete; avoid disconnecting power during an update.

5.4 Video Quality Issues

- Clean the camera lens as described in the Maintenance section.
- Ensure adequate lighting for optimal image capture, especially for night vision performance.

6. Product Specifications

Model Name	Circle View Camera
Part Number	961-000489
Video Capture Resolution	1080p HD
Viewing Angle	180 Degrees
Night Vision	Enhanced Infrared, up to 15ft
