Aivituvin AIR29

Aivituvin 71" Chicken Coop Run Extension (Model AIR29) Instruction Manual

Model: AIR29

1. Introduction

This manual provides essential instructions for the assembly, operation, maintenance, and troubleshooting of your Aivituvin 71" Chicken Coop Run Extension, Model AIR29. This run extension is designed to provide additional space for poultry and small animals and is compatible with Aivituvin chicken coops AIR27, AIR31, and AIR32, or can be used as a standalone enclosure.

Safety Information

- Read all instructions carefully before assembly and use.
- Adult assembly is required. Keep children and pets away during assembly.
- Inspect all components for damage before assembly. Do not use if any parts are damaged.
- Ensure the assembled run is placed on a stable, level surface.
- Regularly check the enclosure for any signs of wear, damage, or loose components to ensure the safety of your animals.

2. Setup and Assembly

Follow the included step-by-step assembly instructions carefully. It is recommended to have at least two people for assembly. A power drill can expedite the process, but use a low torque setting to prevent wood splitting.

Key Assembly Points:

- **Component Identification:** Lay out all parts and hardware. Refer to the parts list in your separate assembly guide to identify each component.
- **Frame Construction:** The run features an all-iron frame designed for durability. Ensure all frame connections are secure.
- **Door Installation:** Install the detachable front and rear doors, and the removable small left door as per the instructions. These doors are designed for easy access and combination with other coops.
- **Perches:** Install the two raised perches inside the run. These are designed for roosting and resting.
- **Compatibility:** If combining with an Aivituvin coop (AIR27, AIR31, AIR32), ensure the dimensions align correctly. The run's left door is 19.3"L x 14.4"H, and the front door is 26"L x 24.6"H. Measure your existing coop's access points before

integration.

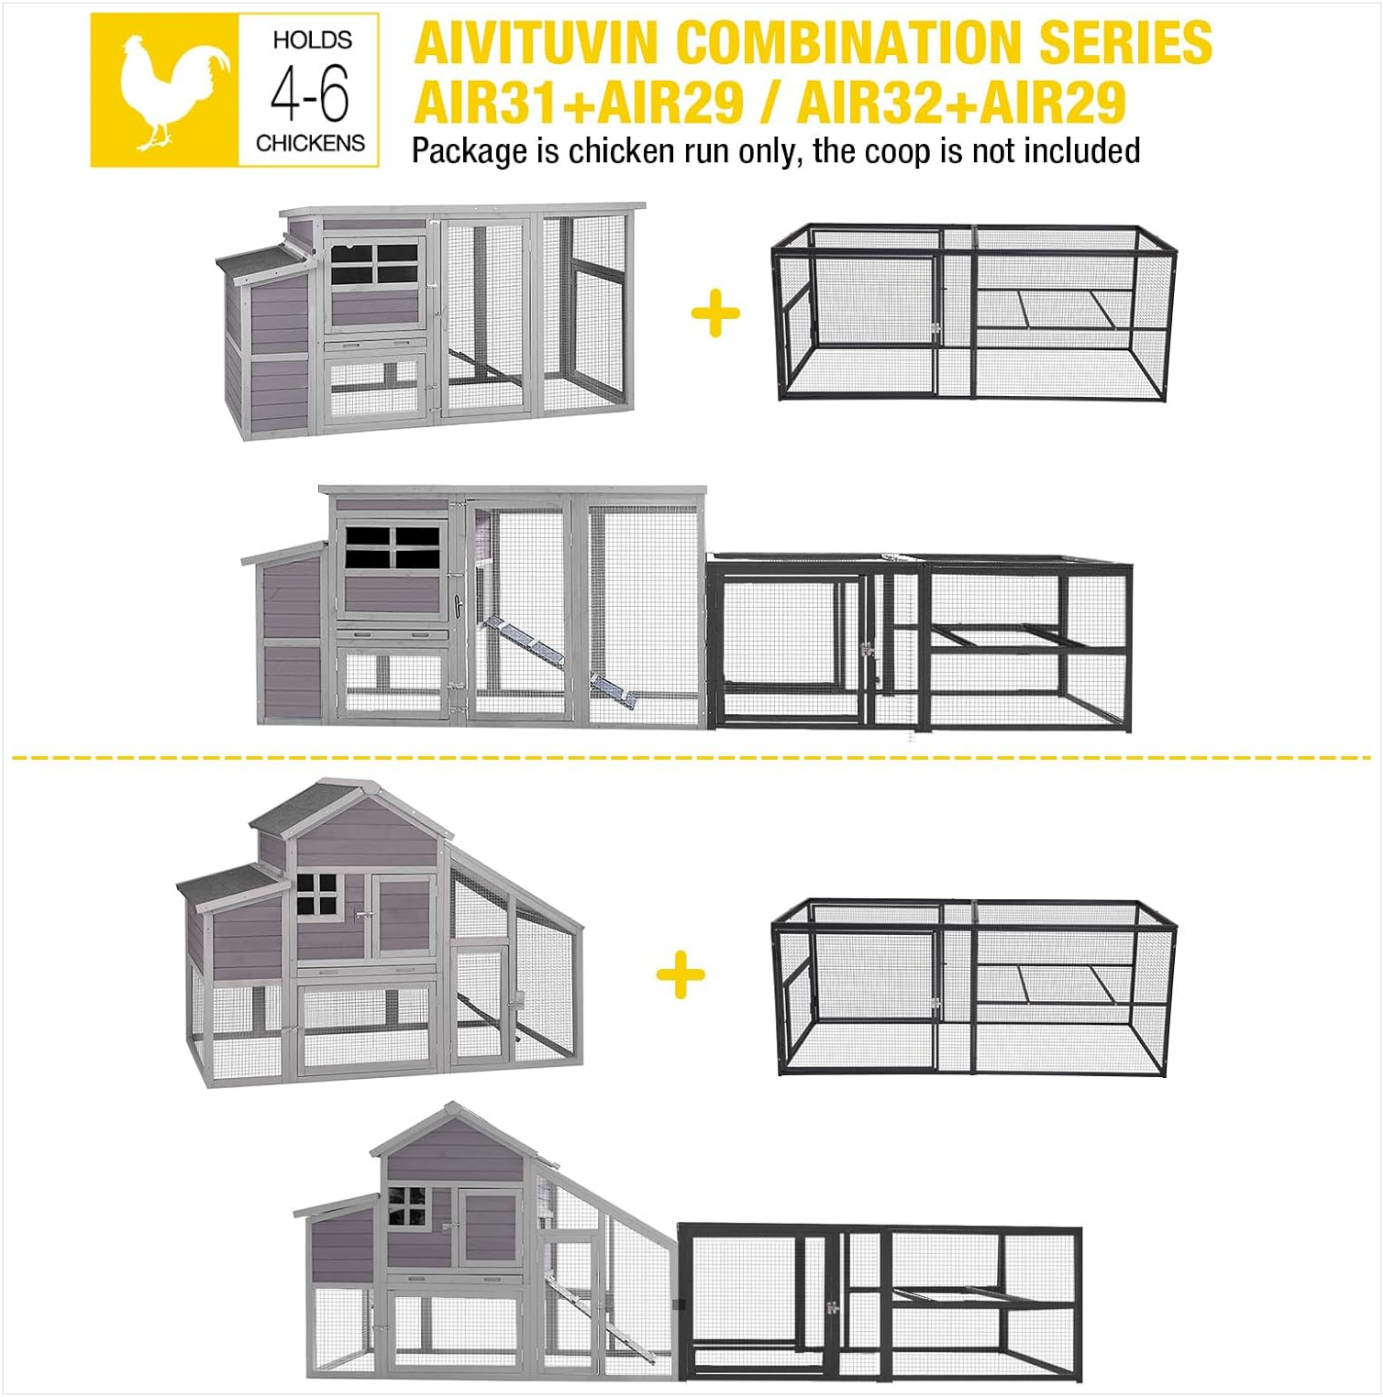

Figure 3: Visual guide illustrating the compatibility of the AIR29 run extension with Aivituvin AIR31 and AIR32 chicken coops, showing various combination possibilities.

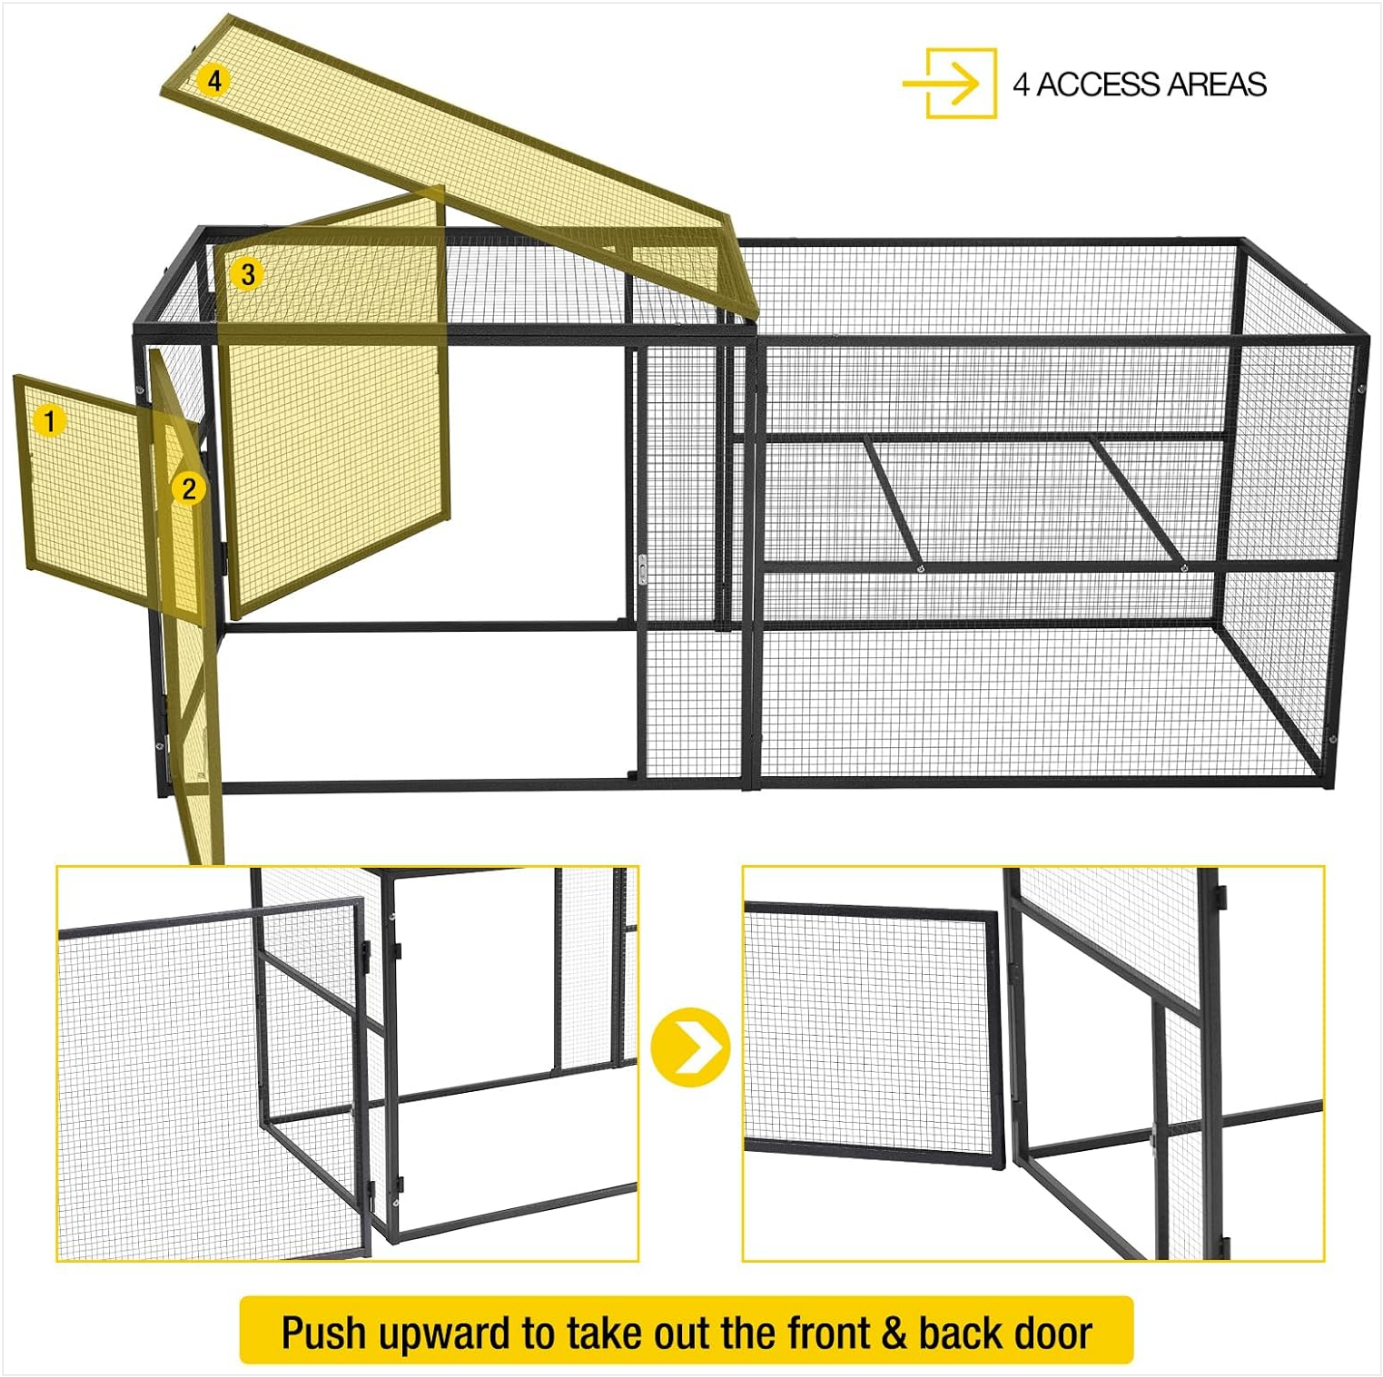

Figure 4: Diagram indicating the four access points on the run extension, including the large openable top cover and detachable front and rear doors, designed for easy interaction and cleaning.

3. Operating Instructions

The Aivituvin 71" Chicken Coop Run Extension provides a secure and spacious outdoor area for your animals.

Usage:

- **Animal Access:** Allow your chickens, ducks, or small animals to freely move between their main coop and the run extension.
- **Roosting:** The included perches offer comfortable spots for birds to roost and rest.
- **Access Doors:** Utilize the large openable top cover and the detachable front and rear doors for easy access to your animals or for placing food and water. The removable small left door facilitates connection to compatible coops.
- **Space:** The 14.36 ft² running space allows ample room for movement and activity.

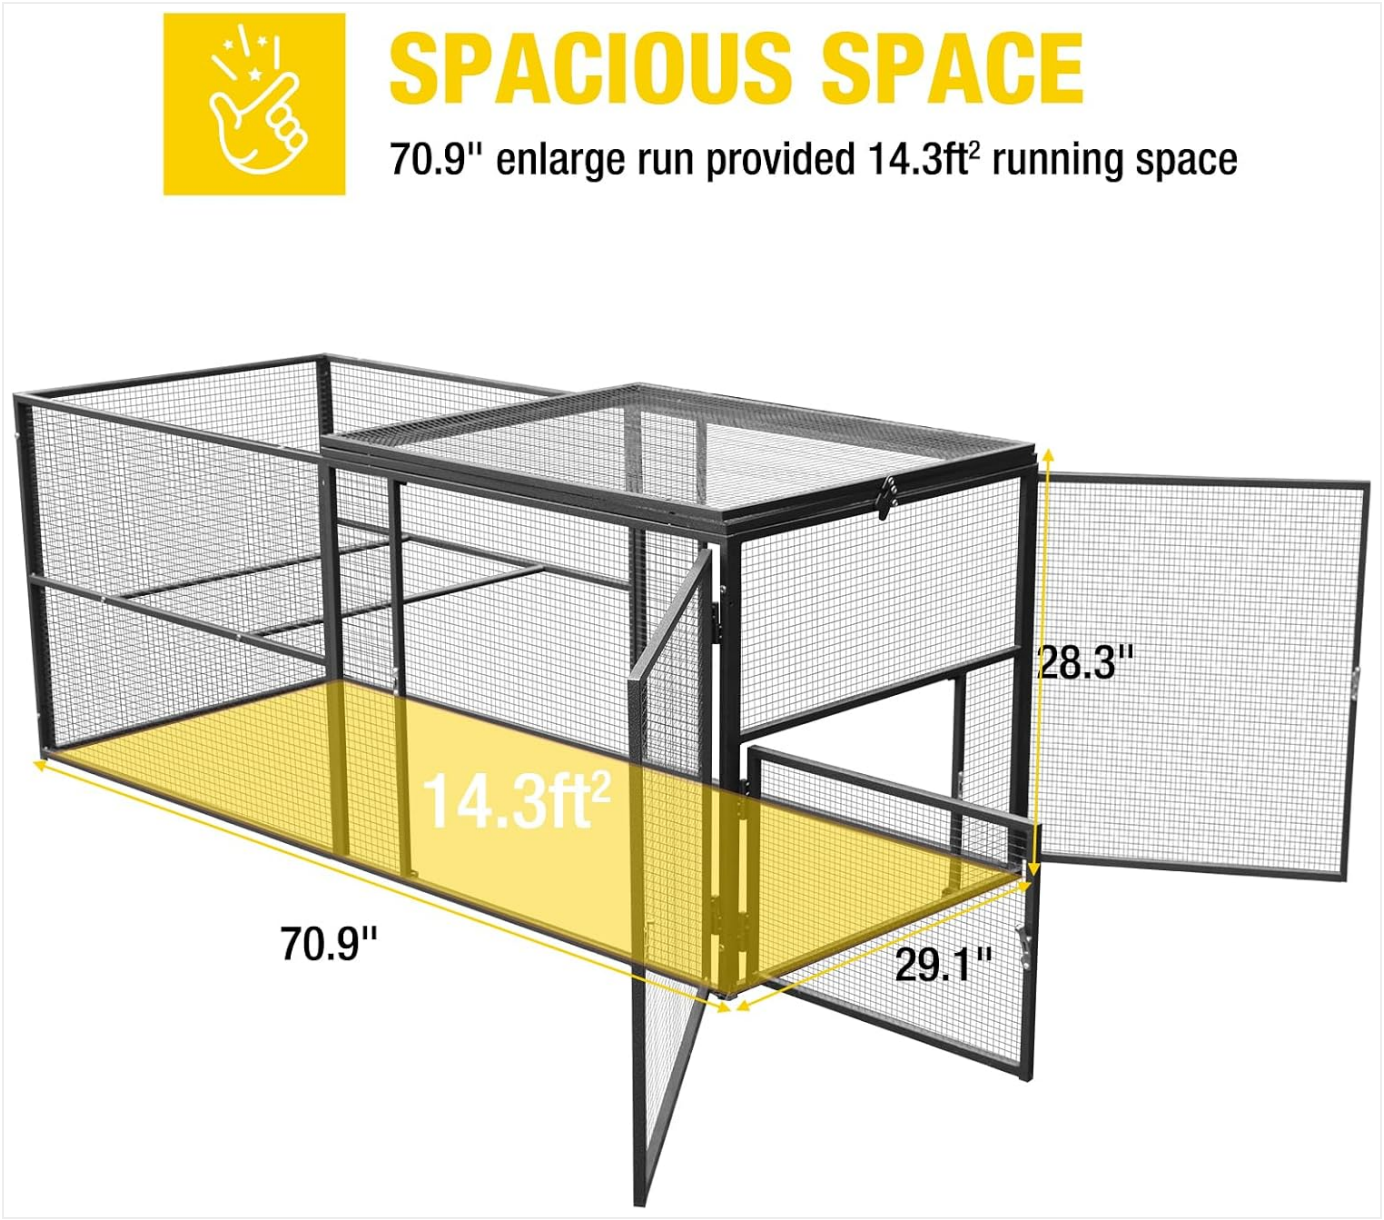

Figure 5: An overhead view of the run extension, highlighting its spacious interior and key dimensions (70.9"L x 29.1"W x 28.3"H), providing 14.36 sq ft of running space.

4. Maintenance

Regular maintenance will extend the lifespan of your chicken run extension and ensure a healthy environment for your animals.

- **Cleaning:** Regularly remove animal waste and soiled bedding from the run. The openable top and detachable doors facilitate access for cleaning.
- **Inspection:** Periodically check the metal frame, wire mesh, and door latches for any signs of rust, damage, or loose connections. Tighten any loose screws.
- **Weather Protection:** While the iron frame is designed to withstand inclement weather, consider additional measures in extreme conditions to protect your animals and the structure.
- **Perch Condition:** Ensure perches are clean and securely attached.

5. Troubleshooting

This section addresses common issues you might encounter with your chicken run extension.

- **Difficulty during assembly:** Ensure all parts are correctly oriented according to the assembly guide. Do not overtighten screws, especially if using a power drill, to prevent material damage.
- **Run feels unstable:** Verify that all screws and connections are securely tightened. Ensure the run is placed on a flat, level surface.
- **Predator concerns:** The run provides a basic level of enclosure. For areas with active predators, additional predator-proofing measures (e.g., burying wire mesh, adding stronger latches, securing the top) may be necessary.
- **Wire mesh detachment:** If any wire mesh becomes detached, re-secure it using appropriate fasteners or wire ties.
- **Cleaning challenges:** For areas where bedding or debris accumulates, use a small brush or scraper to dislodge material. Regular, frequent cleaning can prevent buildup.

6. Specifications

Model Number	AIR29
Product Dimensions (L x W x H)	70.9" x 29.1" x 28.3"
Material	Metal
Item Weight	26 pounds
Running Space	14.36 ft^2
Number of Doors	2 (front and rear detachable, 1 small left removable)
Included Features	2 Raised Perches
Target Species	Chicken, Bird, Small Animal

7. Warranty Information

Specific warranty details for the Aivituvin 71" Chicken Coop Run Extension (Model AIR29) are not provided in this manual. Please refer to the product packaging, the seller's website, or contact Aivituvin customer service directly for comprehensive warranty information.
